

**NEIGHBORHOOD PLAN AMENDMENT REVIEW SHEET**

**NEIGHBORHOOD PLAN:** Montopolis

**CASE#:** NPA-2022-0005.02

**DATE FILED:** July 27, 2022 (In-cycle)

**PROJECT NAME:** Second Alpha .095

**PC DATE:** April 11, 2023  
March 28, 2023  
February 28, 2023  
January 10, 2023

**ADDRESS/ES:** 2404 Thrasher Lane

**DISTRICT AREA:** 3

**SITE AREA:** 0.96 acres

**OWNER/APPLICANT:** Alpha Builders (Gino Shvets)

**AGENT:** Rodney K. Bennett

**CASE MANAGER:** Maureen Meredith

**PHONE:** (512) 974-2695

**STAFF EMAIL:** Maureen.Meredith@austintexas.gov

**TYPE OF AMENDMENT:**

**Change in Future Land Use Designation**

**From:** Commercial

**To:** Single Family

**Base District Zoning Change**

**Related Zoning Case:** C14-2022-0114

**From:** CS-NP

**To:** SF-3-NP

**NEIGHBORHOOD PLAN ADOPTION DATE:** September 27, 2001

**CITY COUNCIL DATES:**

**February 9, 2023**

**ACTION:** Postponed to March 23, 2023 by  
the request of Staff without objection.

**March 23, 2023**

**ACTION:** Postponed to April 13, 2023 by Staff. [P. Ellis – 1<sup>st</sup>; V. Fuentes -2<sup>nd</sup>] No objection.

**April 13, 2023**

**ACTION:** Postponed to June 1, 2023 at the request of Applicant. [A. Alter – 1<sup>st</sup>; N. Harper-Madison – 2<sup>nd</sup>] No objection.

**June 1, 2023**

**ACTION:** Postponed to July 20, 2023 at the request of the Neighborhood. [L. Pool – 1<sup>st</sup>; C. Vela – 2<sup>nd</sup>] Vote: 9-0 [Mayor Watson and A. Alter off the dais].

**July 20, 2023**

**ACTION:** Postponed to August 31, 2023 at the request of an adjacent property owner.

**August 31, 2023**

**ACTION:** Approved 1<sup>st</sup> Reading

**September 21, 2023**

**ACTION:** Proposed for 2<sup>nd</sup>/3<sup>rd</sup> Readings

**PLANNING COMMISSION RECOMMENDATION:**

***April 11, 2023*** - After debate and discussion, item forwarded to Council without a recommendation due to lack of an affirmative vote.

***March 28, 2023*** – After discussion, postponed to April 11, 2023 by the Planning Commission. [A. Azhar – 1<sup>st</sup>; C. Hempel – 2<sup>nd</sup>] Vote: 10-3 [J. Mushtaler, C. Hempel and J. Thompson voted nay].

***February 28, 2023*** - Postponed on the consent agenda to March 28, 2023 at the request of the applicant. [R. Schneider – 1<sup>st</sup>; P. Howard – 2<sup>nd</sup>] Vote: 11-0 [Y. Flores absent. One vacancy on the dais].

***January 10, 2023*** – Postponed on the consent agenda to February 28, 2023 at the request of the neighborhood. [A. Azhar – 1<sup>st</sup>; J. Thompson – 2<sup>nd</sup>] Vote: 11-0 [P. Howard absent. One vacancy].

**STAFF RECOMMENDATION:** Recommended for applicant's request for Single Family land use.

**BASIS FOR STAFF'S RECOMMENDATION:** The property is a 0.95-acre vacant tract of land with CS-NP zoning and Commercial future land use. To the north is a single-family

home zoned SF-3-NP with primary frontage on Carson Ridge. The FLUM shows Transportation on the property to the north presumably because the plan supported the extension of Carson Ridge, an undeveloped road that has proposed right-of-way through this property. The property to the south is a single-family home zoned CS-NP with a future land use of Commercial.

Staff supports the applicant's request for Single Family land use. The Single Family land use and SF-3-NP zoning would allow for the development of housing units which could provide additional housing units to the Montopolis planning area and the city. The Montopolis Plan supports creating homes for all stages of life and the creation of multiple housing types.

## **LAND USE**

**Goal 1: Improve the Quality of Life in Montopolis through Land Use and Zoning Decisions.**

**Goal 2: Create Homes for all Stages of Life within Montopolis.**

**Objective 4: Enhance and protect existing single family housing.**

**Objective 5: Create multiple housing types of varied intensities.**

*Action 16:* Allow "**Small Lot Amnesty**" throughout the entire Montopolis neighborhood as described in the Smart Growth Infill proposals, permitting new single-family development on existing lots of 2,500 square feet or greater.

*Action 17:* Allow **garage apartments** and secondary residential units throughout the Montopolis neighborhood on lots of 5,750 square feet or greater with MF-6 or less restrictive zoning. Other site development standards would apply, as specified in the Smart Growth Infill "Secondary Apartment" option.

*Action 18:* Allow "**Cottage Lot**" development - single-family units on lots of 2,500 square feet or greater with MF-6 or less restrictive zoning. Other site development standards would apply, as specified in the Smart Growth Infill "Cottage Lot" option.

*Action 19:* Allow "**Urban Home**" development - single-family units on lots of 3,500 square feet or greater with MF-6 or less restrictive zoning. Other site

## **LAND USE DESCRIPTIONS**

### ***EXISTING LAND USE ON THE PROPERTY***

**Commercial** -Lots or parcels containing retail sales, services, hotel/motels and all recreational services that are predominantly privately owned and operated for profit (for example, theaters and bowling alleys). Included are private institutional uses (convalescent homes and rest homes in which medical or surgical services are not a main function of the institution), but not hospitals.

**Purpose**

1. Encourage employment centers, commercial activities, and other non- residential development to locate along major thoroughfares; and
2. Reserve limited areas for intense, auto-oriented commercial uses that are generally not compatible with residential or mixed use environments.

**Application**

1. Focus the highest intensity commercial and industrial activities along freeways and major highways; and
2. Should be used in areas with good transportation access such as frontage roads and arterial roadways, which are generally not suitable for residential development.

***PROPOSED LAND USE ON THE PROPERTY***

**Single family** - Detached or two family residential uses at typical urban and/or suburban densities.

**Purpose**

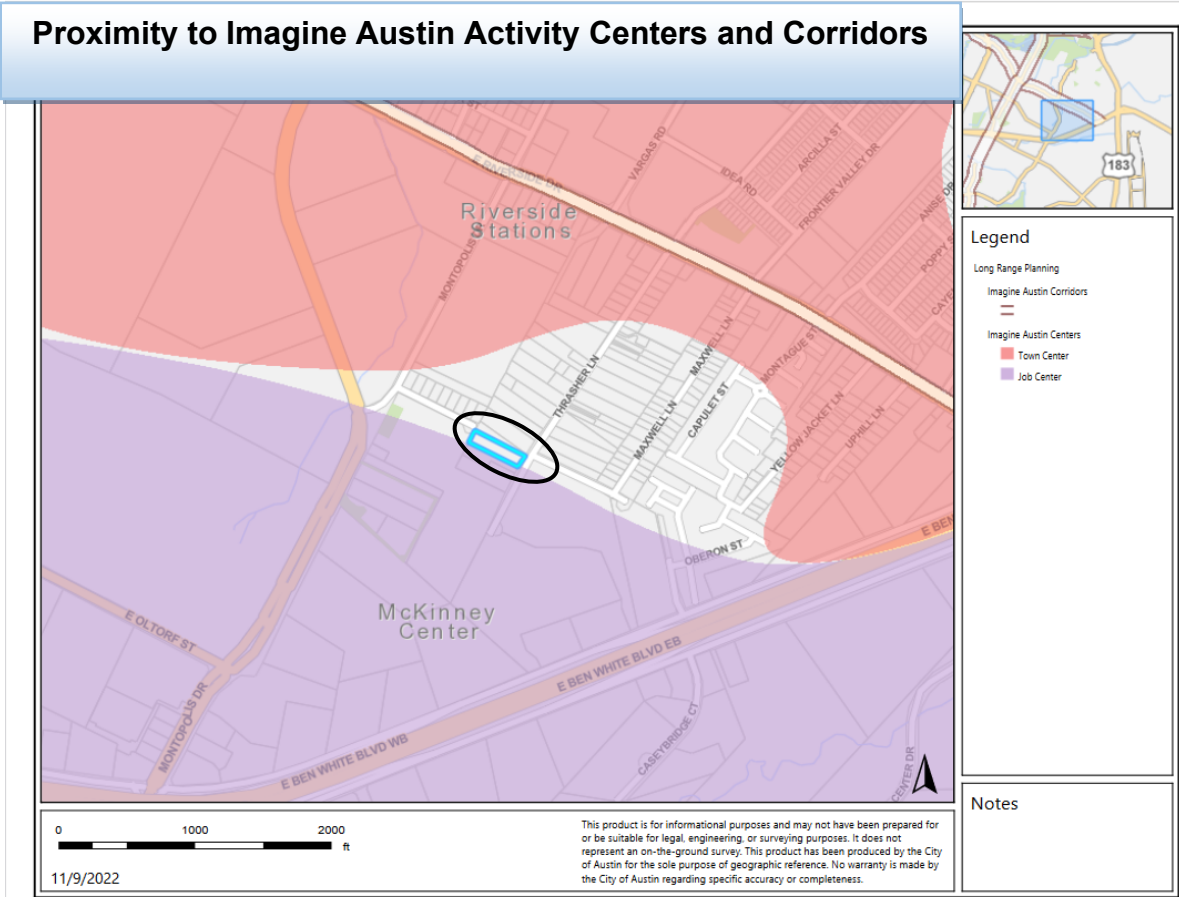

1. Preserve the land use pattern and future viability of existing neighborhoods;
2. Encourage new infill development that continues existing neighborhood patterns of development; and
3. Protect residential neighborhoods from incompatible business or industry and the loss of existing housing.

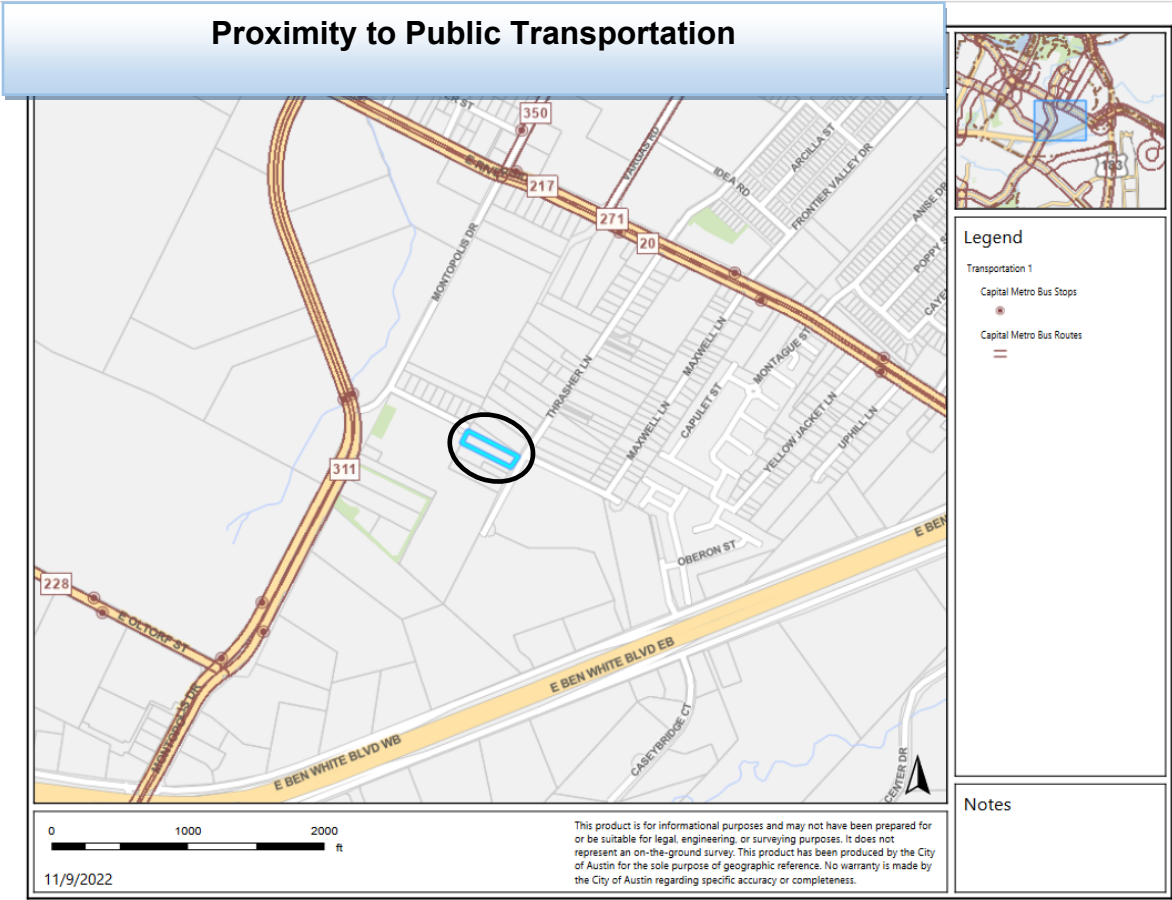

**Application**

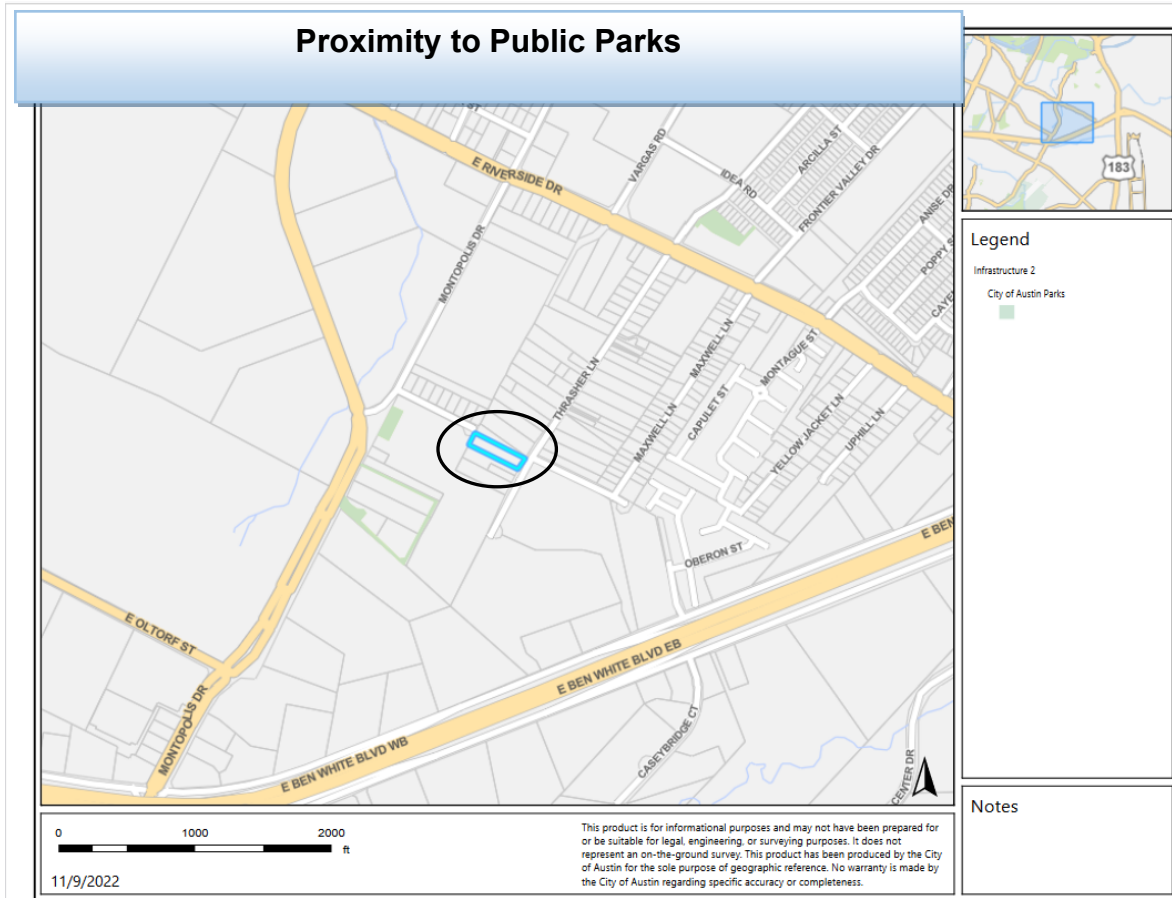

1. Existing single-family areas should generally be designated as single family to preserve established neighborhoods; and
2. May include small lot options (Cottage, Urban Home, Small Lot Single Family) and two-family residential options (Duplex, Secondary Apartment, Single Family Attached, Two-Family Residential) in areas considered appropriate for this type of infill development.

n/a	<b>Protects the Environment:</b> Reduces greenhouse gas emissions, water, energy usage, and/or increases waste diversion.
n/a	<b>Protects Environmentally Sensitive Lands:</b> Protects Austin's natural resources and environmental

	systems by limiting land use and transportation development over or near environmentally sensitive areas, preserves open space, and protects natural resources more than ordinance requirements.
n/a	<b>Water/Wastewater Infrastructure:</b> Sustainably manages Austin's water resources and stream corridors through on-site use of storm water, effective landscaping, flood mitigation, and other low-impact development techniques more than ordinance requirements.
PUD zoning is not requested	<b>Total Number of "Yes's"</b>

## IMAGINE AUSTIN GROWTH CONCEPT MAP

### Definitions

**Neighborhood Centers** - The smallest and least intense of the three mixed-use centers are neighborhood centers. As with the regional and town centers, neighborhood centers are walkable, bikable, and supported by transit. The greatest density of people and activities in neighborhood centers will likely be concentrated on several blocks or around one or two intersections. However, depending on localized conditions, different neighborhood centers can be very different places. If a neighborhood center is designated on an existing commercial area, such as a shopping center or mall, it could represent redevelopment or the addition of housing. A new neighborhood center may be focused on a dense, mixed-use core surrounded by a mix of housing. In other instances, new or redevelopment may occur incrementally and concentrate people and activities along several blocks or around one or two intersections. Neighborhood centers will be more locally focused than either a regional or a town center. Businesses and services—grocery and department stores, doctors and dentists, shops, branch libraries, dry cleaners, hair salons, schools, restaurants, and other small and local businesses—will generally serve the center and surrounding neighborhoods.

**Town Centers** - Although less intense than regional centers, town centers are also where many people will live and work. Town centers will have large and small employers, although fewer than in regional centers. These employers will have regional customer and employee bases, and provide goods and services for the center as well as the surrounding areas. The buildings found in a town center will range in size from one-to three-story houses, duplexes, townhouses, and rowhouses, to low-to midrise apartments, mixed use buildings, and office buildings. These centers will also be important hubs in the transit system.

**Regional Centers** - Regional centers are the most urban places in the region. These centers are and will become the retail, cultural, recreational, and entertainment destinations for Central Texas. These are the places where the greatest density of people and jobs and the tallest buildings in the region will be located. Housing in regional centers will mostly consist of low to high-rise apartments, mixed use buildings, row houses, and townhouses. However, other housing types, such as single-family units, may be included depending on the location and character of the center. The densities, buildings heights, and overall character of a center will depend on its location.

**Activity Centers for Redevelopment in Sensitive Environmental Areas** - Five centers are located over the recharge or contributing zones of the Barton Springs Zone of the Edwards Aquifer or within water-supply watersheds. These centers are located on already developed areas and, in some instances, provide opportunities to address long-standing water quality issues and provide walkable areas in and near existing neighborhoods. State-of-the-art development practices will be required of any redevelopment to improve stormwater retention and the water quality flowing into the aquifer or other drinking water sources. These centers should also be carefully evaluated to fit within their infrastructural and environmental context.

**Job Centers** - Job centers accommodate those businesses not well-suited for residential or environmentally- sensitive areas. These centers take advantage of existing transportation infrastructure such as arterial roadways, freeways, or the Austin-Bergstrom International airport. Job centers will mostly contain office parks, manufacturing, warehouses, logistics, and other businesses with similar demands and operating characteristics. They should nevertheless become more pedestrian and bicycle friendly, in part by better accommodating services for the people who work in those centers. While many of these centers are currently best served by car, the growth Concept map offers transportation choices such as light rail and bus rapid transit to increase commuter options.

**Corridors** - Activity corridors have a dual nature. They are the connections that link activity centers and other key destinations to one another and allow people to travel throughout the city and region by bicycle, transit, or automobile. Corridors are also characterized by a variety of activities and types of buildings located along the roadway — shopping, restaurants and cafés, parks, schools, single-family houses, apartments, public buildings, houses of worship, mixed-use buildings, and offices. Along many corridors, there will be both large and small redevelopment sites. These redevelopment opportunities may be continuous along stretches of the corridor. There may also be a series of small neighborhood centers, connected by the roadway. Other corridors may have fewer redevelopment

opportunities, but already have a mixture of uses, and could provide critical transportation connections. As a corridor evolves, sites that do not redevelop may transition from one use to another, such as a service station becoming a restaurant or a large retail space being divided into several storefronts. To improve mobility along an activity corridor, new and redevelopment should reduce per capita car use and increase walking, bicycling, and transit use. Intensity of land use should correspond to the availability of quality transit, public space, and walkable destinations. Site design should use building arrangement and open space to reduce walking distance to transit and destinations, achieve safety and comfort, and draw people outdoors.

**BACKGROUND:** The application was filed on July 27, 2022 which is in-cycle for neighborhood planning areas located on the east side of IH-35.

The applicant proposes to change the future land use map (FLUM) from Commercial to Single Family land use.

The applicant proposes to change the zoning on the property from CS-NP (General Commercial Services district – Neighborhood Plan) to SF-3-NP (Family Residential district – Neighborhood Plan) for two-family residential development with a total of ten units. For more information on the proposed zoning change, see case report C14-2022-0114.

**PUBLIC MEETINGS:** The ordinance-required community meeting was virtually held on October 6, 2022. 1475 meeting notices were mailed to people who rent or own property within 500 feet of the subject tract, in addition to neighborhood and environmental groups who requested notification for the area. Two city staff members attended, Maureen Meredith and Mark Walters from the Housing and Planning Department. Rodney Bennett, the applicant's agent attended. No one from the neighborhood attended the meeting.

**Subject:** 2404 Thrasher Lane C14-2022-0114 NPA-2022-0005.02 - MNPCT

Hello Planning Commissioners-

The Montopolis Neighborhood Plan Contact Team does not oppose single family zoning in our community. The Contact Team has fought hard to protect and preserve single family zoning in our community, especially single family housing that is truly affordable. We recommend that some of the units being built at 2404 Thrasher Lane be affordable.

Montopolis is one of the neighborhoods that is within Project Connect's Anti-Displacement protection area. Montopolis is also a State designated Opportunity Zone Development area.

It cannot be stressed enough: the median family income for Montopolis is different from the MFI for Travis County. According to 2019 American Community survey data, the per capita income for Montopolis is \$20,859 and the median household income is \$42,344. Our overall poverty rate is 26.4%, our childhood poverty rate (under 18) stands at 30%, and the poverty rate for seniors (over 65) is 32%. These numbers reflect increases in both population and income caused by already occurring gentrification. The construction of rental housing at 60% MFI and ownership housing at 80% MFI will just exacerbate displacement and gentrification.

Stop the Displacement,  
Susana Almanza, President Montopolis Neighborhood Plan Contact Team

**Subject:** 2404 Thrasher Lane

Good Morning,

RE: Items 169 and 170 on the Thursday July 20, 2023 Austin City Council Agenda, please vote AYE in support of the applicant's request.

The Montopolis Neighborhood Planning Contact Team, the Montopolis Neighborhood Association, the Carson Ridge/Thrasher Neighborhood Association, the Montopolis CDC and others also support the applicant's request.

The Montopolis CDC has been in negotiations with the applicant, and we have negotiated a tentative Community Benefits Agreement which would result in the construction of at least one of the proposed units to the International Passive House standard, the second such building in Montopolis (and Austin) constructed to this high standard, which is 3-5 times as energy efficient as a LEED Platinum or Austin Energy Greenbuilding 5-Star greenbuilt home.

We are aware that an absentee landlord who owns an adjacent lot is in opposition to this zoning request. Her business concerns are profits-driven and parochial and are nullified by the fact that Montopolis is a family community, with Thrasher Lane in particular one of our neighborhood's core family neighborhoods. She knew what she was buying, as I personally as well as others have made this clear. The previous owners, Felix and Amanda Benavides are even featured in my book about Montopolis, *Austin's Montopolis Neighborhood*.

2404 Thrasher Lane is currently greenspace, with close to zero percent impervious cover and many plants, trees and shrubs. Given the fact that we have already borne the disproportionate brunt of greenspace destruction and steroidal multifamily

Opportunity Zone based housing, we feel strongly that SF-3 zoning is one of the best options available if this property is to be developed. It is in that spirit that my wife and I are prepared to withdraw our valid zoning petition if council is prepared to vote for the SF-3 zoning both the applicant and the neighborhood support.

I urge you to put this item on the consent agenda, as I am sure you have other pressing business to attend to at Thursday's meeting.

Regards,

flm

Wendy,

As the owner of the two properties adjacent to the south, I would like to ask for postponement of cases **NPA-2022-0005.02** and **C14-2022-0114** to February 14th.

I have been in communication with the owner's agent and was told that we would be able to speak before this public hearing. That has not happened yet, though I have reached out several times.

Best regards,

Sara Souerbry
