## Canvus' Professional Artist

Hector was born in Guatemala City, his early influences included his father, a well-known commercial painter, especially in political murals from the 1950s through the 1970s. Castellanos Lara's mother, who drew inspiration from the folk art of Guatemala as a dressmaker, also had a major impact on him.

As a community leader, artist, and organizer Héctor works with diverse populations to cross borders – both real and imagined, he is also the co-founder of ALU (Artistas Latinos Unidos) and the Artistic Director of Día de Muertos Ohio (Day of the Dead). Castellanos Lara is an active member of the Hildebrandt Artist Collective.
