

# Austin 2024 Total Eclipse

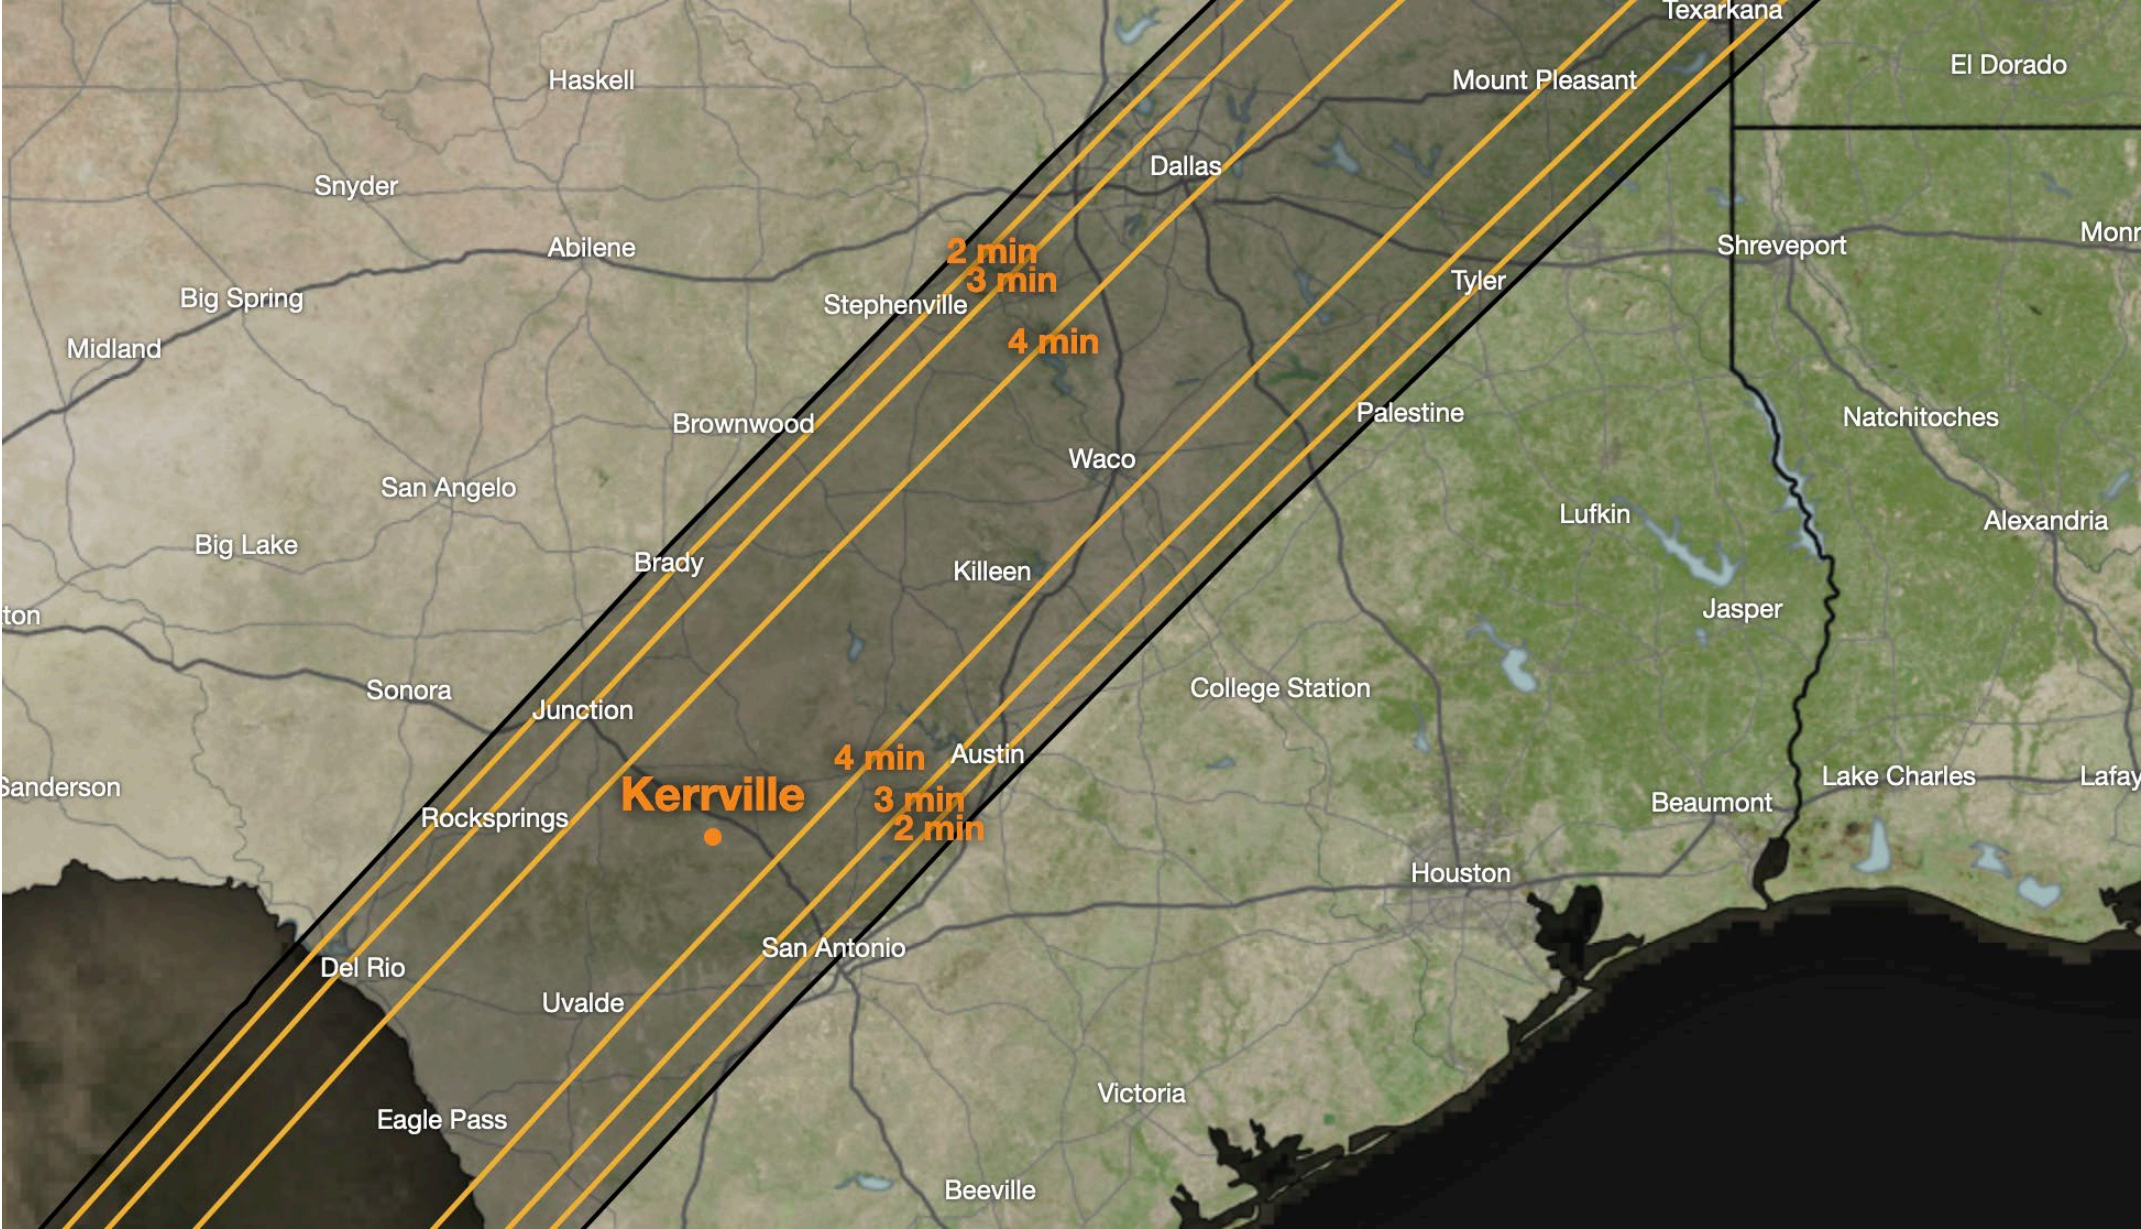

- April 8, 1:36pm - 1:38pm, totality in Austin downtown
- April 8, 12:17pm – 2:58pm, duration of eclipse
- About 2 minutes of totality
- Glasses or viewers always on if looking at Sun, except during totality
- Austin had a total eclipse in 1397, next in 2343
- Texas had total eclipse in 1900, next in 2045 (barely touches panhandle)
  
- Info and training at: <https://mcdonaldobservatory.org/eclipse>
- Simons Foundation Site at <https://www.inthepathoftotality.org/>

# Austin 2024 Total Eclipse

# Austin 2024 Total Eclipse

- Air will cool
- Feel like dusk/dawn
- Possibly see Sun's corona
- See planets and bright stars
- If you don't have solar viewing glasses, use a tree and look at the ground!

My porch from the Oct 14, 2023, annular eclipse
