- Permitting
- Project Coordination
- Traffic Control Plan Review
- Utility Coordination
- Inspection and Enforcement

TRANSPORTATION  
PUBLIC WORKS

## Permitting and Project Coordination

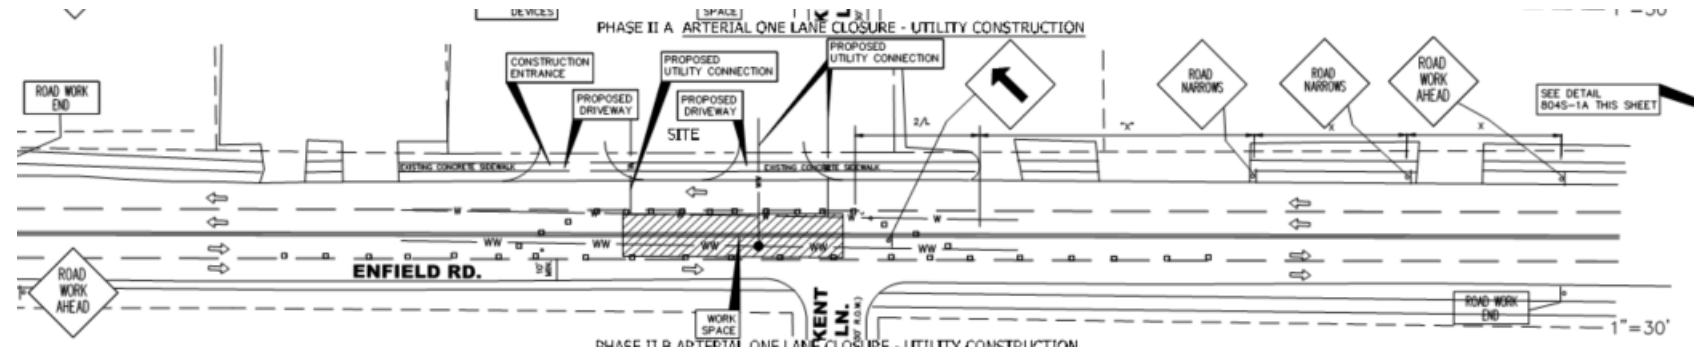

- Working in the ROW requires a permit. (approximately 30,000 requests/year).
- Coordinate with other work...
  - City work
  - Franchise utilities
  - Private development
  - Special events/filming
  - ... and more (3,500 average active permits at any one time)

TRANSPORTATION  
PUBLIC WORKS

## Traffic Control Plan Review

- State law and city code requirement
- Ensure that TCPs meet national, state, and local requirements and practices
- Review for safety and mobility
- Approximately 3,000 reviews per year

TRANSPORTATION  
PUBLIC WORKS

## Utility Coordination

- Process that provides information on utilities for project design to avoid utility conflicts and prevent utility damage
- Both public and private utilities participate
- Approximately 700 cases/year

TRANSPORTATION  
PUBLIC WORKS

## Inspection and Enforcement

- Ensure City Code is followed by checking that work is permitted and has adhered to approved conditions
- Address safety and mobility issues
- Protect infrastructure.
