

NEIGHBORHOOD PLAN AMENDMENT REVIEW SHEET

NEIGHORHOOD PLAN: University Hills/Windsor Park Combined

CASE#: NPA-2023-0023.01

DATE FILED: June 5, 2023

PROJECT NAME: Sheridan

PC DATE: October 10, 2023
September 12, 2023

ADDRESS/ES: 6103 Sheridan Ave

DISTRICT AREA: 4

SITE AREA: 0.1866 acres

OWNER/APPLICANT: Leslie Elliott

AGENT: Leslie Elliott (*Formally represented by Ricca Keepers, Keepers Land Planning*)

CASE MANAGER: Maureen Meredith

PHONE: (512) 974-2695

STAFF EMAIL: Maureen.Meredith@austintexas.gov

TYPE OF AMENDMENT:

Change in Future Land Use Designation

From: Single Family

To: Commercial

Base District Zoning Change

Related Zoning Case: C14-2023-0035

From: SF-3-NP

To: LR-MU-CO-NP (as amended)

NEIGHBORHOOD PLAN ADOPTION DATE: May 29, 2008

CITY COUNCIL DATE: TBD

ACTION:

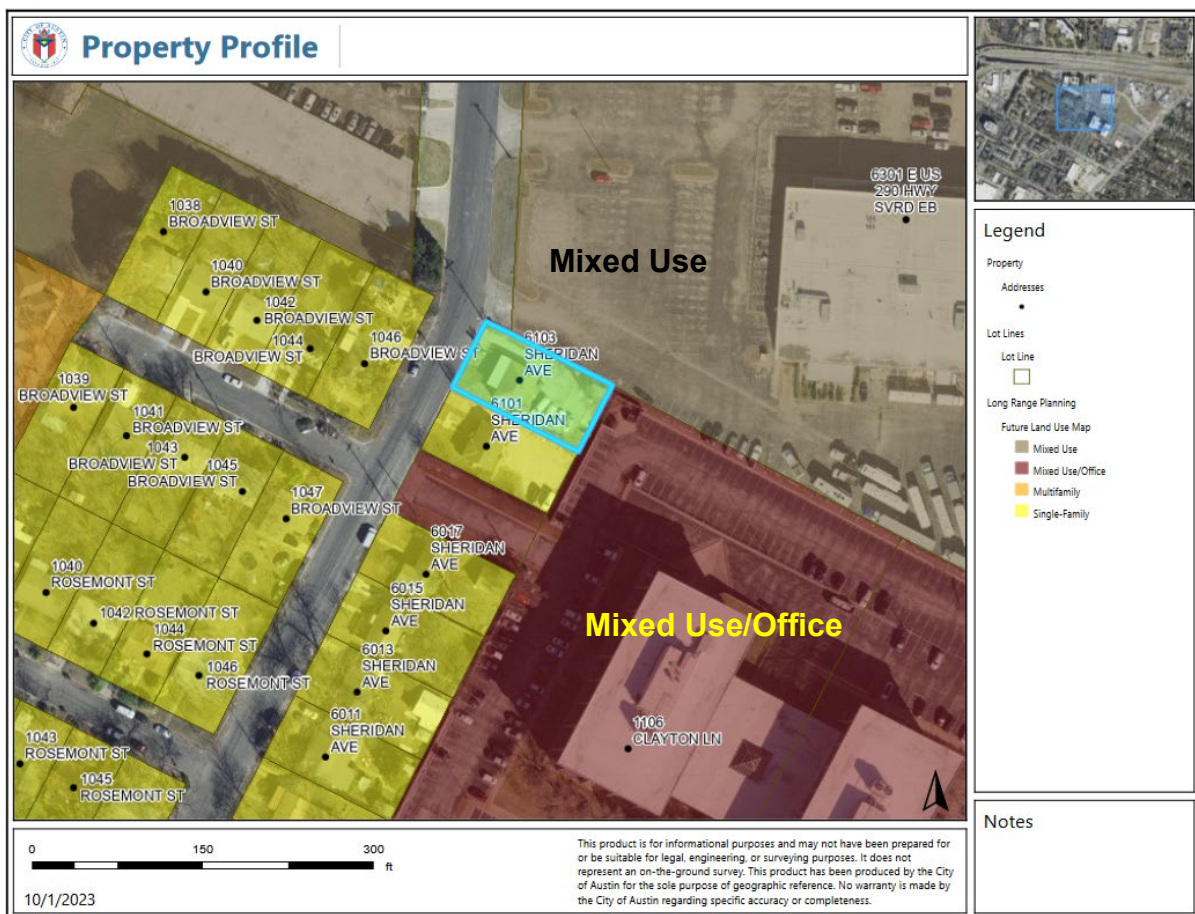

PLANNING COMMISSION RECOMMENDATION:

October 10, 2023 - (action pending)

September 12, 2023- Postponed to October 10, 2023 on the consent agenda at the request of staff. [C. Hempel – 1st; A. Azhar – 2nd] Vote: 12-0 [A. Phillips off the dais pending completion of membership requirements].

STAFF RECOMMENDATION: To support an alternate land use of Mixed Use land use.

BASIS FOR STAFF'S RECOMMENDATION: To the north of the property are commercial and office buildings with Mixed Use land use. To the east of the subject property is an office building with Mixed Use/Office land use. Transitioning the land use to Mixed Use on this property is appropriate given the property's location between three commercial tracts. The property to the south at 6101 Sheridan Ave is zoned LO-NP although it has Single Family land use on the future land use map. See maps below.

LAND USE

Objective: Preserve the single-family residential homes on Rosemont, Sheridan, and Broadview Streets

– They provide affordable housing and are nearby many services.

Recommendation:

- Maintain the existing residential zoning on these properties.

ECONOMIC DEVELOPMENT

This section includes objectives and recommendations that support the following

UHWP Neighborhood Plan goal:

- Attract needed vendors and service providers into the planning area through support for local businesses, and encourage revitalization/redevelopment of neighborhood shopping areas

Objective: Attract desired businesses and service providers into the planning area.

Recommendations:

- Create an inventory and directory of all existing area businesses located in the area.
- Define desirable uses for specific areas within UHWP, quality retail, coffee shops, cafes, more restaurants, a movie theater and businesses that cater to daily needs

LAND USE DESCRIPTIONS

EXISTING LAND USE ON THE PROPERTY

Single family - Detached or two family residential uses at typical urban and/or suburban densities.

Purpose

1. Preserve the land use pattern and future viability of existing neighborhoods;
2. Encourage new infill development that continues existing neighborhood patterns of development; and
3. Protect residential neighborhoods from incompatible business or industry and the loss of existing housing.

Application

1. Existing single-family areas should generally be designated as single family to preserve established neighborhoods; and
2. May include small lot options (Cottage, Urban Home, Small Lot Single Family) and two-family residential options (Duplex, Secondary Apartment, Single Family Attached, Two-Family Residential) in areas considered appropriate for this type of infill development.

PROPOSED LAND USE ON THE PROPERTY

Commercial -Lots or parcels containing retail sales, services, hotel/motels and all recreational services that are predominantly privately owned and operated for profit (for example, theaters and bowling alleys). Included are private institutional uses (convalescent homes and rest homes in which medical or surgical services are not a main function of the institution), but not hospitals.

Purpose

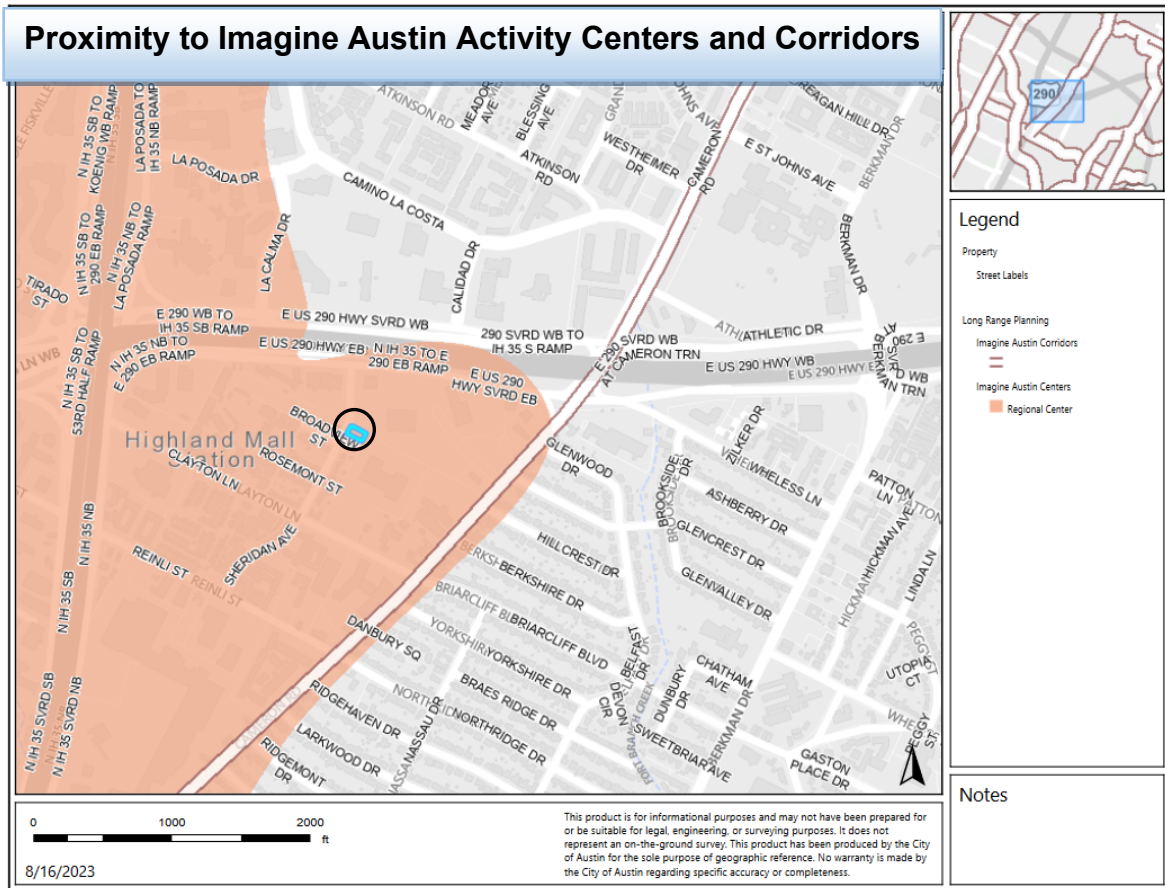

1. Encourage employment centers, commercial activities, and other non- residential development to locate along major thoroughfares; and
2. Reserve limited areas for intense, auto-oriented commercial uses that are generally not compatible with residential or mixed use environments.

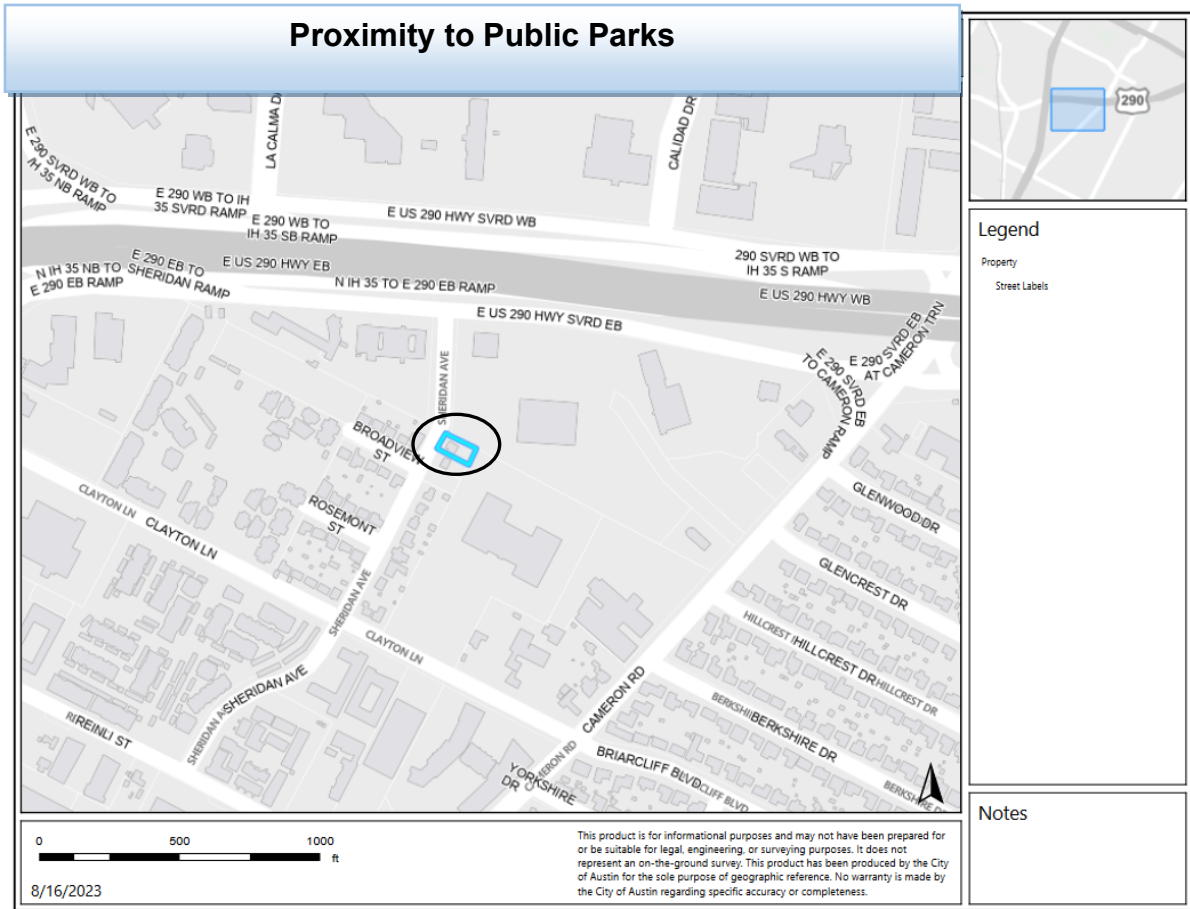

Application

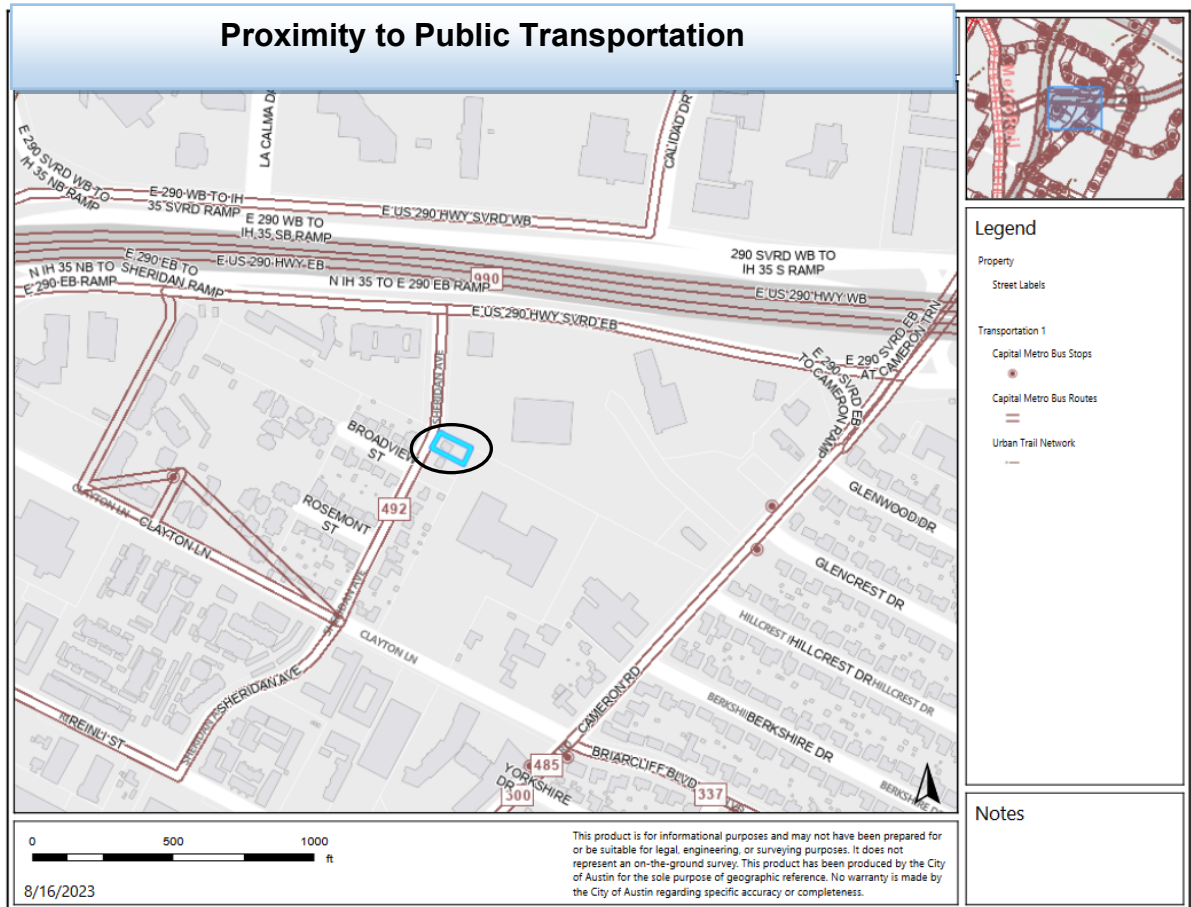

1. Focus the highest intensity commercial and industrial activities along freeways and major highways; and
2. Should be used in areas with good transportation access such as frontage roads and arterial roadways, which are generally not suitable for residential development.

n/a	Protects Environmentally Sensitive Lands: Protects Austin's natural resources and environmental systems by limiting land use and transportation development over or near environmentally sensitive areas, preserves open space, and protects natural resources more than ordinance requirements.
na	Water/Wastewater Infrastructure: Sustainably manages Austin's water resources and stream corridors through on-site use of storm water, effective landscaping, flood mitigation, and other low-impact development techniques more than ordinance requirements.
PUD zoning is not proposed	Total Number of "Yes's"

IMAGINE AUSTIN GROWTH CONCEPT MAP

Definitions

Neighborhood Centers - The smallest and least intense of the three mixed-use centers are neighborhood centers. As with the regional and town centers, neighborhood centers are walkable, bikable, and supported by transit. The greatest density of people and activities in neighborhood centers will likely be concentrated on several blocks or around one or two intersections. However, depending on localized conditions, different neighborhood centers can be very different places. If a neighborhood center is designated on an existing commercial area, such as a shopping center or mall, it could represent redevelopment or the addition of housing. A new neighborhood center may be focused on a dense, mixed-use core surrounded by a mix of housing. In other instances, new or redevelopment may occur incrementally and concentrate people and activities along several blocks or around one or two intersections. Neighborhood centers will be more locally focused than either a regional or a town center. Businesses and services—grocery and department stores, doctors and dentists, shops, branch libraries, dry cleaners, hair salons, schools, restaurants, and other small and local businesses—will generally serve the center and surrounding neighborhoods.

Town Centers - Although less intense than regional centers, town centers are also where many people will live and work. Town centers will have large and small employers, although fewer than in regional centers. These employers will have regional customer and employee bases, and provide goods and services for the center as well as the surrounding areas. The buildings found in a town center will range in size from one-to three-story houses, duplexes, townhouses, and rowhouses, to low-to midrise apartments, mixed use buildings, and office buildings. These centers will also be important hubs in the transit system.

Regional Centers - Regional centers are the most urban places in the region. These centers are and will become the retail, cultural, recreational, and entertainment destinations for Central Texas. These are the places where the greatest density of people and jobs and the tallest buildings in the region will be located. Housing in regional centers will mostly consist of low to high-rise apartments, mixed use buildings, row houses, and townhouses. However, other housing types, such as single-family units, may be included depending on the location and character of the center. The densities, buildings heights, and overall character of a center will depend on its location.

Activity Centers for Redevelopment in Sensitive Environmental Areas - Five centers are located over the recharge or contributing zones of the Barton Springs Zone of the Edwards Aquifer or within water-supply watersheds. These centers are located on already developed areas and, in some instances, provide opportunities to address long-standing water quality issues and provide walkable areas in and near existing neighborhoods. State-of-the-art development practices will be required of any redevelopment to improve stormwater retention and the water quality flowing into the aquifer or other drinking water sources. These centers should also be carefully evaluated to fit within their infrastructural and environmental context.

Job Centers - Job centers accommodate those businesses not well-suited for residential or environmentally- sensitive areas. These centers take advantage of existing transportation infrastructure such as arterial roadways, freeways, or the Austin-Bergstrom International airport. Job centers will mostly contain office parks, manufacturing, warehouses, logistics, and other businesses with similar demands and operating characteristics. They should nevertheless become more pedestrian and bicycle friendly, in part by better accommodating services for the people who work in those centers. While many of these centers are currently best served by car, the growth Concept map offers transportation choices such as light rail and bus rapid transit to increase commuter options.

Corridors - Activity corridors have a dual nature. They are the connections that link activity centers and other key destinations to one another and allow people to travel throughout the city and region by bicycle, transit, or automobile. Corridors are also characterized by a variety of activities and types of buildings located along the roadway — shopping, restaurants and cafés, parks, schools, single-family houses, apartments, public buildings, houses of worship, mixed-use buildings, and offices. Along many corridors, there will be both large and small redevelopment sites. These redevelopment opportunities may be continuous along stretches of the corridor. There may also be a series of small neighborhood centers, connected by the roadway. Other corridors may have fewer redevelopment

opportunities, but already have a mixture of uses, and could provide critical transportation connections. As a corridor evolves, sites that do not redevelop may transition from one use to another, such as a service station becoming a restaurant or a large retail space being divided into several storefronts. To improve mobility along an activity corridor, new and redevelopment should reduce per capita car use and increase walking, bicycling, and transit use. Intensity of land use should correspond to the availability of quality transit, public space, and walkable destinations. Site design should use building arrangement and open space to reduce walking distance to transit and destinations, achieve safety and comfort, and draw people outdoors.

BACKGROUND: The plan amendment application was filed on June 5, 2023, which is out-of-cycle for neighborhood plan areas located on the east side of IH-35. The Windsor Park Neighborhood Plan Contact Team allowed the application to be filed out-of-cycle.

The applicant proposes to change the land use on the future land use map (FLUM) from Single Family to Commercial land use.

The applicant proposes to change the zoning on the property from SF-3-NP to LR-MU-NP for commercial/office use. For more information on the zoning request, see case report C14-2023-0035.

PUBLIC MEETINGS: The ordinance-required community meeting was virtually held on July 27, 2023. The recorded meeting can be found here: <https://publicinput.com/neighborhoodplanamendmentcases>. Approximately 84 community meeting notices were mailed to people who have utility accounts or own property within 500 feet of the subject property, in addition to neighborhood and environmental groups who requested notification for the area.

Below are highlights from Ricca Keeper's presentation. Her full presentation is at the back of this report.

- Leslie Elliot, the owner/applicant, bought the property for her pool staffing business and was originally told by the Development Services Department that LR-NP would be the zoning she needed. However, it was discovered that the outside storage she needs for her business is not allowed in LR, so she is requesting CS-CO-NP zoning with conditions to prohibit certain uses.
- Leslie wanted a lot inside Austin. There were previous businesses on the property. We want to be good neighbors.
- For LR zoning, we would only be allowed a shed that could be only 10% of the square footage of the primary structure, which would only be 80 sq. ft. which is not enough for her needs.
- The uses highlighted in the list of CS uses are the ones we are requesting to be prohibited.
- We need Construction, Sales and Services use and an office use.
- We want to work with the neighborhood to limit the site development standards to the LR zoning district.

Q: What is the size of lot?

A: It's 8, 130 sq. ft.

Q: Do you plan to expand the structure?

A: Not really. It's a great space. The previous owner opened up inside, so the space works well for us. We are also renting the lot next door at 6101 Sheridan Ave for office space. We just need a space for the parts and supply area.

Applicant Summary Letter from Application

City of Austin Application Packet for Neighborhood Plan Amendment
For Individual Property Owner

*** External Email - Exercise Caution ***

Dear Maureen,

On September 12, 2022, the Windsor Park Neighborhood Plan Contact Team (WPNPCT) met to discuss an out-of-cycle neighborhood plan amendment request for 6103 Sheridan Avenue. The property is located within the boundaries of the Windsor Park Neighborhood Planning Area.

The WPNPCT voted unanimously to support the filing of an out-of-cycle neighborhood plan amendment for this property. After the application is submitted and the required community meeting is held, the contact team will make a recommendation on the applicant's official request.

If you have any questions, please do not hesitate to contact me.

Thank you,

Rodney E. Ahart, Chair
Windsor Park Neighborhood Plan Contact Team

**Letter of Recommendation from the Neighborhood
Plan Contact Team (NPCT)**

To: Planning Commission and Austin City Council
From: Windsor Park Neighborhood Plan Contact Team
Date: October 2, 2023
Re: 6103 Sheridan Avenue (NPA-2023-0023.02 and C14-2023-0107)

Dear Members of the Planning Commission and Austin City Council:

On October 2, 2023, the Windsor Park Neighborhood Plan Contact Team (WPNPCT) convened to review and discuss its recommendation on the neighborhood plan amendment and rezoning requests submitted by the applicant for 6103 Sheridan Avenue. The proposed project is located entirely within the boundaries of the Windsor Park Neighborhood Planning Area.

The WPNPCT strongly opposes the applicant's neighborhood plan amendment and rezoning requests.

The proposed zoning changes for 6103 Sheridan Avenue are inconsistent with the Land Use and Development objectives and recommendations set forth in the adopted Windsor Park Neighborhood Plan:

Objective: Preserve the single-family residential homes on Rosemont Street, Sheridan Avenue, and Broadview Street (page 42).

Recommendation: Maintain the existing residential zoning on these properties.

These single-family structures along Sheridan Avenue serve a pivotal role in ensuring the availability of diverse housing options within Windsor Park. Their strategic proximity to a variety of essential neighborhood services further enhances their value. We firmly believe it is imperative that these homes continue to be accessible to families in our community.

Furthermore, since 2021, the applicant has operated Poolie, a pool construction and repair business, on a property zoned SF-3-NP. This type of business requires a commercial land use classification of 'Construction Sales and Services,' which is only permissible within the zoning category of CS or higher. Unfortunately, neighbors have expressed huge concerns over the applicant's apparent disregard for public health and safety. Unsightly trash, the presence of non-permitted storage facilities, and the mishandling of hazardous chemicals have become alarmingly prevalent at the site.

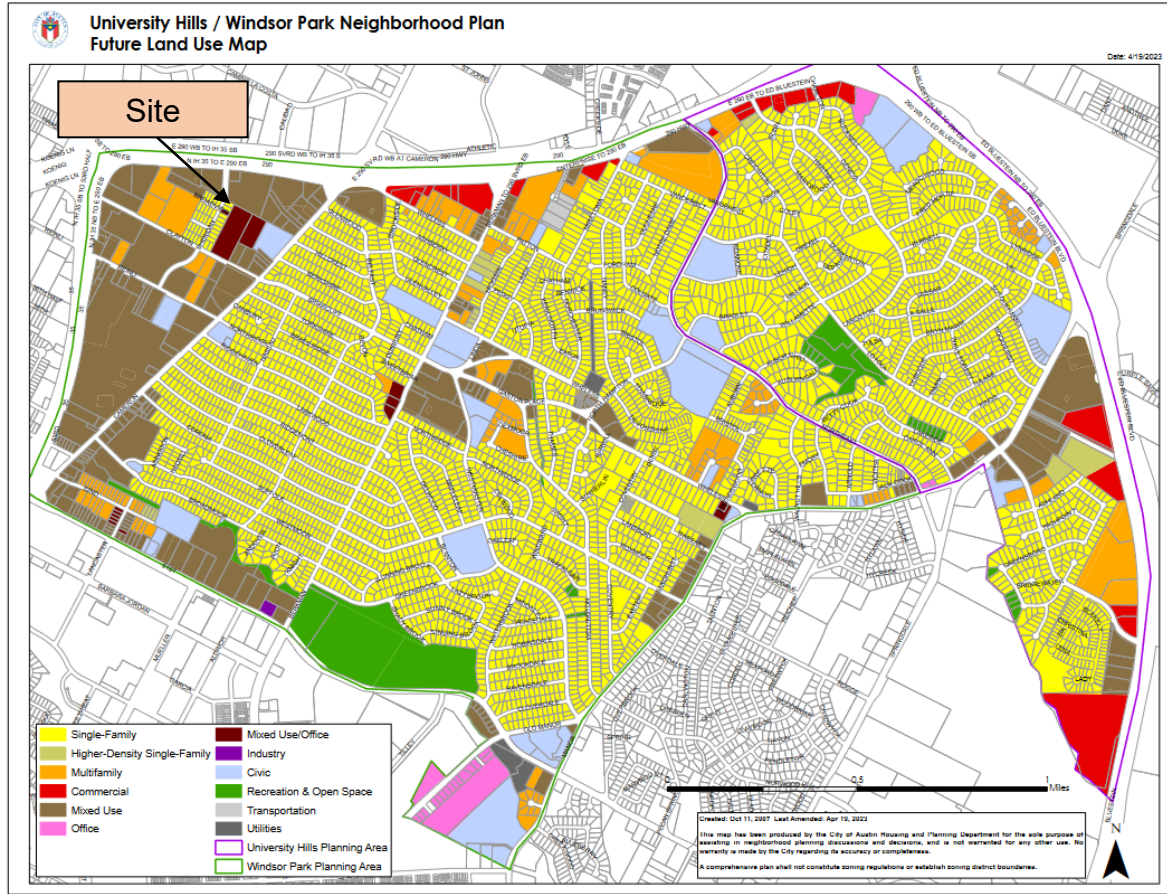

For these reasons, we strongly urge you to deny the applicant's request for 6103 Sheridan Avenue, maintain the current zoning, and preserve these single-family homes.

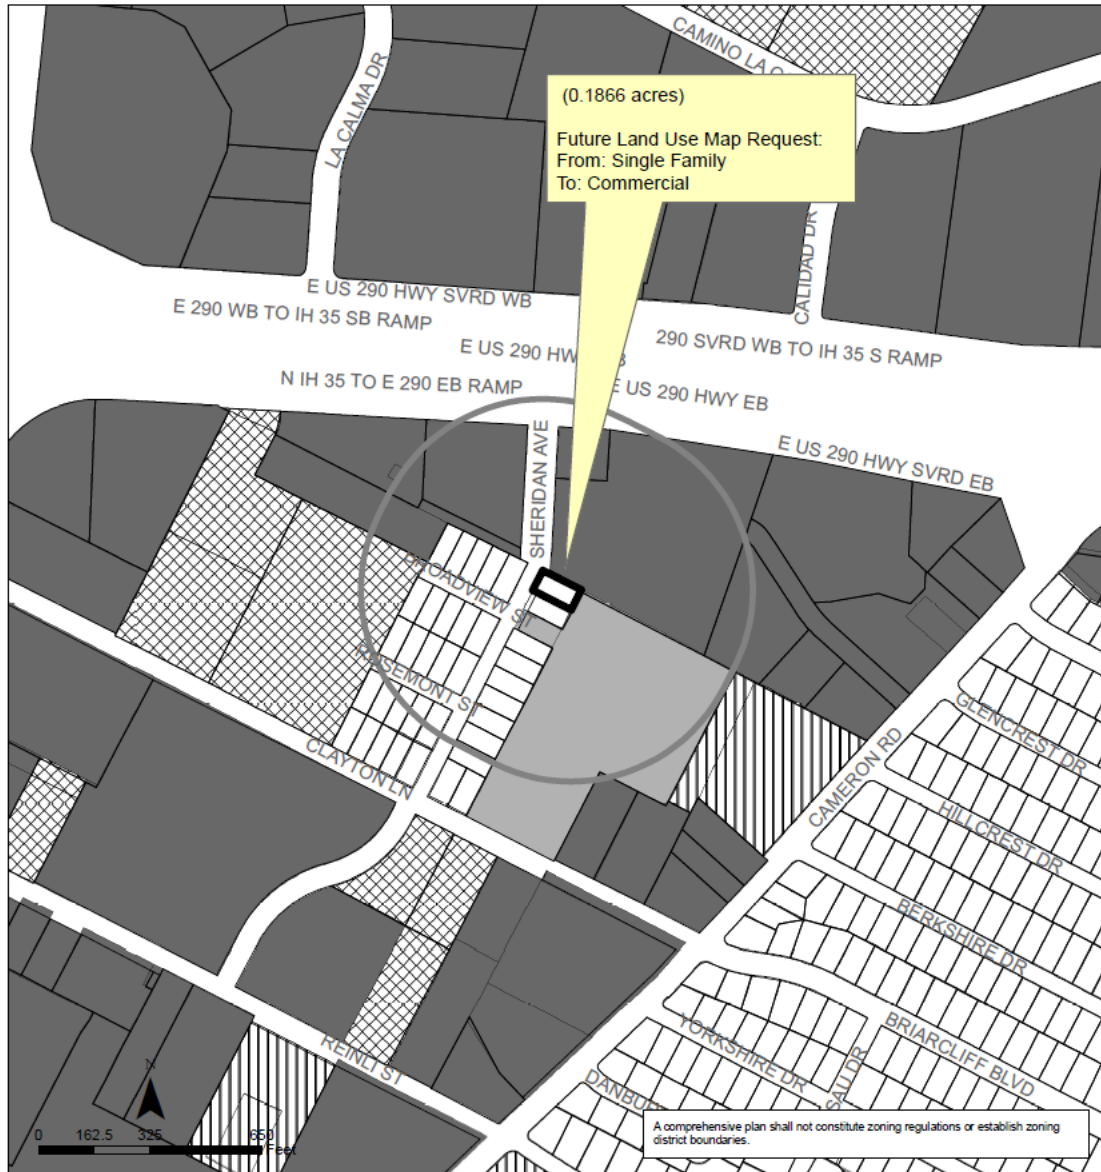

If you have any questions regarding our opposition to the 6103 Sheridan Avenue case, please contact me.

Thank you,

Rodney Ahart, Chair
Windsor Park Neighborhood Plan Contact Team

Applicant's Presentation at the Community Meeting

Rezone Request

- Subject property 6103 Sheridan. The owner runs a small pool staffing company, the owner purchased the property with the intent to rezone and use the home as their office space.
- We previously understood from City Staff that LR would give us the office use needed to be in compliance.
- Another requirement that was surprising to us. In order to have an accessory shed we have to obtain CS zoning with conditions. In the next slides we have listed the conditions.
- We want to know which uses the neighborhood does not want.
