Vision and Scenarios

VISION

The Palm District is a vibrant historic hub of downtown where the past is honored, culture is celebrated, and the future is shaped.

Dense transit-oriented development is balanced with history and natural spaces creating physical connections that invite people to move easily to and through the district.

Creativity and innovation are cultivated, and people from Austin and beyond are welcome to live, relax, work, play, learn, and connect with others.

INCLUSIVE GROWTH

Growth in the district will provide a prosperous future for longtime and recent residents and for established and new businesses.

Desired Outcomes....

Inclusive Growth

Create opportunities to use publicly-owned properties for dense, mixed-income housing, places for cultural celebration, and to preserve those sites that are of historical, social, and cultural significance.

Culture

Preserve performance venues in the Red River Cultural District through incentives, public private partnerships, and regulatory tools such as transfer of development rights, historic and landmark designations, and the Iconic Venue Fund.

Connection

Leverage the lowering and replacement of I-35 to create better and more attractive connections between East Austin and the District.

Nature

Improve the Waterloo Greenway, south of Palm Park to the Confluence, through lighting, interpretive signage, and other amenities to invite visitors and residents to explore and experience Waller Creek.

PALM DISTRICT

Preferred Scenario

NOTES: The scenario represents an aspirational view of how the district could develop over time and does not bind individual property owners or the City of Austin and partner agencies. Implementation would require a range of actions by the City of Austin and its partners.

The Palm School site is owned by Travis County, and Travis County has been undertaking a process to explore options for this site. See <https://www.traviscountytx.gov/planning-budget/economic-development-strategic-investments/palm-school>.

The Texas Department of Transportation is currently evaluating options the reconstruction of I-35 through the federally-required environmental review process, and the City is working in tandem with that process to explore possible approaches for capping I-35 and/or designing enhanced bridges (stitches). See <https://austintexas.gov/ourfuture35> for additional information.
