### **Additional Backup Information:**

This contract will provide unlimited licenses for the cloud-based street design software, Remix Street. Remix Street is a planning platform for public transit that allows for collaboration between teams, provides tools to develop new street design concepts, make data-driven decisions, and move early-stage infrastructure projects forward. Some of Remix Street Technology's unique specifications include initial concepts pulling in OpenStreetMap data to auto-populate existing road conditions, opacity controls to clearly see satellite imagery while designing, and advanced editing tools to create curves, tapers, and complicated intersections with precision.

Via Transportation Inc./Remix Technologies LLC d/b/a Remix Technologies is the manufacturer and sole distributor of Remix Street Technology.
