Prior Council Action:

March 26, 2020 - Council approved initial contract, item 9, on a 11-0 vote.

For More Information:

Inquiries should be directed to Shawn Willett, 512-974-2021, Garrett Cox, 512-974-9423, or the Project Manager, Jose Ibarra, 512-974-7195.

Additional Backup Information:

The Public Works Department (PWD) is responsible for maintaining a street network comprised of 7,998 lane miles of pavements. The slurry seal is a pavement preservation strategy that the City utilizes for maintaining residential streets. PWD is not equipped to handle this work in-house and has accomplished this work through contracts in the previous years.

PWD has executed the three extension options included in the original contract. This additional authority request will be used to complete the Fiscal Year 2023 work and initiate the planned work for Fiscal Year 2024.

This project is located at various locations within the City limits.
