

ZONING CHANGE REVIEW SHEET

CASE: C14-2023-0046 – 600 Industrial Blvd.

DISTRICT: 3

ADDRESS: 506 and 600 Industrial Boulevard; 4138 ½ Terry O Lane

ZONING FROM/TO: LI-PDA-NP, to change conditions of zoning, including the maximum height and maximum number of dwelling units

SITE AREA: 4.262 acres

PROPERTY OWNER:

LEIDEV600 TIC, LLC; 728 Post Road, LLC; BMARS Holdings, LLC (Maxwell Leifer)

AGENT: Drenner Group, PC (Leah M. Bojo)

CASE MANAGER: Nancy Estrada (512-974-7617, nancy.estrada@austintexas.gov)

STAFF RECOMMENDATION:

The Staff recommendation is to grant an amendment to limited industrial services – planned development area – neighborhood plan (LI-PDA-NP) combining district zoning. The amendment would allow a maximum height increase from 85 feet to 125 feet and an increase to the maximum number of dwelling units from 400 units to 600 units, as shown in *Attachment B*, the proposed revised ordinance.

The Restrictive Covenant includes all recommendations listed in the Zoning Transportation Analysis Memo, dated September 22, 2023, as provided in *Attachment A*.

PLANNING COMMISSION ACTION / RECOMMENDATION:

November 14, 2023:

October 10, 2023: *Approved a POSTPONEMENT REQUEST by staff to November 14, 2023 [A. AZHAR; F. MAXWELL – 2ND] (11-0), G. COX, A. PHILLIPS – ABSENT*

CITY COUNCIL ACTION:

ORDINANCE NUMBER:

ISSUES: None at this time.

CASE MANAGER COMMENTS:

The subject rezoning area is approximately 4.26 acres and is developed with a large industrial warehouse as well as 4 smaller industrial structures. The rezoning area is situated at the northwest corner of Industrial Boulevard and Terry O Lane. There is a non-operational railroad spur and right-of-way that forms the north property line. The Bergstrom Spur, a planned urban trail and park facility for South Austin, will be developed along the northern property boundary. Development on Industrial Boulevard and Terry O Lane is generally characterized by warehouses containing distribution and supply companies, fabrication companies, construction sales and service businesses, and outside storage uses (LI-NP; LI-CO-NP; LI-PDA-NP). ***Please refer to Exhibits A (Zoning Map), A-1 (Aerial View).***

As set forth in Land Development Code Section 25-2-441, the regulations of a planned development area (PDA) may modify: 1) permitted or conditional uses authorized by the base zoning district, 2) site development regulations except for compatibility standards, and 3) off-street parking or loading regulations, sign regulations or screening regulations applicable in the base district.

LI-PDA-NP zoning applies to properties all along East Ben White Boulevard north of the proposed rezoning area between East Ben White Boulevard and Industrial Boulevard. LI-PDA-NP zoning is also along the IH 35 frontage road east of the property between IH 35 and Terry O Lane. The PDA allows for mixed use development including certain residential uses, and establishes conditional uses, prohibited uses, and site development regulations.

The Applicant proposes a mixed use redevelopment that will include a multifamily residential building with first floor pedestrian-oriented commercial. The project will include 600 mid-rise multifamily residences, 12,850 square feet of first floor retail, and a 5,356 square foot brewery.

The Applicant's request is to amend the PDA to allow a maximum height increase from 85 feet to 125 feet and an increase to the maximum number of dwelling units from 400 units to 600 units. No other changes to the PDA are proposed.

BASIS OF RECOMMENDATION:

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

The limited industrial services (LI) district designation is for a commercial service use or limited manufacturing use generally located on a medium or large sized site. The planned development area (PDA) combining district designation provides for industrial and commercial uses in certain commercial and industrial base districts. The neighborhood plan (NP) district denotes a tract located within the boundaries of an adopted Neighborhood Plan.

2. *The proposed zoning should allow for a reasonable use of the property.*

Based on the LI-PDA-NP zoning north of the property and south of East Ben White Boulevard as well as other surrounding LI-PDA-NP zoning, Staff recommends the Applicant's request to allow a maximum height increase from 85 feet to 125 feet and an increase to the maximum number of dwelling units from 400 units to 600 units. It will be consistent with the existing zoning patterns in this area.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	LI-PDA-NP	Industrial warehouses and structures
<i>North</i>	LI-PDA-NP; CS-1-CO-NP	Railroad tracks; Cocktail lounge; General retail sales (general); Adult lounge
<i>South</i>	LI-NP	Construction sales and services businesses; Auto repair; Auto salvage
<i>East</i>	LI-PDA-NP	Recycling center
<i>West</i>	LI-NP	Industrial warehouses; Suppliers; Construction sales and service businesses

	Industrial Land: Preserves or enhances industrial land.
5	Total Number of "Yes's"

Drainage

The developer is required to submit a pre- and post-development drainage analysis at the subdivision and site plan stage of the development process. The City's Land Development Code and Drainage Criteria Manual require that the Applicant demonstrate through engineering analysis that the proposed development will have no identifiable adverse impact on surrounding properties.

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Blunn Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

PARD – Planning & Design Review

Parkland dedication will be required at the time of subdivision or site plan application for new residential units proposed by this rezoning, multifamily-mixed use with LI-PDA-NP, per City Code § 25-1-601, as amended. The intensity of the proposed development creates a need for over six acres of additional parkland, per requirements described in § 25-1-602; when over six acres, parkland must be dedicated – see § 25-1-605 (A)(2)(a). As such, land dedication shall be required, unless the land available for dedication does not comply with the standards for dedication. Any remaining fees in-lieu after dedication shall also be required.

If the land available for dedication complies with the parks standards, the Parks and Recreation Department (PARD) would consider a new park space along the Bergstrom Spur toward satisfying the requirement at time of permitting (whether subdivision or site plan). The surrounding neighborhood areas are currently park deficient, defined as being outside walking distance to existing parks. The dedication would satisfy the need for additional

parks in park deficient areas along the Bergstrom Spur, a planned urban trail and park facility for South Austin.

Should there be any remaining fees in-lieu, those fees shall be used toward park investments in the form of land acquisition and/or park amenities within the surrounding area, per the Parkland Dedication Operating Procedures § 14.3.11 and City Code § 25-1-607 (B)(1) & (2).

If the applicant wishes to discuss parkland dedication requirements in advance of site plan or subdivision applications, please contact this reviewer: thomas.rowlinson@austintexas.gov. At the applicant's request, PARD can provide an early determination letter of the requirements.

Site Plan

Site plans will be required for any new development other than single-family or duplex residential.

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

Austin Fire Department

AFD will not require a setback.

Austin Transportation Department – Engineering Review

Zoning transportation analysis shall be performed at zoning where anticipated trips are anticipated to exceed 2,000 unadjusted trips to satisfy the LDC requirement for a TIA but does not diminish the authority to require a traffic impact analysis at site plan. LDC 25-6, TCM 10.5.0. ATD approval will be based on the final ZTA once complete; additional comments may be forthcoming.

The Austin Strategic Mobility Plan (ASMP) calls for 84 feet of right-of-way for Industrial Boulevard. It is recommended that 42 feet of right-of-way from the existing centerline should be dedicated for Industrial Boulevard according to the Transportation Plan with the first subdivision or site plan application. [LDC 25-6-51 and 25-6-55].

The Austin Strategic Mobility Plan (ASMP) calls for 72 feet of right-of-way for Terry O Lane. It is recommended that 36 feet of right-of-way from the existing centerline should be dedicated for Terry O Lane according to the Transportation Plan with the first subdivision or site plan application. [LDC 25-6-51 and 25-6-55].

There is a proposed Urban Trail adjacent to this site, along the northern boundary, the Bergstrom Spur. The easement required is a minimum of 20 ft as this allows for a 12 ft trail (minimum trail width per the urban trails plan) and room for maintenance activity.

The adjacent street characteristics table is provided below:

Name	ASMP Classification	ASMP Required ROW	Existing ROW	Existing Pavement	Sidewalks	Bicycle Route	Capital Metro (within ¼ mile)
Terry O Lane	Level 2 – Collector	72'	50'	28'	No	No	Yes
Industrial Boulevard	Level 1 – Local Collector	84'	78'	34'	No	Yes	Yes

A Traffic Impact Analysis (TIA) has been waived at this time since a Zoning Transportation Analysis (ZTA) is required. ***Please refer to Attachment A.***

Austin Water Utility

The landowner intends to serve the site with City of Austin water and wastewater utilities. The landowner, at own expense, will be responsible for providing any water and wastewater utility improvements, offsite main extensions, utility relocations and or abandonments required by the land use. The site shall have separate wastewater taps, separate water meters, and their respective private water and wastewater service lines shall be positioned or located in a manner that will not cross lot lines.

Based on current public infrastructure configurations, service extension requests will be required to provide service to this site. For more information pertaining to the Service Extension Request process and submittal requirements contact the Austin Water SER team at ser@austintexas.gov.

The water and wastewater utility plan must be reviewed and approved by Austin Water for compliance with City criteria. All water and wastewater construction must be inspected by the City of Austin. The landowner must pay the City inspection fee with the utility construction. The landowner must pay the tap and impact fee once the landowner makes an application for a City of Austin water and wastewater utility tap permit.

Dedication of private streets and public utility easements does not obligate the City to approve the placement of City water and wastewater mains within same. Water and wastewater service shall be provided to each lot at their Right of Way frontage.

Re: 600 Industrial Blvd – Rezoning application for the approximately 4.26-acre property located at 506 and 600 Industrial, and 4138 1/2 Terry O Lane, Austin, TX (the "Property")

Dear Ms. Truelove:

As representatives of the owners of the Property, we respectfully submit the enclosed rezoning application package. The project is titled 600 Industrial Blvd and is approximately 4.26 acres of land. The Property is in the Full Purpose Jurisdiction of the City of Austin.

The Property is currently zoned LI-PDA-NP, Limited Industrial Services – Planned Development Aera – Neighborhood Plan. The proposed zoning is an amendment to LI-PDA-NP, Limited Industrial Services – Planned Development Aera – Neighborhood Plan, for an increase to the permitted residential density from 400 units to 600 units and a maximum height increase from 85 feet to 125 feet. A redline copy of the amendments to Ordinance No. 20200206-067 accompanies this letter. No other changes to the PDA are contemplated at this time.

This proposed rezoning aligns with the South Congress Combined Neighborhood Plan's stated goal of focusing mixed-use development and commercial uses along major commercial corridors and in specialized districts.

The Property is located in the East Congress Neighborhood Planning Area (NPA), adopted August 18, 2005, part of the South Congress Combined Neighborhood Plan and has a Future Land Use Map (FLUM) designation of mixed use. Attached is a memo from Maureen Meredith on January 30, 2023, confirming that a plan amendment application is not required.

A Zoning Transportation Analysis (ZTA) is required for this development, per the attached TIA determination form dated December 20, 2022, and executed by Joan Minyard. The ZTA is accompanied with this application package.

Please let me know if you or your team members require additional information or have any questions. Thank you for your time and attention to this project.

Sincerely,

Leah M. Bojo

Nancy Estrada, Housing and Planning Department (*via electronic delivery*)

MEMORANDUM

Date: September 22, 2023
To: Ravali Kosaraju, PE., PTOE., WGI
CC: Danielle Morin AICP., Eduardo Mariño PhD.
Austin Transportation Department
Reference: **600 Industrial Boulevard, Austin – St. Elmo Mixed Use Rezoning**
Zoning Transportation Analysis (ZTA) Final Memo (C14-2023-0046)

The Transportation & Public Works Department (TPW) has reviewed the “*St. Elmo Mixed Use Rezoning*” ZTA, prepared by WGI. The current site is comprised of three separate parcels located at 300-400 Industrial Boulevard, 436-440 Industrial Boulevard, and 506-600 Industrial Boulevard (shown in Figure 1 below). The 300-400 Industrial Boulevard and 436-440 Industrial Boulevard parcels will be tied together via a unified development agreement, hereby called the 300-440 Industrial Boulevard tract. The parcel at 504 Industrial Boulevard is not included in this rezoning.

The proposed redevelopment for these tracts is mixed-use including multifamily residential buildings, first floor retail, and a brewery. Specifically, the 300-440 Industrial Boulevard tract will contain 686 mid-rise multifamily dwelling units and 10,095 square feet of first floor retail. The 506-600 Industrial Boulevard tract will contain 600 mid-rise multifamily dwelling units, 12,850 square feet of first floor retail, and a 5,356 square-foot brewery/beer garden. The current site is comprised of five warehouses sized 66,000 square feet, 9,802 square feet, 91,320 square feet, 8,320 square feet, and 6,900 square feet, respectively.

A total of five driveways will be provided to service the site, including four on Industrial Boulevard and one on Terry-O Lane. There will be two additional curb cuts for pedestrian connectivity and emergency/fire access on Industrial Boulevard, but these access points will not provide full access to resident and patron traffic. It is anticipated that the development will be built out by 2025.

Figure 1: Site Location

Adjacent Roadway Characteristics:

The site proposes five driveways to service the site, including four on Industrial Boulevard and one on Terry-O Lane.

Industrial Boulevard: Industrial Boulevard is a two-lane, undivided road. It is a Level 2 road in the Austin Strategic Mobility Plan (ASMP) and 84' of right-of-way (ROW) is required. The speed limit is unposted but is assumed to be 30 mph. There are no sidewalks, street parking, or bicycle facilities along Industrial Boulevard, and much of the site frontage is lined has lay-down curb with direct access into existing parking areas. In the existing condition, the average daily traffic on Industrial Boulevard is estimated to be 3,780 trips per day.

Terry O' Lane: Terry O' Lane is a two-lane undivided road. The speed limit is unposted but is assumed to be 30 mph. It is a Level 2 road in the ASMP and 72' of right-of-way (ROW) is required. There are no sidewalks, street parking, or bicycle facilities along Terry O' Lane, and only partial curb and gutter. In the existing condition, the average daily traffic on Terry O' Lane is estimated to be 4,448 trips per day.

Notably, the western boundary of the 506-600 Industrial Boulevard parcel fronts Willow Springs Road, which is an existing Level 1 public street. This public ROW will be converted to a public greenway connection that provides pedestrian and bicycle connectivity to the Bergstrom Spur Trail north of the site.

Trip Generation and Traffic Analysis:

Based on the Institute of Transportation Engineers (ITE) Trip Generation Manual (11th Edition), the development will generate approximately 7,474 net new daily trips (unadjusted), 545 AM peak hour trips, and 524 PM peak hour trips, details are shown in Table 1.

Table 1: Trip Generation

Annual Average Daily Traffic (AADT) was estimated for the 2025 future condition based on the traffic count data obtained from TxDOT's Traffic Count Database System (TCDS) on Industrial Boulevard and Terry-O Lane in the vicinity of the Project site. Since the most recent recorded AADTs were in 2020 (which experienced interruptions to normal growth patterns due to the COVID-19 pandemic), the 2015 AADTs were referenced and grown to 2023 and 2025 equivalents using a 2% annual growth rate. This rate was derived in the 4208 Terry-O Site Zoning Transportation Analysis. Table 2 shows both the existing traffic volumes as well as projected volumes on the road segments in the vicinity of the site.

Table 2 Projected Volume Analysis

Roadway	2015 AADT (vpd) ¹	2023 AADT (vpd)	2025 AADT (vpd)	2025 AADT with Project (vpd)
Industrial Boulevard	3,225	3,780	3,931	10,359
Terry-O Lane	3,795	4,448	4,626	5,672

Per the Austin Street Design Guide, Level 2 streets in an urban setting are expected to have up to 10,000 vehicles per day. Projected volume analysis showed that unadjusted site traffic plus forecasted volume at the anticipated build out year will exceed the typical ADT range by 359 vehicles per day for Industrial Boulevard and will be under the ADT range for Terry-O Lane.

Moreover, the site is located within the Urban Transition ("Outer Loop") context area and is expected to generate more than 5,000 unadjusted, daily trips. As such, a minimum trip reduction of 15% will be achieved or exceeded utilizing several Transportation Demand Management (TDM) measures. These will also minimize the impact on the transportation network. Additionally, assessments of the Right of Way (ROW) for adjacent road segments, analyses of turn lanes for all driveways, and evaluations of sight distance for the proposed new driveways were also undertaken.

Recommendations/conclusions:

As a condition for approval for the above referenced zoning review case, the applicant shall adhere to the following:

- This site is required to achieve a 15% minimum trip reduction utilizing various TDM measures per the Transportation Criteria Manual (TCM). The details of the measures which could be applied to achieve TDM-related trip reductions will be determined at the site plan stage.
- The planned development falls under the purview of the City of Austin Street Impact Fee, governed by Ordinance # 20201220-061 & 20201210-062. The calculation of the Street Impact Fee (SIF) will be conducted during the submission of the Site Plan, and the fee itself will be collected upon obtaining the building permit. It's important to note that any reductions in the proposed development's SIF will only be granted after the completion of specified items unless these items have been incorporated into the Site Plan application.
- The assessment of ASMP ROW requirements have been completed, and it's possible that this site will necessitate dedications of Right of Way to fulfill the ASMP criteria. This determination will be verified during the Site Plan phase.

- The site proposes the conversion public ROW of the western boundary of the 506-600 Industrial Boulevard parcel, which fronts Willow Springs Road, to a public greenway connection. It is an existing Level 1 public street that will provide pedestrian and bicycle connectivity to the Bergstrom Spur Trail north of the site.
- The site proposes utilizing five new driveways for general traffic circulation; four are located along Industrial Boulevard, and one is located along Terry-O Lane. Approval of this ZTA does not grant nor guarantee approval of proposed driveway locations. Driveways will be further reviewed during the site plan process by the appropriate City departments.
- This ZTA does not relieve a development being required to conduct a Transportation Assessment or Full TIA at the time of site plan.

ORDINANCE NO. 20200206-067

AN ORDINANCE REZONING AND CHANGING THE ZONING MAP FOR THE PROPERTY LOCATED AT 600 INDUSTRIAL BOULEVARD IN THE SOUTH CONGRESS COMBINED NEIGHBORHOOD PLAN FROM LIMITED INDUSTRIAL SERVICES-CONDITIONAL OVERLAY-NEIGHBORHOOD PLAN (LI-CO-NP) COMBINING DISTRICT TO LIMITED INDUSTRIAL SERVICES-PLANNED DEVELOPMENT AREA-NEIGHBORHOOD PLAN (LI-PDA-NP) COMBINING DISTRICT.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF AUSTIN:

PART 1. The zoning map established by Section 25-2-191 of the City Code is amended to change the base district from limited industrial services-conditional overlay-neighborhood plan (LI-CO-NP) combining district to limited industrial services-planned development area-neighborhood plan (LI-PDA-NP) combining district on the property described in Zoning Case No. C14-2019-0082, on file at the Planning and Zoning Department, as follows:

4.262 acres (approximately 185,649 sq. ft.), being all of Lots 10, 11, 12, 13, 14, and a portion of Lot 15, St. Elmo Heights Section 1, according to the map or plat thereof, recorded in Volume 5, Page 158, Plat records of Travis County, Texas, said 4.262 acres more particularly described by metes and bounds in **Exhibit "A"** incorporated into this ordinance (the "Property"),

locally known as 600 Industrial Boulevard, in the City of Austin, Travis County, Texas, and generally identified in the map attached as **Exhibit "B"**.

PART 2. Except as specifically provided in Part 3 and Part 4 of this ordinance, the Property may be developed and used in accordance with the regulations established for the limited industrial services (LI) base district and other applicable requirements of the City Code.

PART 3. Development of the Property shall comply with Section 25-2-648 (*Planned Development Area Performance Standards*) of the City Code.

PART 4. Development of the Property within the boundaries of the planned development area (PDA) combining district established by this ordinance is subject to the use and site development regulations set forth in this part:

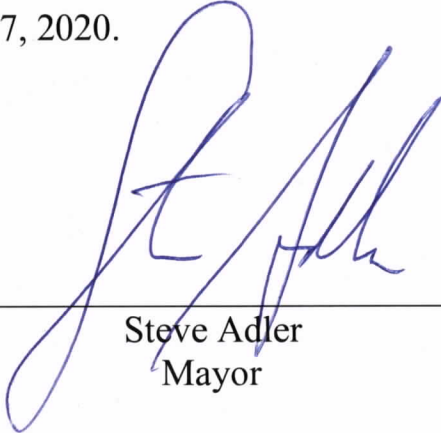

- A. Development of the Property is limited to ~~400~~⁶⁰⁰ dwelling units.
- B. The following uses are additional permitted uses of the Property:
- | | |
|--|--|
| Bed and breakfast (group 1) | Bed and breakfast (group 2) |
| Condominium residential | Family home |
| Group residential | Guidance services |
| Hospital services (limited) | Multifamily residential |
| Private primary educational facilities | Private secondary educational facilities |
| Public primary educational facilities | Public secondary educational facilities |
| Townhouse residential | |
- C. The following uses are conditional uses of the Property:
- | | |
|-----------------|-----------------------------|
| Cocktail lounge | Hospital services (general) |
|-----------------|-----------------------------|
- D. The following uses are prohibited uses of the Property:
- | | |
|-----------------------|-------------------|
| Bail bond services | Basic industry |
| Monument retail sales | Recycling center |
| Resource extraction | Scrap and salvage |
- E. The following site development standards apply to the Property:
1. The maximum height of a building or structure shall not exceed ~~85~~¹²⁵ feet.
 2. The minimum front yard setback is 10 feet.
 3. The minimum street side yard setback is 10 feet.
 4. The minimum interior side yard setback is 0 feet.
 5. The minimum rear yard setback is 5 feet.
 6. The maximum impervious cover is 95%.
 7. The maximum building coverage is 95%.
 8. A maximum floor-area-ratio (FAR) limitation does not apply.

PART 5. This ordinance takes effect on February 17, 2020.
