

MEMORANDUM

TO: Mayor and Council Members

FROM: David Gray, Interim Director, Planning Department *DG*

DATE: April 27, 2023

SUBJECT: **Staff Update to Resolution 20220616-049 relating to recommendations for updates to the North Burnet/Gateway Regulating Plan**

The Planning Department will be extending the response deadline for [Resolution No. 20220616-049](#) relating to recommendations for updates to the North Burnet/Gateway Regulating Plan (the Plan), to September 8, 2023. This extension will ensure the due diligence associated with considerations of recent Council policy changes to existing zones in the Plan as well as a re-calibration of emerging recommendations based on recent changes to specific zones. Staff has made substantial progress in analyzing potential changes to the Plan as directed by the Resolution and is in the process of crafting an engagement plan to gather community input as requested by Council. It is anticipated that within the next three months, staff can recalibrate findings and commence stakeholder engagement.
