In addition, the applicant proposes the following modification to the LI base zoning district through the PDA:

- Maximum height of 120 feet.
- Maximum floor-to-area-ratio (FAR) of 5:1.
- Maximum Building Coverage: 95%;
- Maximum Impervious Coverage: 95%;
- Setback - Interior Side Yard: 0 feet
- Setback - Rear Yard: 0 feet
- The PDA is subject to the parking requirements outlined in Appendix A except as by the LI-PDA zoning ordinance.
- Section § 25-6-501 (E) is modified such that the off-site parking facility cannot be more than 1,200 linear feet from the use it serves.
- The parking rules in effect upon the adoption of this ordinance shall govern other than as modified herein.

CASE MANAGER COMMENTS:

The property in question consists of two 5.81 lots that contain a vacant building pad site and a surface parking area. The lots to the north, across E. Highland Mall Drive, are zoned CS-MU-V-NP and CS-1-MU-V-NP and are developed with an office building (One Highland Center) and a cocktail lounge use (Perfect 10 Cabaret). To the south there is an office use (City of Austin Planning and Development Center) zoned CS-MU-V-NP. The parcels to the east are also zoned CS-MU-V-NP and contain developing multifamily and office uses. To the west there is a surface parking area.

In the Redleaf Highland rezoning requests, the applicant is asking for LI-PDA zoning to build out the Highland Campus by utilizing minimal code modifications to allow for an overall project that will complement the campus that could not be built under the existing code provisions (*please see the Applicant's Request Letters – Exhibit C and Exhibit D*). In this specific application, the owner is asking to redevelop this site with office and residential uses. The proposed LI-PDA zoning will permit existing uses in the current CS-MU base district, grant additional permitted and conditional uses, increase the maximum height to 120 feet, increase the FAR to 5:1, maintain the impervious cover and building coverage limits from the CS district, reduce setbacks and modify parking requirements to allow for new development in this central area located near the intersection of two highways that is within a designated regional center (Highland Mall Station Regional Center) in the Imagine Austin Comprehensive Plan.

This property is located within the Brentwood/Highland Combined Neighborhood Plan and a neighborhood plan amendment is not required because the land use designation on the future land use map (FLUM) is Mixed Use.

The applicant agrees with the staff's recommendation.

BASIS OF RECOMMENDATION:

1. *The proposed zoning is consistent with the purpose statement of the district sought.*

Limited Industrial Service district is intended as an area primarily for commercial services and limited manufacturing uses, generally on moderately sized sites. Planned Development Area combining district is intended for combination with selected commercial and industrial base districts, in order to modify base district provisions as necessary to allow for appropriate industrial and commercial uses or to reflect the terms of a Planned Development Area agreement following annexation of properties subject to such an agreement.

Neighborhood Plan district denotes a tract located within the boundaries of an adopted Neighborhood Plan.

2. *The proposed zoning promotes consistency and orderly planning.*

LI-PDA zoning is consistent with land use patterns in the area as there are commercial mixed use zoning designations (CS-MU-V-NP, CS-1-MU-V-NP, CS-1-CO-NP, CS-MU-NP) and multifamily, office, civic and commercial uses surrounding the site under consideration to the north, south, east and west.

3. *The proposed zoning should allow for a reasonable use of the property.*

The proposed Planned Development Area overlay will permit a mixture of residential, office, civic and commercial uses that will encourage intensive redevelopment of this property adjacent to a large civic use (Austin Community College Highland Campus) within walking distance to Capital Metro bus (Routes 7, 337, 350) and rail lines (Highland Station Rail - Rail Route 550) in a regional center as designated by the Imagine Austin Comprehensive Plan. There are recreation facilities and parks (Highland Neighborhood Park and Reznicek Fields, Highland Mall Greenbelt, Highland South Greenway, Reilly School Park and Jacob Fontaine and Wilhemina Delco Pocket Parks) as well as existing commercial and retail uses to provide amenities and services to new development in the Highland area.

Applicable Small Area Plan Policies from the Brentwood/Highland NP:

Goal 3. Encourage a mixture of compatible and appropriately scaled business and residential land uses in the neighborhood and mixed-use development on major corridors to enhance this diversity. (p. 28)

Goal 4. Preserve locally owned small businesses in the neighborhood and encourage new ones that are walkable and serve the needs of the neighborhood.

Goal 5. Focus higher density uses and mixed-use development on major corridors, and enhance the corridors by adding incentives for creative, aesthetically pleasing, pedestrian-friendly redevelopment.

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Tannehill Branch Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

Zoning district impervious cover limits apply in the Urban Watershed classification.

According to floodplain maps there is no floodplain within or adjacent to the project location.

At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 sq. ft. cumulative is exceeded, and on site control for the two-year storm.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

Fire

No comments.

Parks and Recreation:

Parkland dedication may be required for any applicable uses proposed by this development, residential and office with LI-PDA-NP zoning, at the time of subdivision or site plan, per City Code § 25-1-601. The property is subject to a Memorandum of Understanding for the Highland Mall redevelopment, which allows for fees in-lieu of the land requirement. Any fees shall be used toward park investments in the form of land acquisition and/or park amenities within the surrounding area, per the Parkland Dedication Operating Procedures § 14.3.11 and City Code § 25-1-607 (B)(1) & (2).

If the applicant wishes to discuss parkland dedication requirements in advance of site plan or subdivision applications, please contact this reviewer: thomas.rowlinson@austintexas.gov. At the applicant's request, PARD can provide an early determination of whether fees in-lieu of land will be allowed.

Site Plan

Site plans will be required for any new development other than single-family or duplex residential.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540 feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

Transportation

Compliance with the ASMP will be assessed at during the review of the site plan. Therefore, assessment of required transportation mitigation, including the potential dedication of right of way and easements and participation in roadway and other multimodal improvements, will occur at the time of site plan application. A traffic impact analysis shall be required at the time of site plan if triggered per LDC 25-6-113.

The Austin Strategic Mobility Plan (ASMP) calls for 60 feet of right-of-way for Highland Mall Rd. It is recommended that 30 feet of right-of-way from the future centerline should be dedicated for Highland Mall Rd according to the Transportation Plan with the first subdivision or site plan application. [LDC 25-6-51 and 25-6-55].

ATD staff supports the use of alternative parking ratios and reductions as well as transportation demand strategies to reduce the need to provide on-site parking.

Water Utility

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria and suitability for operation and maintenance.

Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin.

The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

Re: RedLeaf Highland – Tract 5 – C14-2022-0029 – Limited Industrial Services-Planned Development Area-Neighborhood Plan Combining District (LI-PDA-NP) Rezoning application for the 5.81-acre piece of property located at 523 East Highland Mall Boulevard in Austin, Travis County, Texas (the “Property”)

Dear Ms. Truelove:

As representatives of the owner of the Property, please accept this letter as a formal update to Case Number C14-2022-0029 to reflect a needed modification in regard to the development regulations for this project, resulting in a project that will more closely resemble the existing site development regulations on the Property today. After review of the initial staff recommendation report, our team realized some of the initial intent of our application was not achieved when the application was modified to remove requests that cannot be regulated in a Planned Development Area (“PDA”). We apologize for this late modification, but in order to ensure success of the project, we are requesting the following modifications:

- Maximum floor-to-area ratio (“FAR”) for this project be modified from 4:1 to 5:1;
- Maximum Building Coverage from 75% to 95%;
- Maximum Impervious Coverage from 80% to 95%;
- Setback - Interior Side Yard to 0 feet
- Setback - Rear Yard to 0 feet

To reiterate, these requests are to modify the Limited Industrial Services (“LI”) site development standards to more closely mirror the existing site development standards on the Property and surrounding property. There is no modification of the previously requested height of 120 feet. There is no modification of the previously requested permitted, conditional, and prohibited uses; a full list of which is outlined below.
