PARD, with the assistance of the Communications and Technology Management Department (CTM), published a Request for Information (RFI) to survey current technology solutions in the Recreation Management Industry. PARD/CTM received three responses and conducted vendor question and answer sessions and vendor system demonstrations, along with meetings with current user organizations, between September and October 2021. Based on information gathered, PARD will work with CTM to establish a scope of work (SOW) and conduct a formal solicitation for a future Recreation Management Software System. As CTM is the principal information technology department that focuses on the delivery and operations of vital IT infrastructure network and telecommunications services for the City, they will facilitate the competitive solicitation process. This includes establishing a CTM project manager and creating a timeline for the solicitation process. CTM project manager assignment and timeline for PARD are pending. PARD will continue to utilize RecTrac services throughout the solicitation process until a recommended vendor is established. PARD staff met with representative from CTM on May 19th. CTM project manager assignment is underway. A Kick-off meeting was held with the CTM project manager on September 26, 2022. |
