Additional Backup Information:

The acquisition of the wastewater line easement is necessary in the replacement project for an existing wastewater line that is in poor condition and undersized. The general route of this project is west of IH-35, along Fairlawn Lane between Mariposa Drive and Woodland Avenue. The existing line will be replaced with a new, larger wastewater line that will increase capacity, meet current Texas Commission on Environmental Quality requirements, and minimize the possibility of future environmental impacts.

An independent, third-party appraisal was procured to establish the fair-market valuation of the proposed acquisition. The appraisal supports the purchase price of \$219,000. The amount of the purchase price plus closing costs is not to exceed \$222,700.

Strategic Outcome(s):

Government that Works for All.
