To: Susan Ben [REDACTED]
[REDACTED]

Good morning Susan,

I have forwarded your email to my client, the property owner and the architect. Unfortunately there is not appear to be any consensus nor any details that specifically address your concerns. I apologize but since I was not involved whatsoever in the permitting nor construction phase of this project, I am unable to provide you with details myself as well.

As the board requested, we intend to provide existing elevation exhibits, proposed elevation exhibits, pictures, and fire rating information. The owner intends on installing a sprinkler system throughout the houses, and closing some windows along the upper side of the west facing façade, and relocating the doors to face Navasota.

We will be sharing this information with the city today so it could be uploaded in their back up material.

I am more than happy to facilitate an ongoing conversation in hopes to get your questions answered to her satisfaction. Please let me know how I can help with that.

Respectfully,
David

David,

My apologies for the delay in responding. I've had a crazy couple of weeks!

Our ECC NPCT have not been meeting because the library is closed but we did figure out how to meet and vote via ZOOM and had our May meeting yesterday. We did go over the issue of your project and we would very much like to talk with you further. If necessary, we could schedule a special meeting but we'd prefer not to do that as it's difficult to get everyone's schedules coordinated. Perhaps we can do this via email? I've copied the whole team so that they can read your responses and ask their own questions. Once we've had a few conversations and folks have had a chance to ask their own questions, perhaps we can come to a conclusion to report to the BOA.

I understand that you had conflicting surveys. It happens. I'm wondering who the builder was and if the pins were difficult to locate, why the builder didn't get a surveyor out there to establish the

pins so that the foundation could be located properly. If the builder couldn't find the pins how did they do the layout?

Once the formwork for the foundation was laid out was there an inspection by the architect and owner? What did they plan to do about the fence which is obviously closer than 5 ft to the structure? Were they going to move the fence to what they believed was their property line? If not, how did they think they would be able to open those east facing doors?

Did the owner, architect or builder talk to the adjacent neighbors about the confusion and the close proximity of the fence?

We've all noticed this project and clearly it's been on hold for quite some time - at least a year. Is this hold entirely to the property line issue?

I recognize that this question is unrelated to the BOA request but I'm confused about your statement that this is a single family home with an ADU when both residences have the same layout and size. It's laid out like a duplex. Could you help me understand the intent going forward?

Again, sorry for the delay.

Thanks,

Susan

Hi Susan,

Apologies for the delayed response. It's been a very hectic week.

I have attached the information re: surveys and site information. This information was also provided to the BOA and is available online. It does not encompass the totality of the surveying exercises performed by Waterloo Surveying. I've included Derrick Dixon from Waterloo in this email.

As I understand the pins within the immediate area and in the alley behind the lot were incorrectly tagged by a former survey(s). There was also a new survey with the purchase of the house. It was not clear which survey was correct due to the very confusing nature of locating monument pins which were either missing or decades old (if they could be found). The site plan for the house was drawn to these pins assuming they were correct. That is how the house was able to pass city zoning review and this far in the construction process. Once it was understood there was an issue, the survey crews went back to the area and uncovered data which had been previously not found. Since the entire house was constructed this presented an obvious issue - do you cut off 3' of the entire house? demolish it and construct a house 3' to the east? These are not easy to answer because any solution to the encroachment is very complex and costly.

What my client is attempting to do is find a fair compromise. This was an honest mistake, if not an easy one to make given the myriad of surveying issues in this area (as described to me). It's not unreasonable to allow an encroachment into a side yard setback. Especially on a corner lot and especially on a lot this small. It's unfortunate the mistake occurred but we are looking for the best worst case scenario. Otherwise the house gets ripped apart - literally.

At the online BOA meeting I proposed that we look changing the doors from swinging (out) to sliding. I've asked the architect to look into that as well as the fire rating of that side of the building. I also sympathize with the neighbor who feels this house is too close to his. I reminded the board this house is compliant with 100% of the City regulations with the exception of this side yard setback. The building would still be as tall as it is if it were 3' back and so forth.

That said we're looking for some acceptable compromise in lieu of demolishing all or part of the house for the sake of a few feet.

As to the city compliance and inspection questions, I honestly do not know. I do know the owner cannot obtain a Certificate of Occupancy from the city due to not being able to pass final inspection (due to the encroachment). No-one is living there at this time. I am not aware of any further on-site construction schedules nor any city enforcement actions.

Again we are trying to find a reasonable solution. This was not a malicious act by the builder. It's only a function of the best decision the builder could make using a combination survey information which the initial City-approved plans were based on.

Please feel free to contact my office directly. I would be happy to answer any questions I can.

We would also be happy to participate in any online neighborhood meetings prior to the June BOA.

Thank you.

Kind regards,
David Cancialosi

Subject: Re: Neighborhood Meeting

Kasey,

Thanks for reaching out. Our meetings are required to be held in public places and we meet at the Terrazas Library on E Cesar Chavez. The library is closed and so we don't know when we will be meeting in person again. We have had several virtual votes and if you could send the documentation showing your survey problem and explain how this happened and why it was not corrected early in the process, I can share that information with the Team and see if they would change their minds from the current "strongly oppose a variance" that we have already submitted to the City.

I can tell you that one of our neighbors reported the error in the layout of the foundation to the City multiple times and we are asking for an investigation by the City to determine why this problem was not addressed as the project should have been red-flagged in January of 2018.

We've noticed that your jobsite has been silent for quite some time. Is this because the owners were notified by Code Compliance of the problem? If so, when was this notice received? We'd really appreciate the full story.

Best,

Susan

Re: C15-2022-0061

Dear Nikelle,

Austin Energy (AE) has reviewed your application for the above referenced property, requesting that the Board of Adjustment consider a variance request from LDC Section 25-2-492 at 1401 East 3rd Street.

Austin Energy does not oppose the request, provided that any proposed or existing improvements follow Austin Energy's Clearance & Safety Criteria, the National Electric Safety Code, and OSHA requirements. Any removal or relocation of existing facilities will be at the owner's/applicant's expense.

Please use this link to be advised of our clearance and safety requirements which are additional conditions of the above review action:

Case # C15-2022-0061 ROW # 12953473 Tax # 0204061201

Section 1: Applicant Statement

Street Address: 1401 E 3rd St, Austin, TX 78702

Subdivision Legal Description:

W 35.6FT OF N138FT OF W193.4 OLT 20 DIVISION O

Lot(s): _____ Block(s): _____

Outlot: 20 Division: O

Zoning District: SF-3-NP Council District: 3

I/We Nikelle Meade (Husch Blackwell LLP) on behalf of myself/ourselves as
authorized agent for Nexus Series B, LLC affirm that on
Month June, Day 10, Year 2022, hereby apply for a hearing before the
Board of Adjustment for consideration to (select appropriate option below):

☐ Erect ☐ Attach ☐ Complete ☐ Remodel ☒ Maintain ☐ Other: _____

Type of Structure: single-family residence

Portion of the City of Austin Land Development Code applicant is seeking a variance from:

Section 25-2-492 (Site Development Regulations) from setback requirements to decrease the minimum interior side setback from 5 ft (required) to 2.77 ft (requested) in order to complete a Single-Family residence in an "SF-3-NP", Single-Family Residence-Neighborhood Plan zoning district (East Cesar Chavez Neighborhood Plan).

Section 2: Variance Findings

The Board must determine the existence of, sufficiency of, and weight of evidence supporting the findings described below. Therefore, you must complete each of the applicable Findings Statements as part of your application. Failure to do so may result in your application being rejected as incomplete. Please attach any additional supporting documents.

NOTE: The Board cannot grant a variance that would provide the applicant with a special privilege not enjoyed by others similarly situated or potentially similarly situated.

I contend that my entitlement to the requested variance is based on the following findings:

Reasonable Use

The zoning regulations applicable to the property do not allow for a reasonable use because:

The zoning regulations do not allow for a reasonable use because they would preclude preservation of an existing structure which could house two families. The existing structure was constructed pursuant to City approval and a signed and sealed survey obtained from a professional licensed surveyor.

Hardship

a) The hardship for which the variance is requested is unique to the property in that:

The hardship is unique to the property because a professional and licensed surveyor provided a signed and sealed survey indicating that the fence line was not the property line and that the neighboring property was encroaching on the subject property. There was no way to know that a survey produced by a professional surveyor was wrong about the location of the property line.

b) The hardship is not general to the area in which the property is located because:

The hardship is not general to the area because it results from the inaccurate permitting and surveying applied to the property.

Area Character

The variance will not alter the character of the area adjacent to the property, will not impair the use of adjacent conforming property, and will not impair the purpose of the regulations of the zoning district in which the property is located because:

Allowing the existing structure to remain will not alter the character of the area, impair the use of the adjacent conforming property, or impair the purpose of the regulations because it is common for structures to be placed in setbacks in this neighborhood because of discrepancies and errors in the original surveying and lot creation.

Parking (additional criteria for parking variances only)

Request for a parking variance requires the Board to make additional findings. The Board may grant a variance to a regulation prescribed in the City of Austin Land Development Code Chapter 25-6, Appendix A with respect to the number of off-street parking spaces or loading facilities required if it makes findings of fact that the following additional circumstances also apply:

1. Neither present nor anticipated future traffic volumes generated by the use of the site or the uses of sites in the vicinity reasonably require strict or literal interpretation and enforcement of the specific regulation because:

2. The granting of this variance will not result in the parking or loading of vehicles on public streets in such a manner as to interfere with the free flow of traffic of the streets because:

3. The granting of this variance will not create a safety hazard or any other condition inconsistent with the objectives of this Ordinance because:

4. The variance will run with the use or uses to which it pertains and shall not run with the site because:

Section 3: Applicant Certificate

I affirm that my statements contained in the complete application are true and correct to the best of my knowledge and belief.

Applicant Signature: Nikelle Meade Date: 06/08/2022

Applicant Name (typed or printed): Nikelle Meade

The above represents the results of a comprehensive readjustment of data from surveys performed by the City Engineer and his staff from 1931 through 1962, including the data from following City records:

City FB 743	Pg 28	02/06/1932
City FB 973	Pg 49-50	02/06/1934
City FB 953	Pg 36	05/22/1931
City FB 984	Pg 18	03/18/1935
City FB 1118	Pg 788	10/30/1936
City FB 2521	Pg 48	05/23/1961
City Engineer's Map of	District 15	08/20/1940

I, Kent Neal McMillan, a Registered Professional Land Surveyor, hereby certify that this Map No. 21-1009, consisting of Sheets 1, 2, and 3, taken together with my Surveyor's Report No. 21-1009 prepared to accompany them, is a true and correct representation of the results of an actual resurvey performed upon the ground under my direction for the purpose of determining the boundaries of the property known as 1401 East 3rd St. in Outlot 20, Division "O" of the City of Austin, Travis County, Texas.

Sheets 1 and 2 of this map show the reconstruction of the City Engineer's Monument lines in the vicinity of said Outlot 20 from which old boundaries and evidence thereof perpetuated by surveys made by the City Engineer and his staff at early dates in the 20th century were also reconstructed as a part of the determination of the boundaries of the Subject Property.

Sheet 3 shows the boundary of the Subject Property as determined by my resurvey and improvements in place upon it.

witness my hand and seal of registration, September 22, 2021.

GRANTEE'S MAILING ADDRESS: 809 S. Lamar Boulevard, Suite D, Austin, Texas 78704

TRUSTEE'S SALE BID AMOUNT: \$770,369.38

RECITALS

Grantor, owner of fee-simple interest in the Property, conveyed the Property to Trustee, in trust, to secure payment of the Note. Lender is the owner of the indebtedness evidenced by the Note, and the holder of the Note and the Deed of Trust lien under Texas Property Code section 51.002.

Default occurred in the payment of the Note and in the performance of the obligations under the Deed of Trust that secures the Note. Lender appointed Trustee and requested that Trustee enforce the trust, as evidenced by the Appointment of Trustee filed with the County Clerk in the county where the Property is located.

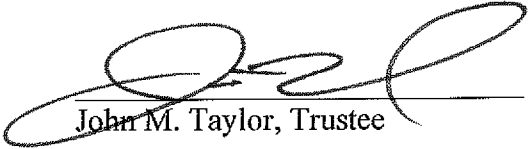

Trustee, either personally or by agent, served all notices required by statute in compliance with Texas Property Code section 51.002 and with the Deed of Trust to proceed with the sale.

Copies of the Notice of Trustee's Sale stating the time, place, and terms of sale of the Property were posted and filed according to the requirements of the Deed of Trust and Texas Property Code section 51.002.

Lender and Trustee have satisfied all requirements of the Deed of Trust and applicable law for

enforcement of the power of sale contained in the Deed of Trust and for the sale of the Property, and Trustee sold the Property ("Sale") to Grantee, who was the highest bidder at the public auction, for the Trustee's Sale Bid Amount.

Therefore, I, as Trustee, by the authority conferred by Lender and by the Deed of Trust, for the consideration of the Trustee's Sale Bid Amount paid by Grantee, do hereby grant, sell, and convey the Property, together with all rights and appurtenances attached to it, to have and to hold, to Grantee and Grantee's heirs, executors, administrators, successors, or assigns forever. Trustee binds Grantor and Grantor's heirs, executors, administrators, successors, and assigns to warrant and forever defend the Property against any person lawfully claiming or to claim the Property or any part of it, subject to any permitted exceptions to title described in the Deed of Trust. Except as expressly provided in this deed, Trustee has not made and does not make any covenants, representations, or warranties concerning the Property. The Property is sold and conveyed **AS IS, WHERE IS, AND WITH ALL FAULTS.**

Re. Request for Sideyard Setback Variance to Preserve Existing Single-Family
Home with Accessory Apartment at 1401 E. 3rd Street, Austin, 78702,
District 2

On behalf of the owner of the above referenced Property, please accept the enclosed request for a variance to reduce a side-yard setback from 5 feet to 2.77 feet to preserve the existing single family home and accessory apartment.

This site was reviewed by the Board in 2020, but although the existing hardship existed at the time the case was considered, the applicant failed to present proper evidence to explain what the hardship was and the reasons it was not in any way caused by the property owner. The property now has a new owner, and we, on behalf of that new owner, wish to ask for the Board's review.

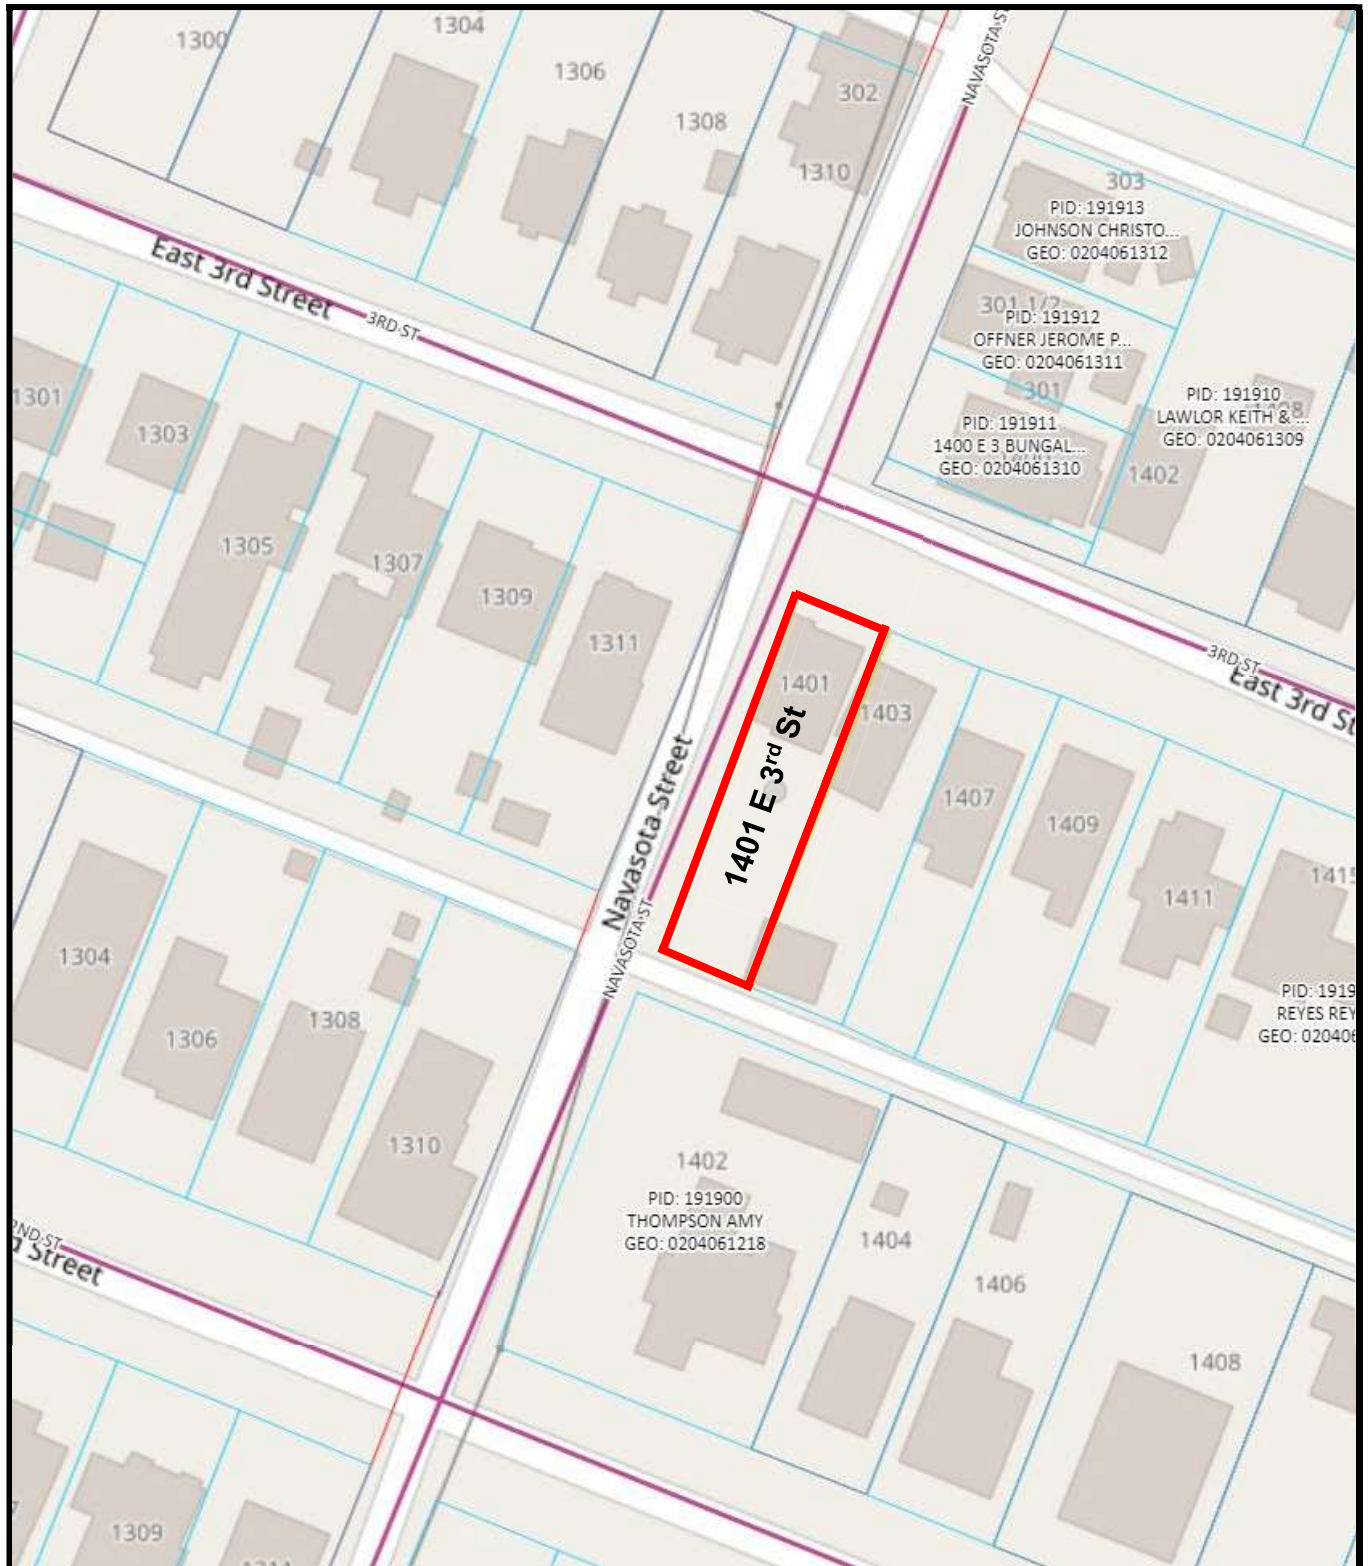

Sincerely,

Nikelle S. Meade

*** External Email - Exercise Caution ***

Dear Board of Adjustment,

I have been in conversations with Cortland Chalfant regarding the property at 1401 E 3rd St and the newly requested setback on the Navasota side from 15' to 10'.

He has shared his plans to remove the existing structure and rebuild a new house and ADU that is more fitting with the neighborhood. I understand that these new plans would respect the existing setback adjacent lot (east side) but will require a variance on the setback of Navasota side of the street.

Since these new plans lead to a structure that is more fitting with the nature and character of the neighborhood, I am supportive of the request for variance on the Navasota side to reduce the setback from 15' to 10' in order to accommodate this.

Thanks,
David Allison

Subject: C15-2022-0061 - Public Hearing Scheduled for October 10, 2022
Date: Friday, October 07, 2022 10:36:07 AM

*** External Email - Exercise Caution ***

Good morning,

My husband and I live just down the street from 1401 E. 3rd Street and have been following this case closely. The existing white structure has been a graffiti covered eyesore that brings the entire neighborhood down for far too long. It has been our opinion all along that the structure should be torn down - not only because it is an eyesore but because it is a fire hazard for the neighboring property and does not fit into the character of the neighborhood.

I've reviewed the latest variance request to reduce the street (Navasota) side set back from 15' to 10' and the images of the proposed structure which is the subject of the October 10, 2022 meeting. It is my opinion that removing and replacing the existing white structure with what is being proposed would fit into the neighborhood much better. Therefore, I am in favor of the BOA granting this variance to reduce the street (Navasota) side set back from 15' to 10' - so long as the structure being contemplated does, in fact, meet other setback requirements and remains substantially as depicted in the presentation.

Thank you,

Kelly Sibilsky
1412 E. 3rd Street, Unit A

RE: Variance Request for 1401 E. 3rd Street; C15-2022-0061

Dear Board Members & Staff,

On behalf of the East Cesar Chavez Neighborhood Plan Contact Team (ECC-NPCT), I'm writing in support of the applicant's request for a variance to reduce the minimum street side yard setback from 15' to 10'.

As the Board likely knows, the development of this lot has been challenging due, in part, to the substandard dimensions at the corner of Navasota and E. 3rd Streets.

The new owner/applicant of this lot has invested significant time and resources to develop a cohesive site plan and way forward. Specifically, the applicant:

- Conducted extensive surveys of the area to ensure accurate plot lines and setbacks;
- Surveyed the setback of nearby residential and commercial lots on Navasota street; and
- Developed a site plan in coordination with local residents to ensure that it's keeping with the neighborhood's character.

Accordingly, a quorum of members in attendance voted unanimously to support the applicant's variance request at the General Meeting on September 21, 2022, in accordance with the ECC-NPCT bylaws.

We greatly appreciate the applicant's approach of working transparently with residents and various neighborhood representatives to develop a workable solution for this lot and ask that you vote to approve the applicant's request.

Sincerely,

A handwritten signature in black ink, appearing to read "Eric Pace".

Eric Pace, Chair
East Cesar Chavez NPCT
