

MEMORANDUM

TO: Mayor and Council Members

FROM: Lee Sherman, P.E. Supervising Engineer
Stormwater Treatment Section
Watershed Protection Department

DATE: November 18, 2022

SUBJECT: Backup for Cost Recovery Agreement: StadCo, Item 22-3361

The purpose of this memorandum is to provide backup and context for the Cost Recovery Agreement (StadCo, Item 22-3361) that is on the December 1, 2022 Council Agenda.

The City of Austin has a Cost Recovery Program per LDC 25-8-215, that allows for partial reimbursement of the cost to build a water quality control that treats at least 10 extra acres of offsite, untreated drainage area. The intent of this public / private partnership is to provide cost-effective, regional water quality control and a discount to the developer for providing public benefit greater than the minimum required.

Attachments:
