

ATTACHMENT A - PRINCIPAL AGREEMENT

To ensure the success of the SwimATX program, I, the Principal of _____ agree to:

- Provide a single dedicated Physical Education educator to monitor and assist the students in the SwimATX program, to provide mentoring and to encourage course completion.
- Ensure that a minimum of 44 of the required 50 students (22 from each class period) are actively participating in the SwimATX program each year.
- Recruit students to participate in the SwimATX program by allowing City employees and SwimATX representatives to present information regarding the SwimATX program and lifeguard certification course onsite to AISD students at their respective campus.
- Provide the City with a calendar of modified school day schedules two weeks in advance if the schedule modifications may impact student participation in the SwimATX program.
- Provide students participating in the SwimATX with transportation to and from City of Austin and YMCA of Austin facilities for both the weekly class times and the StarGuard Elite Lifeguard Certification Course. This can be achieved by ensuring the buses are reserved two weeks before the program begins.
- Provide the City with a final roster of all students enrolled in each Physical Education class participating in the SwimATX program by the fourth week of the first semester.
- Provide lunches to the students participating in the StarGuard Elite Lifeguard certification course offered by the City during AISD finals week.
- Ensure that students participating in the StarGuard lifeguard certification course are given the opportunity to take their finals during an alternative time.
- Ensure all participant waivers are collected and provided to the City within two weeks of the program start date.
