ISSUES:

This case has a valid petition with 33.45%. This is comprised of one signature from a very large property to the north, please see *exhibit E*.

CASE MANAGER COMMENTS:

The property in question is currently being utilized as a pool contractor business, this is a construction sales and services use, which requires CS zoning to be in compliance for that use. The applicant originally requested GR-NP, amended that request to CS on June 14, 2023, and amended it again to LR-MU-CO-NP which matches staff's recommendation for this case. The applicant has requested this zoning classification with the intent to use it as an office, and not as a pool contractor business.

The property is less than 500 feet from U.S. Highway 290 East (an ASMP level 5 street) with a service road that is an ASMP level 4 street). The property is within the Highland Mall Station Imagine Austin Center and Cameron Road (approximately 1,000 feet to the east) is an Imagine Austin Corridor.

The parcel is located in a “pocket neighborhood” of approximately 35 single family homes along Sheridan Ave. between U.S. Highway 290 East and Clayton Lane.

BASIS OF RECOMMENDATION:

The proposed zoning should be consistent with the purpose statement for the district sought.

Neighborhood commercial (LR) is a district designation for a commercial use that provides business service and office facilities for the residents of a neighborhood and that is located in or adjacent to residential neighborhoods. This zoning category will ensure that the use is compatible and complementary in scale and appearance with the adjacent residential neighborhood, while also offering a transition between more intensive adjacent uses.

The proposed zoning should promote consistency and orderly planning.

The proposed zoning will promote consistency and orderly planning because this site is located adjacent to more intensive uses, CS (to the north) and GO (to the east). LR is also an appropriate transitional zoning category between the CS to the north and the LO to the south.

The proposed zoning should allow for a reasonable use of the property.

The LR will allow for a reasonable use of the property in question. Neighborhood commercial zoning is suitable for this site because it will allow for a transition in the intensity of commercial uses to the north and east.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	SF-3-NP	Pool Contractor (Poolie) within an approximately 840 square foot single family home built in 1951. This use is not currently in compliance with City Code for a zoning category of SF-3-NP.
<i>North</i>	CS-MU-NP	Approximately 61,408 square foot 2 story large office/former shopping center built in 1972, with approximately 187,800 sq ft of paved area. Appears potentially vacant but maintained.
<i>South</i>	LO-NP	Approximately 848 sq ft single family home built in 1951 with a paved area of 3,420 sq ft.
<i>East</i>	GO-MU-NP	5 story large office approximately 215,000 sq ft built in 1973, paved area of approximately 214,000 sq ft
<i>West</i>	SF-3-NP	Approximately 1,194 sq ft single family home built in 1950.

PARD – Planning & Design Review

Parkland dedication fees may apply to any future site or subdivision applications resulting from this rezoning. As of January 1, 2023, new commercial uses are subject to parkland dedication requirements at the time of site plan and subdivision.

Site Plan

- SP 1. Site plans will be required for any new development other than single-family, two-family or duplex residential.
- SP 2. Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations. The site is subject to compatibility standards due to the adjacent SF-3 district to the West.
- SP 3. Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.
- SP 4. This site is located in the Windsor Park neighborhood planning area, residential design standards .
- SP 5. This tract is already developed and the proposed zoning change is a footprint within the existing development. The applicant is responsible for requesting relocation and demolition permits once the site plan is approved. The City Historic Preservation Officer will review all proposed building demolitions and relocations prior to site plan approval. If a building meets city historic criteria, the Historic Landmark Commission may initiate a historic zoning case on the property.

Transportation and Public Works (TPW)– Engineering Review

- ATD 1. The Austin Strategic Mobility Plan (ASMP) calls for 58 feet of right-of-way for Sheridan Avenue. It is recommended that 29 feet of right-of-way from the centerline should be dedicated according to the Transportation Plan with the first subdivision or site plan application. [LDC 25-6-51 and 25-6-55].

To: Jonathan Tomko (City of Austin)

Hi Jonathan,

As the owner of 6103 Sheridan Ave, Austin TX 78723 I am formally requesting a revision to our zoning request:

- We would like to request LR-MU-CO-NP for 6103 Sheridan Ave
- Looking at the future land use map, 6101 and 6103 will back up to MU/Office and there is a natural break point to the left of 6101 already in current state and on the future land use map for the neighborhood
- 6101 is also already zoned for LO / residential so this would align with our neighbor, and the residential lot across the street is being torn down and now owned by the church
- Where our property is and based on the surrounding properties, we believe it would ever be used as a SF residential property and would much better align with the surrounding area when rezoned
 - The home has been used an office space for at least 15+ years before us (window tinting business and then a staffing agency)
 - While there is SF zoning close by, most of the area is mapped for MU on the future plan, and 6101 and 6103 are somewhat islanded from the SF already (home across the street is also not vacant, owned by church and likely to be torn down)
 - While we would like to be able to stay as long as we can, if we needed to move at some point, this would allow a future owner to develop more high density / affordable housing at either location (could not happen now as I understand at 6101 now given requirements of being next door to a SF home)

We were asking for CS given the desire to build a "garage / shed" or more permanent storage since the house is so small, but have decided to pursue an offsite storage facility given our need is also becoming imminent as our business grows and will be leasing that space by the end of the year.

The neighborhood has voiced concerns about a few items, parking, storage, and limiting future use cases, which we believe we have solved.

We would like to request placement on the October agenda with this modified request.

Thanks,

Leslie Elliott

PUBLIC HEARING INFORMATION

This zoning/rezoning request will be reviewed and acted upon at two public hearings: before the Land Use Commission and the City Council. Although applicants and/or their agent(s) are expected to attend a public hearing, you are not required to attend. However, if you do attend, you have the opportunity to speak FOR or AGAINST the proposed development or change. You may also contact a neighborhood or environmental organization that has expressed an interest in an application affecting your neighborhood.

During its public hearing, the board or commission may postpone or continue an application's hearing to a later date, or may evaluate the City staff's recommendation and public input forwarding its own recommendation to the City Council. If the board or commission announces a specific date and time for a postponement or continuation that is not later than 60 days from the announcement, no further notice is required.

During its public hearing, the City Council may grant or deny a zoning request, or rezone the land to a less intensive zoning than requested but in no case will it grant a more intensive zoning.

However, in order to allow for mixed use development, the Council may add the MIXED USE (MU) COMBINING DISTRICT to certain commercial districts. The MU Combining District simply allows residential uses in addition to those uses already allowed in the seven commercial zoning districts. As a result, the MU Combining District allows the combination of office, retail, commercial, and residential uses within a single development.

For additional information on the City of Austin's land development process, visit our website:
www.austintexas.gov/planning.

Written comments must be submitted to the board or commission (or the contact person listed on the notice) before or at a public hearing. Your comments should include the board or commission's name, the scheduled date of the public hearing, and the Case Number and the contact person listed on the notice.
