External Email - Exercise Caution

My name is David Herndon. My wife and I have owned and lived in the house at 2903 Tarry Trail since 1980. I object to the requested Certificate of Appropriateness.

2900 Tarry Trail never had a front wall so installing one now is not historic. The Commission's file when the house was designated historic does not show a wall like the one now proposed.

Furthermore, the wall and landscaping being proposed would block the view of the house from the street. Sitting in a car driving by 2900, one would only see the roof. What good is preserving the historic house if no one can see it?
