Cotter Cunningham
Vice President
Waller Creek Local Government Corporation (LGC)

RE: Waller Creek District: Addendum One (Additional Authority) – Emerging Projects Coordination Phase Plan

Dear Cotter:

Enclosed herewith you will find Addendum One to the Emerging Projects Coordination Phase Plan (Phase Plan), covering professional services only. The overarching goal of this Phase Plan is to allow the team to efficiently and expediently respond to Waller Creek District-wide projects that affect the vision of the Waterloo Greenway Project.

The Phase Plan includes the whole Waller Creek District boundary. Please see Exhibit A for the Project Area Diagram. The type of potential services outlined in this Phase Plan includes case-by-case design work and coordinating efforts with private and public projects that emerge in the Waller Creek District and have immediate impacts on the Waterloo Greenway Project. This can include, but is not limited to work regarding bank stability, mobility, stormwater infrastructure, utility routing, easements, real estate, and any projects with adjacent property owners/developers, for more detail please refer to Exhibit B – Implementation Plan.

Addendum One increases the original Phase Plan costs by **\$10,000** to accommodate two final scopes from the initial investment of \$300,000 into the budget allowance in 2019, which is intended to be reviewed and approved annually. The forthcoming annual review process will include a summary of scopes performed as well as updated consultant and subconsultant billing rates. Please refer to the enclosed Exhibit E for the proposed annual Project Budget including identification of funding sources.

The materials in Addendum One only show the updated exhibits, all other documentation from the originally approved phase plan and addenda remain valid. The Joint Development Agreement, Section 3, identifies the documentation required for each proposed phase plan. The attached checklist identifies all the submission requirements including those applicable to this Phase Plan and where they can be found in this document.

N/A	3.04 A.23	Naming Rights	Identify any license agreements necessary for naming rights	N/A - none contemplated in this scope of work
N/A	3.04 A.24	Change in Ownership	Identify if there is a proposed change in ownership of a Public District Site	N/A - none contemplated in this scope of work
N/A	3.04 A.25	Capital Needs Timing	Identify the capital needs timing for City Planning purposes	Exhibit F
N/A	3.04 A.26	Payment to PARD or other City Departments	Identify how payments will be made to PARD or other City Depts for their operations	N/A - none contemplated in this scope of work
N/A	3.04 A.27	Public Accessibility	Identify public accessibility and provisions thereof	N/A - none contemplated in this scope of work
N/A	3.04 A.28	Timing of transfers	Identify timing of transfers of improvements and land	N/A - none contemplated in this scope of work
N/A	3.04 A.29	Maintain natural space	Identify the ways projects will be designed to maintain natural space	
N/A	3.04 A.30	Maintain flexibility of City owned properties	Identify how the flexibility of City Owned properties will be maintained	The team will include maintaining flexibility as a goal

ADDENDUM ONE (ADDITIONAL AUTHORITY) – EMERGING PROJECTS COORDINATION PHASE PLAN

Project Identification:

Title: Addendum One to the Emerging Projects Coordination Phase Plan (or “Addendum One”)

Location: Waller Creek District

Date: 12 October 2022

Unless otherwise specified herein, section reference shall refer to that certain Joint Design Development, Management and Operation Agreement by and among the City of Austin (“City”), Waller Creek Conservancy (“WCC”) and Waller Creek Local Governmental Corporation (“LGC”), dated April 16, 2014 (the “JDA”).

Effective August 14, 2019, the non-profit corporation formerly known as Waller Creek Conservancy (“WCC”) became known as Waterloo Greenway Conservancy and all references in this Addendum to Waller Creek Conservancy from and after that date shall mean Waterloo Greenway Conservancy (“WGC”).

EXECUTIVE SUMMARY (3.04 A.1)

The Waller Creek Chain of Parks includes a one-and-a-half mile urban, riparian ecosystem that meanders southward from Waterloo Park at 15th Street, along the eastern edge of downtown Austin, ending at Lady Bird Lake. Once complete, the Waller Creek project will total 37 acres of connected urban green space and will feature four distinct, beautifully designed park spaces, pedestrian and bicycle paths, a revitalized creek, and other urban amenities – a place where the environment, culture, health, adventure, and diversity converge. The revitalized Waller Creek will renew the natural environment, foster the creative arts, and nourish authentic and uplifting experiences that reflect Austin’s diversity and dynamic spirit.

The overarching goal of the Emerging Projects Coordination Phase Plan (Emerging Projects PP) is to allow the team to efficiently and expediently respond to Waller Creek District-wide projects that affect the vision of the Waller Creek Chain of Parks (Waller Creek project). The boundary of this Phase Plan includes the whole Waller Creek District as depicted in Exhibit A, Project Area Diagram.

The Waller Creek District is bounded to the north by 15th Street, which is the northern edge of Waterloo Park. The eastern boundary follows along the north-bound frontage road of I-35, terminating at the northern bank of Lady Bird Lake. The south boundary hugs the north bank of Lady Bird Lake and expands to the southern shore of the lake to accommodate the proposed bridge connection to the South Central Waterfront Planned district. The district’s western boundary aligns with Trinity Street until Cesar Chavez Street where it bumps out over the Four Seasons Hotel property.

This Phase Plan supports anticipated projects that will be led by Michael Van Valkenburgh Associates (MVVA) as the team lead and landscape architect. The type of services includes case-by-case design work

and coordinating efforts with private and public projects that emerge in the Waller Creek District and have immediate impacts on the Waller Creek Chain of Parks. This can include, but is not limited to work regarding bank stability, mobility, stormwater infrastructure, utility routing, easements, real estate, and any projects with adjacent property owners/developers, see below for more details. Priority will be afforded to projects that have immediate impacts on the overall vision of Waller Creek project design.

- Anticipated Design Projects (to include but not limited to):
- Bank stability projects
- Mobility studies
- Stormwater infrastructure projects
- Utility routing projects
- Design mock-ups
- Easement studies + acquisition
- Real estate studies + acquisition
- Projects associated with implementation of the Waller District Design Guidelines
- Projects with adjacent property owners (both private and public) with shared boundaries

This Phase Plan does not include construction projects. It provides design work that could lead to and support construction activities.

The Emerging Projects PP has its foundation in early design phase plans and the Creek Corridor Framework Phase Plan (CCF). The CCF Phase Plan, which commenced in June 2014 and was completed in November 2015, established key trail alignments and typical bank stabilization cross-sections; identifies strategies and general areas for riparian/aquatic restoration; iteratively refines hydrological and hydraulic (“H&H”) models; actively engages adjacent public and private development; and identifies key utility issues in the entire Waller Creek Corridor from Lady Bird Lake to 15th Street.

This scope of work – the Emerging Projects Coordination Phase Plan – will augment, incorporate and advance the findings of the Creek Corridor Framework Plan and other project phase plans, but not be duplicative of this work.

The project will require extensive coordination with the City of Austin Watershed Protection Department (WPD), the Parks and Recreation Department (PARC), and the Public Works Department (PWD). Other COA agencies that will require coordination include, but are not limited to: the Planning and Zoning Department (PAZ) and the Office of Real Estate Services (ORES). This work will also require coordination with the consulting engineers and other design professionals for developments adjacent to the Waller Creek Chain of Parks. All Services performed under this Scope of Work shall be performed in accordance with the Master Services Agreement and applicable codes, and accepted industry standards. Any acquisitions either by fee simple or easement will follow the Office of Real Estate's Standard Operating Procedures for approvals, land plans, land title surveys, Environmental Site Assessment Plans I and II and title policies.

Addendum One to the Emerging Projects Coordination Phase Plan is proposed by WGC to request additional authority for the MVVA team to conclude two professional services scopes. Addendum One increases the original Phase Plan costs, previously approved by the LGC on November 14, 2018, by \$10,000. This increase is necessary to accommodate two final scopes from the initial investment of \$300,000 in the budget allowance in 2019, which is intended to be reviewed and approved annually. The forthcoming annual review process will include a summary of scopes performed as well as updated consultant and subconsultant billing rates. Please refer to Exhibit E for a proposed annual Project Budget including identification of funding sources. Funding for Addendum One will come from WGC.

All Consultant documents shall be prepared using the English System of Weights and Measurements. It is assumed that CAD and PDF drawings are acceptable formats for submissions. Other file formats (e.g. MicroStation; AutoCAD Civil 3D) will be considered as needed on a case-by-case basis.

MAIN POINTS OF CONTACT

Proposing and Managing Party:

Waterloo Greenway Conservancy (WGC)

CEO: Jesús Aguirre, jaguirre@waterloogreenway.org (512-541-3520)

Director of Planning & Design: John Rigdon, jrigdon@waterloogreenway.org (512-541-3520)

Capital Projects Manager: Chris Perkes, cperkes@waterloogreenway.org (512-541-3520)

Responding Party:

City of Austin, Watershed Protection Department (WPD)

Kristin K. Pipkin, kristink.pipkin@austintexas.gov (512-974-3315)

Diana Wang, diana.wang@austintexas.gov (512-974-7168)

City of Austin, Parks and Recreation Department (PARC)

Kevin Johnson, kevin.johnson@austintexas.gov (512-974-9506)

Lana Denkeler, lana.denkeler@austintexas.gov (512-974-9414)

Landscape Architecture Team Lead:

Michael Van Valkenburgh Associates (MVVA)

MVVA President and CEO: Michael Van Valkenburgh, Michael@mvvainc.com (718-243-2044)

MVVA Principal: Gullivar Shepard, gshepard@mvvainc.com (718-243-2044)

MVVA Project Manager and Point of Contact: Tim Gazzo, tgazzo@mvvainc.com (718-243-2044)

Other contacts:

City of Austin, Planning and Zoning Department

Tonya Swartzendruber, tonya.swartzendruber@austintexas.gov (512-974-3462)

SCHEDULE (3.04 A.1)

The anticipated services associated with the Emerging Projects PP shall be provided for the next six (6) years from November 2018 – September 2025 with annual reviews to establish budget allowances and to resubmit the design team’s professional rates. Key milestones will correspond with other active phase plans in the Waller Creek Chain of Parks and the City of Austin’s annual review period, fourth quart of every year. MVVA’s annual team allowance is calculated based on previous emerging development project fees and on the schedule shown in **Exhibit B, Project Schedule**.

All projects initiated under this Phase Plan will go through an authorization process. After a project is identified, MVVA will provide a scope of services and fee proposal for the specific project. This proposal, along with a Funding Letter will be compiled by the Managing Party (Waller Creek Conservancy) and provided to the Responding Party (WPD and PARD) for approval. The Funding Letter also will outline the allocation of funds contributed by the Responding Party and Managing Party based on program priorities. Once the letter is agreed upon and signed by all parties, the MVVA design team will be issued a notice to proceed (NTP) and work will commence.

PERFORMANCE PERIOD

The anticipated performance period is the next six (6) years from November 2018 – September 2025.

GENERAL SCOPE OF SERVICE REQUIREMENTS

A flow chart of how the team will work and what disciplines are represented by the MVVA design team is described in **Exhibit C, Organizational Chart**, and an explanation of the anticipated deliverables and authorization process for initiating projects is described in **Exhibit D, Implementation Plan**.

CONSULTANT TEAM LIST (3.04 A.2 (i))

The following subconsultants are part of MVVA’s design team and the associated anticipated scopes, schedule, allowance, and rates are included in this proposal. Please See **Exhibit C, Organizational Chart**.

- Team Lead, Landscape Architect: Michael Van Valkenburgh Associates, Inc. (MVVA)
 - Permitting and Environmental Consulting: ACI Consulting
 - Structural Engineering: AEC
 - Accessibility Consultant: Altura Solutions
 - Civil Engineer: Big Red Dog Engineering
 - Local Landscape Architect: dwg
 - Mechanical, Electrical and Plumbing Engineer: EEA
 - Public Space Management Consulting: ETM Associates
 - Local Ecologists: Lady Bird Johnson Wildflower Center Ecosystem Design Group
 - Hydrologist: LimnoTech
 - Soil Scientist: Olsson Associates
 - Geotechnical Engineering: Terracon
 - Lighting Design: Tillett

CONTRACTING METHOD

All of the consultants and sub consultants included in this scope of work are under contract directly to the Waller Creek Conservancy. MVVA and their sub consultants are currently working with the Master Services Agreement that was put in place in May 2015.

All of the consultants and sub consultants identified by name in this Phase Plan were under agreement prior to the execution of the Joint Development Agreement (JDA). Any subsequent consultants such as a site surveyor, title company or construction management firm will be selected utilizing methods that meet the City of Austin Ordinances for procurement of services.

PROJECT BUDGET (3.04 A.4)

Anticipated services as part of this Phase Plan will be performed on a “not-to-exceed” fee basis, assuming the schedule for this work is not significantly extended beyond September 2025. MVVA team fees and estimated reimbursable expenses are shown in **Exhibit E, Project Budget**. The fees are as follows:

Emerging Projects Design Activities

Design Studies and Service Allowance*: \$250,000

Addendum One: \$10,000

Cost Overrun Reserve: \$50,000

Grand Total of Design Allowance and Cost Overrun Reserve: \$310,000

*Allowance may include reimbursable expenses that will be determined on an as need basis depending on the specific design project that occurs as part of this Phase Plan. As with all scope of services proposals, reimbursable expenses will be reviewed and authorized by the Managing Party and Responding Party as outlined below and in Exhibit D, Implementation Plan.

The City of Austin (City) will contribute an amount not to exceed \$200,000 toward the Emerging Projects Phase Plan at a 70/30 split between the Watershed Protection Department (WPD) and Park and Recreation Department (PARD) respectively. Thus, WPD will contribute \$140,000 and PARD will contribute \$60,000. The Waterloo Greenway Conservancy's (WGC) initial contribution to the Phase Plan was \$100,000. Addendum One authorizes an additional WGC contribution of \$10,000, increasing the total WGC contribution to \$110,000 toward the Emerging Projects PP. Design activities associated with this Phase Plan will be evaluated on a case-by-case basis and the exact allocation of funds will be determined during the authorization process.

All projects initiated under this Phase Plan will go through an authorization process. After a project is identified, MVVA will provide a scope of services and fee proposal for the specific project. This proposal, along with a Funding Letter will be compiled by the Managing Party (Waller Creek Conservancy) and provided to the Responding Party (WPD and PARD) for approval. The Funding Letter also will outline the allocation of funds contributed by the Responding Party and Managing Party based on program priorities. Once the letter is agreed upon and signed by all parties, the MVVA design team will be issued a notice to proceed (NTP) and work will commence. An explanation of the authorization process for initiating projects is described in **Exhibit D, Implementation Plan**.

In accordance with Section 10.01 (Project Disbursement Fund Account) of the Joint Development Agreement between the City of Austin, Waller Creek Local Government Corporation, and Waller Creek Conservancy, upon approval of regularly submitted invoices by the Conservancy, the City will disburse payment accordingly to the appropriate Project Disbursement Fund Account. In accordance with Section 3.04 A.25 of the JDA, **See Exhibit F, Capital Needs Projection** addressing the allotted allowances for the Emerging Projects PP.

COST OVERRUN PLAN (3.04 A.5)

In accordance with the JDA, the identification of the source of funds for cost overruns are required. For this Phase Plan, a cost overrun would be caused when the allotted annual allowance has been expended and further work needs to commence. The Proposing Party must seek approval from the Responding Party to utilize cost overrun funding. If this request does not require any additional funding, the request to use cost overrun funds does not require LGC approval.

Individual consultants letter proposals and hourly rates are included in **Exhibits I – U, Consultant Proposals**.

COMPLIANCE WITH FOUNDATIONAL ARTICLES (3.04 A.6)

All work proposed in this Phase Plan is in compliance with the approved Design Plan and the Foundational Articles of the JDA.

PROCUREMENT PROCESS REQUIREMENTS (3.04 A.8 & 3.04 A.9)

Pursuant to the JDA between the City and the Conservancy, any Project funded in part by the city must meet City ordinance and state law requirements for procurement and the selected CMR must meet City ordinance requirements for minority participation. MWBE Participation requirement information can be found in **Exhibit G, JDA Procurement Requirements**.

APPROVALS AND PERMITS (3.04 A.10)

The project manager and key consultants have the responsibility of obtaining approvals and permits from Governmental Authorities for design and construction if the project is a Public Improvement Project.

ADJACENT PROPERTY ACQUISITION (3.04 A.12)

This work will be done within the scope of multiple phase plans, including the Emerging Projects PP, as required to meet the needs of the particular goals of the project. The work will be done by utilizing a title company.

INSURANCE AND BONDING (3.04 A.14)

Bonding is not required for professional services. Insurance information can be found in **Exhibit H, Insurance Certificates**.

COMMERCIAL DESIGN STANDARDS (3.04 A.21)

Unless otherwise indicated, commercial design standards will be followed under this Phase Plan.

GREEN SPACE (3.04 A.29)

A core element of the approved the Creek Corridor Framework Phase Plan (CCF) calls for conserving and maintaining natural space and will be a guiding principal for the work herein.
