AISD Licensed Mental Health Professionals work collaboratively with families, schools and community partners to promote students' academic success by providing mental health and community resource support.

AISD Licensed Mental Health Professionals provide Tier 3 services, including social work services and direct counseling support. They are an extension of school counselors and work closely with campus admin teams to provide support to students and families needing more individualized support. Services may include short-term counseling to students through AISD School Mental Health Centers. *[As of 12-4-2023, 28 LMHPs]*

The goal of the Licensed Mental Health Professionals (LMHPs) is to foster positive relations and improve students' wellbeing. LMHPs work to strengthen students' capacity to regulate emotions, promote positive peer relationships, develop alternatives to risk-taking behaviors, and build resilience for managing difficult situations.

School Mental Health Centers - AISD offers school-based short-term therapy to students who are experiencing poor mental health. Referrals are made through the campus admin team or district support team. Parents or guardians must provide consent for services to take place. *[As of 12-4-2023, 71 campuses w/ SMHCs]*

Therapy is provided by AISD Licensed Mental Health Professionals. The Licensed Mental Health Professionals help students manage their mental health and coordinate with the student's mental health providers for safety planning. They do not diagnose or treat mental illness.

The goal of AISD School Mental Health Centers is to offer a safe space for students as they work to improve their overall mental health and emotional wellness through counseling.

If you would like a referral to the licensed mental health professional or school mental health center, please contact your school counselor.
