CITY COUNCIL ACTION:

ORDINANCE NUMBER:

ISSUES: N/A

CASE MANAGER COMMENTS:

The property under consideration is a 1.56 acre lot that is developed with a single family residence, with two axillary structures. There are single family residences to the north and east zoned LA and DR and to the south and west that are zoned SF-2. The applicant is requesting a rezoning from the LA district to the SF-2 district to bring the property into compliance with regards to impervious cover (*please see Applicant's Request Letter- Exhibit C*).

The staff recommends SF-2, Single Family Residence-Standard Lot District, zoning. The property meets the intent of the base district as it is within an existing residential neighborhood with moderate sized lots. The proposed zoning compatible with the exiting single-family residences surrounding the property and the existing SF-2 zoning to the south and west. The property in question fronts onto and takes access to Mount Bonnell Road, a Level 2/local collector roadway.

The applicant agrees with the staff's recommendation.

BASIS OF RECOMMENDATION:

1. The proposed zoning should be consistent with the purpose statement of the district sought.

Single-Family Residence (Standard Lot) district is intended as an area for moderate density single-family residential use, with a minimum lot size of 5,750 square feet. This district is appropriate for existing single-family neighborhoods having moderate sized lot patterns, as well as for development of additional single-family housing areas with minimum land requirements.

2. Zoning changes should promote compatibility with adjacent and nearby uses and should not result in detrimental impacts to the neighborhood character.

SF-2 zoning is compatible with the single family residences surrounding the property and the existing SF-2 zoning to the south and west. The property in question fronts onto and takes access to Mount Bonnell Road, a Level 2/local collector roadway.

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Dry Creek North Watershed of the Colorado River Basin, which is classified as a Water Supply Suburban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Drinking Water Protection Zone.

Under the current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Net Site Area</i>	<i>% NSA with Transfers</i>
One or Two Family Residential	30%	40%
Multifamily Residential	40%	55%
Commercial	40%	55%

Development within a Water Quality Transition Zone is limited to 18%.

According to floodplain maps there is a floodplain within or adjacent to the project location. Based upon the location of the floodplain, offsite drainage should be calculated to determine whether a Water Quality Transition Zone / Critical Water Quality Zone exist within the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2-year storm on site.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

No comments.

Parks and Recreation

Parkland dedication will be required for the new applicable uses proposed by this development, single family with SF-2 zoning, at the time of subdivision or site plan, per City Code § 25-1-601. Whether the requirement shall be met with fees in-lieu or dedicated land will be determined using the criteria in City Code Title 25, Article 14, as amended. Should fees in-lieu be required, those fees shall be used toward park investments in the form of land

acquisition and/or park amenities within the surrounding area, per the Parkland Dedication Operating Procedures § 14.3.11 and City Code § 25-1-607 (B)(1) & (2).

If the applicant wishes to discuss parkland dedication requirements in advance of site plan or subdivision applications, please contact this reviewer: thomas.rowlinson@austintexas.gov. At the applicant's request, PARD can provide an early determination of whether fees in-lieu of land will be allowed.

Site Plan

Transportation

The Austin Strategic Mobility Plan (ASMP) calls for 72 feet of right-of-way for Mount Bonnell Road. It is recommended that 36 feet of right-of-way from the centerline should be dedicated according to the Transportation Plan with the first subdivision or site plan application. [LDC 25-6-51 and 25-6-55].

Assessment of required transportation mitigation, including the potential dedication of right of way and easements and participation in roadway and other multi-modal improvements, will occur at the time of site plan application. **Transportation assessment/traffic impact analysis and transportation demand management plan shall** be required at the time of site plan if triggered per **LDC 25-6 and TCM 10.2.1**.

The adjacent street characteristics table is provided below:

Name	ASMP Classification	ASMP Required ROW	ASMP Existing ROW	Sidewalks	Existing Pavement	Bicycle Route	Cap Metro (within ¼)
Mt. Bonnell Road	Level 2	72 feet	~68 feet	None	~27 feet	None	None

Water Utility

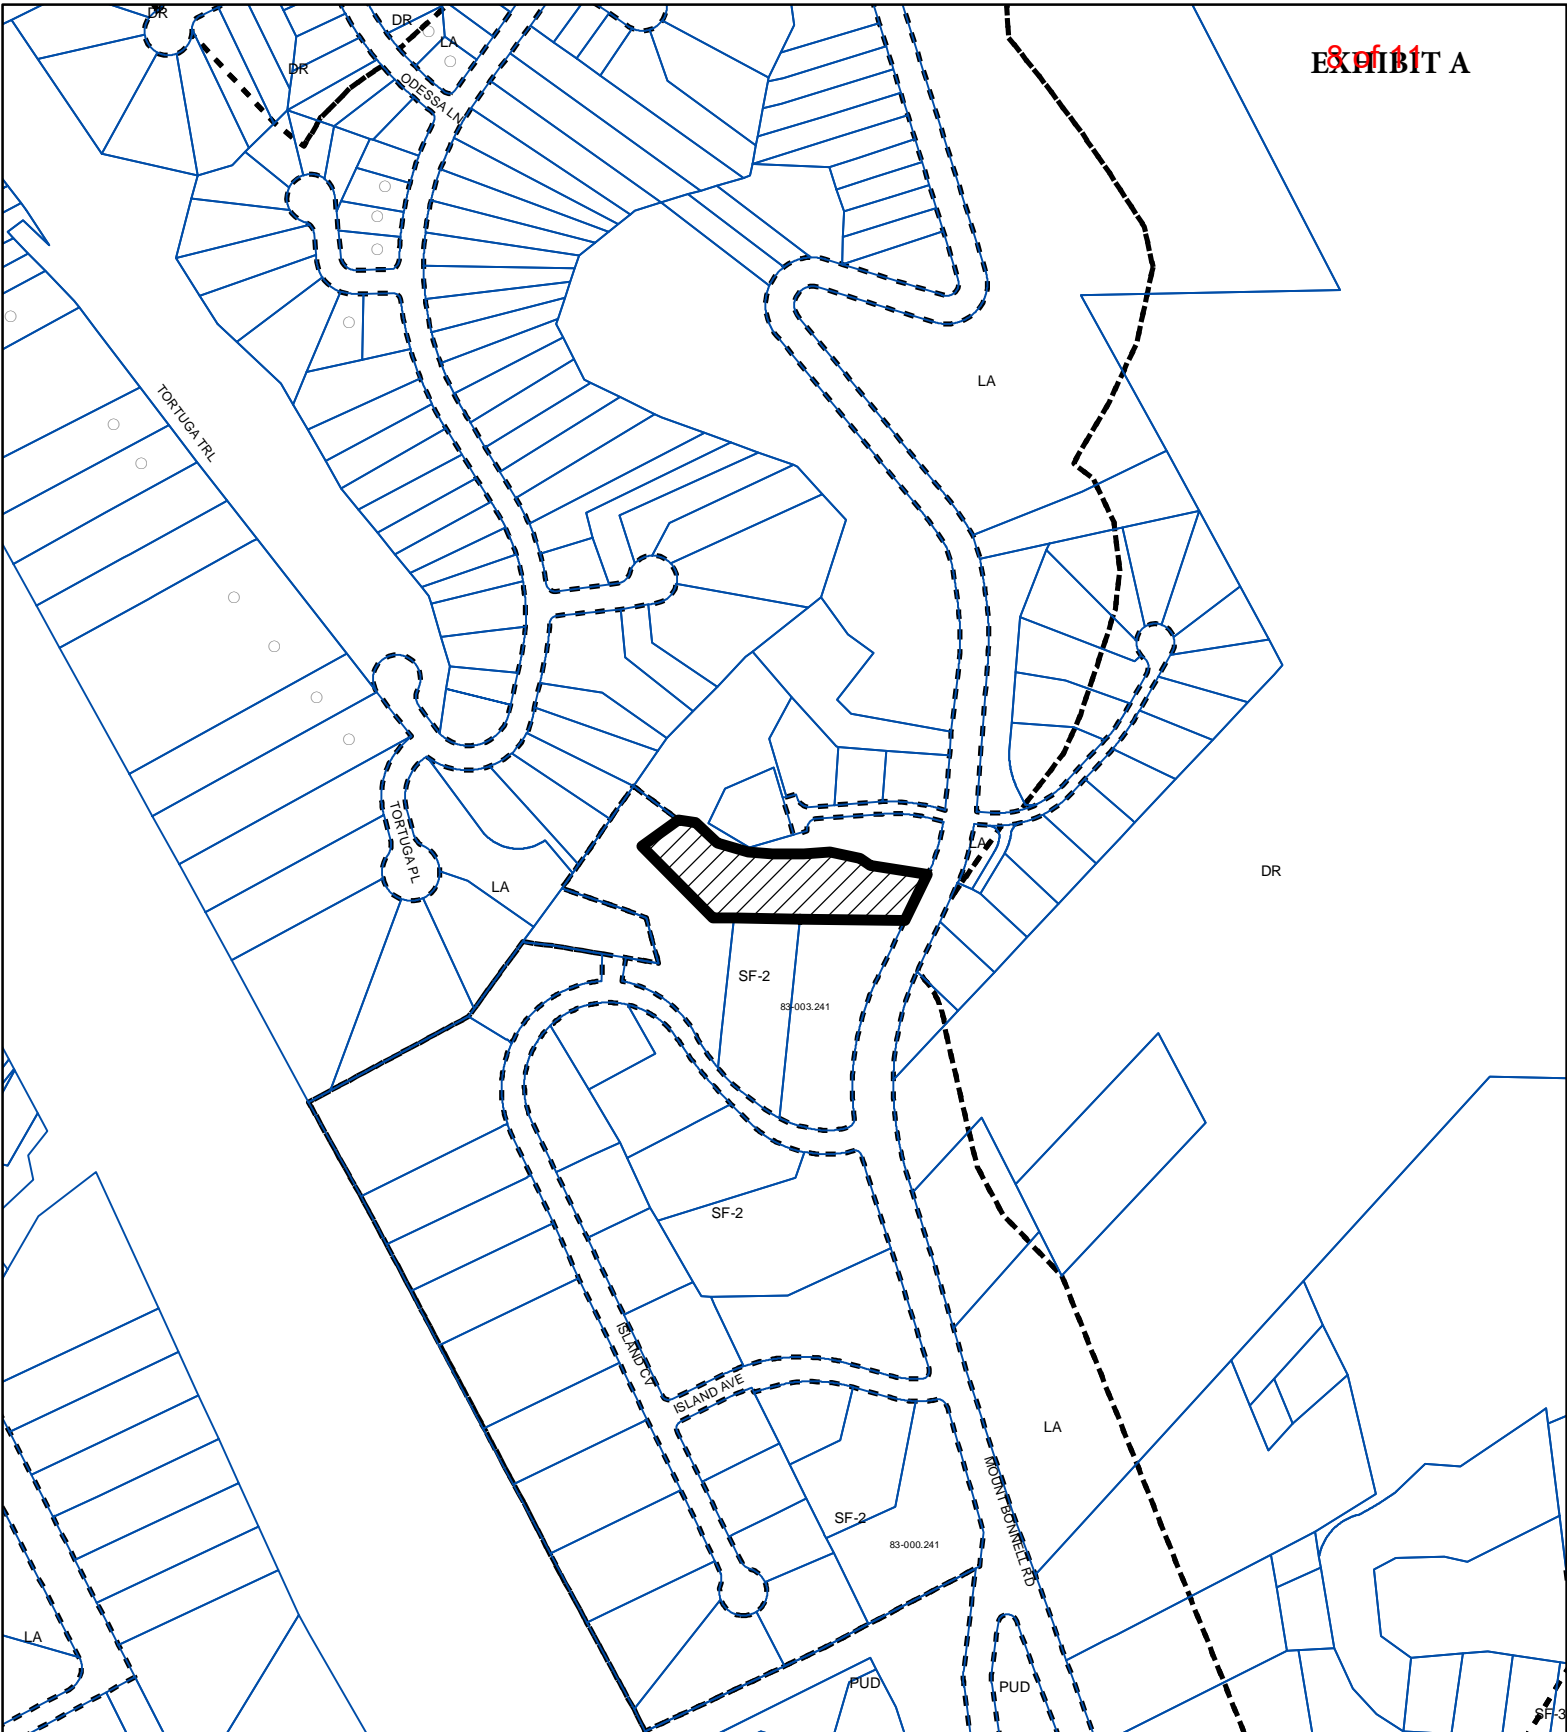

No comments on zoning change.

FYI: The landowner intends to serve the site with existing City of Austin water utilities.

Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin. For more information pertaining to the Service Extension Request process and submittal requirements contact the Austin Water SER team at ser@austintexas.gov.

Re: Rezoning of 4812 Mount Bonnell Road, Austin – Bonnell Residential Rezoning

Dear Mr. Gray:

On behalf of the Owner(s) of the property referenced above, we respectfully submit the enclosed rezoning application package. The property is 1.56 acres of unplatted land with frontage on Mount Bonnell Road and is within Council District 10, represented by Alison Alter. There property is not in an adopted neighborhood planning area, and therefore does not have a Future Land Use Map.

The property is zoned LA (Lake Austin Residence) and is developed with a single-family home and two accessory structures. The impervious cover on the property exceeds the LA zoning district regulations. The request is to rezone the property to SF-2 (Single Family – Standard Lot), consistent with the adjacent properties to the south, of the Island of Mt. Bonnell Shores Subdivision.

Please contact our office or me directly should you have need for additional information. Thank you for your time and attention to this application.

Kind regards,
