DISCUSSION AND ACTION ITEMS

3. Presentation on initial concepts for Heritage Wayfinding Design by Principal in Charge, John Bosio with Merie Design.

Melissa Alvarado, Heritage Tourism Division Manager with the Economic Development Department provided a briefing on initial design concepts that would be used as wayfinding elements within the Fifth Street Mexican American Heritage Corridor, Red River Cultural District, and African American Cultural Heritage District as approved by City Council in 2018 and 2019.

- Alvarado clarified that the presentation provided was specific to the engagement process and introduced John Bosio with Merie Design to further present.
- Bosio shared the wayfinding manual goal, guidelines, strategies, tools, considerations, design issues/feedback, and schematic design options.
- Vice Chair Goujon questioned how the presentation given tied into the funds that manifest within Rainey Street. Alvarado responded, letting the Board know that the Rainey Street funds, and the Historic Preservation funds were two different buckets of money but for the specific purpose that the presentation was given for, she informed the Board that given that Rainey Street was a historic district it would be eligible to apply for use of the particular wayfinding elements but would need to be a decision made by those that represent the district and the MACC. She also stated nothing would preclude the MACC from utilizing a different set of design elements but what they were hoping to deliver through the creation of the manual was a solution that answered the community’s needs.
- Chair Silva asked Laura Esparza, PARD Division Manager of Museums and Cultural Programs to confirm if the MACC would be able to automatically leverage the design and framework presented for consistency. Esparza responded, stating yes but it would be a separate process if they were wanting to apply for the Historic Preservation funds.
