Additional Backup Information:

The contract will provide e-Builder project management software, licensing, maintenance, and support for the Corridor Construction Program. The software is used to manage capital program activities, data collection, and reporting through workflow and business intelligence. e-Builder is a complete solution designed at its core to deliver control and reduce surprises for staff managing capital programs.

The State of Texas Department of Information Technology cooperative is a cooperative purchasing association recognized under Texas procurement statutes. Cooperative associations, themselves or using a lead government, competitively solicit and award contracts that are eligible for use by other qualified state and local governments. Due to their substantial volumes, larger than any one government could achieve independently, cooperative contracts routinely include superior terms, conditions, and pricing. Use of cooperative contracts also results in lower administrative costs and time savings.
