1	57	Indicator & Target	Per Planning Commission Recommendation Memo 20231024-31 New Indicator/Target: "Increase the share of City of Austin employees who work at home instead of commuting to work. <i>Ensure that, whenever appropriate, all new City telework and remote work policies contribute towards the goal of achieving 15% Austin residents working from home by 2039. "</i>	Planning Commission 10/24/23	Staff does not oppose	This amendment was recommended by Planning Commission on October 24, 2023, and incorporated into the Council Resolution 20231109-029 which initiated this amendment process. The language recommended by Planning Commission reflects language consistent with ASMP Indicators and Targets, therefore staff does not oppose incorporating the language provided.
2	284	Action Item	Per Planning Commission Recommendation Memo 20231024-31: Modify Action Item [53] (Transportation Demand Management Programming): "Government employer TDM strategies: Seek partnerships with various federal, state, and local government agencies and universities that are major employers within Austin to encourage employees to telework or to take public transportation and other modes to work and disincentivize employees to drive alone to work. <i>Prioritize the alignment of City of Austin workplace policies, including telework policies, to achieve these goals."</i>	Planning Commission 10/24/23	Staff does not oppose	This amendment was recommended by Planning Commission on October 24, 2023, and incorporated into the Council Resolution 20231109-029 which initiated this amendment process. The language recommended by Planning Commission is consistent with the intent of the Action Item, therefore staff does not oppose adding the new sentence into the Action Item description.
3	57	Indicator & Target	Per Planning Commission Recommendation at January 23, 2024 Meeting New Indicator/Target: "Design policies to promote the share of City of Austin employees who work at home instead of commuting to work. <i>Ensure that, whenever appropriate, all new City telework and remote work policies contribute towards the goal of achieving 15% Austin residents working from home by 2039. "</i>	Planning Commission 1/23/24	Staff does not recommend this change	<p>This amendment was recommended by Planning Commission on January 23, 2024. It is an amendment to the base recommendation from Planning Commission Recommendation 20231024-31 (see Amendment ID-1). The revised text recommended by Planning Commission "Design policies to promote..." is not consistent with ASMP Indicator/Target language. It is not a measurable item, and therefore is not considered an Indicator or Target by ASMP definition. Therefore, staff does not support this change as it affects the integrity of the ASMP component definitions.</p> <p>The amendment to the base recommendation was provided by Commissioner Haynes, who had concern that incorporating the word 'Increase' would affect ASMP/City policy without due diligence and a public process. Therefore Haynes proposed the new text and this amendment was approved 7-5 by Planning Commission (Connolly absent). Staff recommends keeping the original text recommended by the Planning Commission as shown in Amendment ID-1.</p>
