

ZONING CHANGE REVIEW SHEET

CASE: C14-2022-0133 – 10701 Dessau Road.

DISTRICT: 1

ZONING FROM: SF-2

TO: MF-4

ADDRESS: 10701 Dessau Road

SITE AREA: 11.909 acres

PROPERTY OWNER: Kimberly M. Henze, Trustee of the Golden Ember Trust dated July 5, 2012

AGENT: David Hartman, Smith Robertson, LLP

CASE MANAGER: Jonathan Tomko (512) 974-1057; jonathan.tomko@austintexas.gov

STAFF RECOMMENDATION:

Staff recommends MF-4, Multifamily Residence – Moderate High-Density district zoning. *Please see the basis of recommendation section below.*

ZONING AND PLATTING COMMISSION ACTION / RECOMMENDATION:

March 7, 2023 Postponed to 03/21/2023

To be reviewed by ZAP on 03/21/2023

CITY COUNCIL ACTION:

TBD

ORDINANCE NUMBERS:

N/A

ISSUES:

Signatures of adjacent property owners have been submitted in response to the above referenced rezoning case. The petition includes 22.56% of eligible signatures and meets the 20% threshold for a valid petition. Petition materials and comment response forms are located at the end of the Staff report.

CASE MANAGER COMMENTS:

The subject tract currently has a vacant single-family structure on 11.909 acres. The home is approximately 2,700 sqft and was built in the early 1970s. To the north is Woodcliff Baptist Church and several single-family homes built along Wandering Way in the late 1970s. To the south are two additional single-family homes one built in the late 1970s and another in the 1990s. To the east are several single-family homes along Wandering Way built in the late 1970s. To the west is the Collinwood Neighborhood, predominantly single-family homes, and Legend Oaks Healthcare and Rehabilitation – North Austin.

There is no future land use map, or regulating plan. While there is no neighborhood plan for this parcel, the Heritage Hills/Windsor Hills Combined Neighborhood Plan Area is across Dessau Road to the west. That neighborhood plan was adopted in 2011. Dessau Road functions as a six-lane arterial roadway (level 4 ASMP) and has many more intensive uses along that part of the roadway. There is a Capital Metro bus stop within ½ mile of the site and the site is on an Imagine Austin Corridor.

The Applicant has requested the (MF-4) Multifamily Residence – Moderate High-Density district zoning in order to provide 330 proposed multifamily residential units.

There is a petition on this case, see exhibits D and E for more information.

BASIS FOR RECOMMENDATION

1. The proposed zoning should be consistent with the purpose statement of the district sought.

This section of Dessau Road services less intensive uses which are not suitable for parallel running I-35 to the west. Between East Rundberg Lane and East Braker Lane there are several examples of LI, CS, MF, GO and LO zoning. The adopted Heritage Hills/Windsor Hills Combined Neighborhood Plan Area immediately to the west of Dessau Road identifies parcels along Dessau for higher density single family and multifamily.

The parcel lies on an Imagine Austin Corridor between two Imagine Austin Job Centers, the BFI Center and Cameron/183 and one Imagine Austin Neighborhood Center at Lamar & Rundberg.

2. The proposed zoning should be consistent with the goals and objectives of the City Council.

Recently this corridor was identified as a medium compatibility corridor by Ordinance No. 20221201-056, which modifies compatibility and parking standards for certain corridors to increase housing capacity and support transit investments. The ordinance reduces the distance at which compatibility standards apply, and allows greater height, and thus, more housing along the corridors in exchange for affordable housing and reduces minimum parking requirements for residential or mixed use projects on listed corridors.

These corridors were specifically designated with the goal of helping generate more housing and supporting transit.

3. Intensive multi-family zoning should be located on major arterials and highways.

MF-4 Multifamily Residence – Moderate High Density is the designation for multifamily and group residential use with a maximum density of 36 to 54 units per acre, depending on unit size. An MF-4 district designation may be applied to high density housing in a centrally located area near supporting transportation and commercial facilities, a major institutional

or employment center, or in an area for which moderate to high density multifamily use is desired.

Dessau Road is a major arterial, designated as a Level 4 under the ASMP and the corridor has supporting transportation and commercial facilities. There are major employment centers to the north, Tech Ridge/Samsung, to the west, Domain/North Burnet and south, Cameron Industrial, Walnut Creek and Tuscany Business Parks.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	SF-2	An approximately 2,700sqft single family dwelling (circa 1970) on 11.909 acres
<i>North</i>	SF-1, SF-2 and SF-3	Woodcliff Baptist Church; Single Family Homes along Wandering Way built in the late 1970s
<i>South</i>	SF-2	Single family home built in late 1990s and 1970s
<i>East</i>	SF-1 and SF-2	Single Family Homes along Wandering Way built in the late 1970s
<i>West</i>	SF-2-NP and GO-NP	Collinwood Neighborhood and Legend Oaks Healthcare and Rehabilitation - North Austin

NEIGHBORHOOD PLAN AREA: Not in a Neighborhood Plan Area

ADDITIONAL STAFF COMMENTS:

Site Plan Review

General

A site plan will be required for any new development other than single-family, two-family or duplex residential.

Any new development is subject to the design standards in Subchapter E of the Land Development Code. Additional comments will be made when the site plan is submitted.

This site will be subject to the multifamily density provisions in 25-2-563.

FYI: Because this site is located in the limited purpose jurisdiction of the City of Austin, a site plan may also be required through Travis County.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to

compatibility development regulations.

Compatibility Standards

The site is subject to compatibility standards due to the adjacent SF-2 and SF-1 zoning districts surrounding the site. The following standards apply:

- No structure may be built within 25 feet of the property line of adjacent compatibility triggering property.
- No parking or driveways are allowed within 25 feet of the property line of adjacent compatibility-triggering property.
- No structure in excess of two stories and 30 feet in height may be constructed within 50 feet of the property line of the compatibility-triggering property.
- No structure in excess of three stories and 40 feet in height may be constructed within 100 feet of the property line of the compatibility-triggering property.
- For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, the height is limited to 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property zoned SF-5 or more restrictive.
- For a structure more than 300 feet but not more than 540 feet from property zoned SF-5 or more restrictive, the height is limited to 60 feet plus one foot for each four feet of distance in excess of 300 feet from the property zoned SF-5 or more restrictive.
- A fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.
- An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-1 or SF-2 property.
- Additional design regulations will be enforced at the time a site plan is submitted.

Demolition

In the event that demolition of existing buildings is proposed, the applicant is responsible for requesting demolition permits at the appropriate stage of the development process. The City Historic Preservation Office will review all proposed building demolitions. If a building meets city historic criteria, the Historic Landmark Commission may initiate a historic zoning case on the property.

Environmental Review

1. The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Walnut Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. The site is in the Desired Development Zone.

2. Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Gross Site Area</i>	<i>% of Gross Site Area with Transfers</i>
Single-Family (minimum lot size 5750 sq. ft.)	50%	60%
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%
Commercial	80%	90%

3. According to floodplain maps there is no floodplain within or adjacent to the project location.

4. Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.
5. At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.
6. Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2-year storm on site.
7. At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

Parks and Recreation

Parkland dedication will be required for the new applicable uses proposed by this development, multifamily with MF-4 zoning, at the time of subdivision or site plan, per City Code § 25-1-601. Whether the requirement shall be met with fees in-lieu or dedicated land will be determined using the criteria in City Code Title 25, Article 14, as amended. Should fees in-lieu be required, those fees shall be used toward park investments in the form of land acquisition and/or park amenities within the surrounding area, per the Parkland Dedication Operating Procedures § 14.3.11 and City Code § 25-1-607 (B)(1) & (2).

If the applicant wishes to discuss parkland dedication requirements in advance of site plan or subdivision applications, please contact this reviewer: thomas.rowlinson@austintexas.gov. At the applicant's request, PARD can provide an early determination of whether fees in-lieu of land will be allowed.

Austin Water Utility Review

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance.

Based on current public infrastructure configurations, it appears that service extension requests (SER) will be required to provide service to this lot. For more information pertaining to the Service Extension Request process and submittal requirements contact the Austin Water SER team at ser@austintexas.gov.

The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

Austin Transportation Engineering Review

Assessment of required transportation mitigation, including the potential dedication of right of way and easements and participation in roadway and other multi-modal improvements, will occur at the time of site plan application. The traffic impact analysis for this site is not required, the traffic generated by the proposal does not exceed the thresholds established in the City of Austin Land Development Code. [LDC 25-6-113].

The Austin Strategic Mobility Plan (ASMP) calls for 154 feet of right-of-way for DESSAU RD. It is recommended that 77 feet of right-of-way from the existing centerline should be dedicated for DESSAU RD according to the Transportation Plan with the first subdivision or site plan application. [LDC 25-6-51 and 25-6-55].

Comprehensive Planning Review

Project Name and Proposed Use: 10701 DESSAU RD. C14-2022-0133. 11.909 acres from SF-2 to MF-4. Demolish one house and construct 330 Multifamily Units.

C14-2022-0133 – case postponed to 3/21 ZAP agenda

Hello, My name is Mary Jane Blommel, 11105 Terrace Bluff, within the Woodcliff neighborhood. I am writing to object to Case Number: C14-2022-0133:Proposed Zone change from SF-2 to MF-4.

I object because:

1. There is already a tremendous buildup of traffic on Dessau because Austin has been growing at an exponential rate. Several 'High Crash Area' traffic signs have been placed along Dessau so adding more traffic to the road is detrimental. Signs on the road (1.7 miles away) proclaim it as a 'HIGH CRASH' road.
2. We are also in a sensitive greenbelt area, and adding more traffic and parking spaces are very detrimental to greenbelt areas.
3. The proposed site is at the top of a hill. It is going to be difficult for people entering and exiting the apartments to see traffic coming. This will contribute to automobile crashes and human injuries.

Thank you,

Mary Jane Blommel

Attached please find our comments related to Case # C14-2022-0133 for property located at 10701 Dessau Rd. Your consideration of our concerns related to this development would be appreciated.

My wife and I live at the property directly south at 10601 Dessau Rd and this proposed zoning and construction project would have a profound impact on our property, our lives and our privacy.

I am 78 years-old, a veteran and I am handicapped. I will not be able to attend the meeting on March 7. We attempted to call your office to find out how to attend the meeting online, but there was no answer and the recording did not allow us to leave a message. Please provide a link for us to join the meeting from our home.

You may call us at 512-568-6645 if you have any questions.

Thank you

R. Michael McCauley

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to participate in a public hearing, you are not required to participate. This meeting will be conducted both online and in-person at which you will have the opportunity to speak FOR or AGAINST the proposed development or change. Contact the case manager for further information on how to participate in the public hearings. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

Staff is conducting a pilot program to receive case-related comments online which can be accessed through this link or QR code: <https://bit.ly/ATXZoningComment>.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website: www.austintexas.gov/planning.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before the public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice. Correspondence and information submitted to the City of Austin are subject to the Texas Public Information Act (Chapter 552) and will be published online.

Comments: I strongly object to the rezoning of this property. Among other reasons, the intersection at Dessau: Braker already exceeds the traffic flow it can reasonably handle. Dessau is a high crash roadway and already has many apartments North: south of this location. It is also on the edge of a major watershed and definitely requires an EPA study. (Our property is lower than this property: runoff would be a serious issue). Also congestion noise: pollution existing housing in the area around the property single family residential. If you use this form to comment, it may be returned to: Heather Chaffin, City of Austin, Housing & Planning Department. Additionally, another huge multi-family unit property is planned near Braker: Dessau. If the objective is to degrade N. Austin, this project will do it.

Hi, I **object** to rezoning that allows apartments to be built next to my woodcliff neighborhood.

Case # : C14-2022-0133

Hearing : 3/7/2023

Thanks

Salvador Rodriguez

11002 Wandering Way, Austin, TX 78754

5126536833

Ms. Chaffin,

I live in Woodcliff (1504 Misty Cove, 78754), and am sending this email to formally state that we object to rezoning that allows apartments to be built next to our neighborhood.

C#: C14-2022-0133

Take care,

(Homeowners) Danielle Zigon & Carter Linville

I object to rezoning that allows apartments to be built next to Woodcliff Neighborhood.

(Case # C14-2022-0133)

thanks,

David Meyers

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to participate in a public hearing, you are not required to participate. This meeting will be conducted both online and in-person at which you will have the opportunity to speak FOR or AGAINST the proposed development or change. Contact the case manager for further information on how to participate in the public hearings. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

Staff is conducting a pilot program to receive case-related comments online which can be accessed through this link or QR code: <https://bit.ly/ATXZoningComment>.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website: www.austintexas.gov/planning.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before the public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice. Correspondence and information submitted to the City of Austin are subject to the Texas Public Information Act (Chapter 552) and will be published online.

Zoning an Platting Commission

Heather Chaffin

I object to the change in zoning because of the traffic , and concern of how the residents will be able to access the property. I have seen to many near misses for accidents up and down Dessau Rd. from Runberg to Parmer. They do not put in enough left turn lanes or stop lights to allow for safe and easy exit and entrance to these properties. There is also an excessive amount of speeding on this road and plenty of blind spots. The City also does a very poor job of maintaining the sidewalks and overgrown brush along this road which makes it very dangerous for people who walk.

Thank You

Michael Strano

Hello Heather Chaffin,

I am writing you in response to rezoning case # C14-2022-0133. I live in the neighborhood just north of this site off of Wondering Way. I drive Dessau rd daily. The proposed rezoning lot is in a particularly bad spot on Dessau rd. Traveling northbound on Dessau rd, traffic flows at a very high rate of speed as speed limit is 50 but many drivers go over that. The lot sits at the top of a hill over a creek crossing at this stretch of Dessau. This forms a natural blind spot for drivers going northbound as they go up the hill & around a curve in the road.

With drivers going at high rates of speed, going uphill & around a blind spot curve there will be traffic accidents at this site. Very bad traffic accidents if this lot is rezoned for multi-dwellings. Drivers pulling out of that lot will not be able to see all northbound traffic and may only have dozens of meters of visibility to Dessau rd instead of the hundreds of meters of visibility needed for safe travel.

Please DO NOT rezone this lot. If you do and there is a fatal accident, that death will be on the rezoning commission hands. And that death could be my own as like I said I travel that stretch of Dessau daily and it is dangerous enough as is. This is not a suitable site for such a development and will cause more harm than good.

There are plenty of other locations that have better visibility and are better suited for mutli-dwelling buildings here in Austin. This particular lot is among the worst spots on Dessau rd. and should NOT be rezoned. I do insist that you take these comments into consideration when making your decision as the lives you save may very well be my own.

Thank you for your time,

Paul Clontz

Concerned Homeowner

Thank you so much for following up (and so quickly too!)

Would gladly check out the staff report whenever you can share. We're wrapping up written response for Tuesday and will also send along. If you have time, can make time this week or Monday to chat.

Thanks, Kate Horton

Sorry Kate some new information. Since they are going for MF-4 the limit is 60' so to rephrase:

An SF-3 zoned house would trigger compatibility and from there compatibility would start at 25' from the SF-3 property line and increase up 1 foot of height for every 10 feet of setback, allowing 60' in height at a distance of 300', unless they provide affordable housing then it can be 60' of height at a distance of 150' from the triggering property.

Kate,

Thank you for your patience and putting this in an email. That's very helpful.

I found what you were looking for!

An SF-3 zoned house would trigger compatibility and from there compatibility would start at 25' from the SF-3 property line and increase up 1 foot of height for every 10 feet of setback, allowing 65' in height at a distance of 300', unless they provide affordable housing then it can be 65' of height at a distance of 150' from the triggering property.

I do see that there is valid petition on this case and should be wrapping up the staff report by the end of the day today. If you would like to review it, I am happy to send it to you before I submit it.

Jonathan — thanks for taking my call today. With the upcoming hearing on Tuesday, I wanted to confirm some details about the rezoning request.

With the request to rezone from SF-2 to MF-4, how tall can the apartments be? What is the setback required since their are single family homes on both sides of the property?

Also, would love to chat with you about the neighborhood's concerns and make sure that you have the petition that the neighbors submitted in December. You can always reach me at 210-355-7981.

Thanks, Kate Horton
