Music Hub Meeting

Meeting on Saturday, January 13 at 1:00pm at the Asian American Resource Center.

Hosted by EQ Austin, this meeting will provide a discussion on each cultural center meeting held previously and include the results of the focus groups; assessment of the local artists community's needs; assessment of the facility and its assets; recommendations and cost estimates of buildout of physical space, equipment needs, and programming opportunities.

The purpose of this project is to develop creative industries business incubators focused on the development of entrepreneurs in music, film/video, and creative industry-focused technologies at the three PARD cultural centers: MACC, Carver, AARC.

The music hub could potentially provide underserved local musicians and artist communities with resources to perform, rehearse, live stream, and record. It could also provide the artists with assistance in business development, marketing and other entrepreneurial needs.

You can find these Surveys at www.MaccSurvey.Net and we will be sending the link in our next newsletter, sharing the survey on our social media accounts @ESBMACC, and in the End of Year Report. We will have opportunities for the public to fill it out at our Outreach tables as well. This survey is ongoing.
