

**ASIAN AMERICAN QUALITY-OF-LIFE ADVISORY COMMISSION
RECOMMENDATION 20240319-010**

Date: March 19, 2024

Subject: Recommendation on the FY 2024-25 Budget for an Equity Office Data Analyst Associate position

Motioned by: Vice Chair Sarah Chen

Seconded By: Commissioner Sonny Sin

Equity Office Data Analyst Associate position

Description

Data Equity for the Asian American, Native Hawaiian, and Pacific Islander (AANHPI) communities is a pressing issue that affects and informs the services we receive or do not. It is defined by the group AAPI Data as 1) inclusion and incorporation of community expertise and research expertise to 2) ensure equity in all stages and aspects of data and research, including:

- design and development
- collection, compilation, processing,
- analysis, dissemination, and preservation

The AAQoL has received various staff and program presentations since our creation and one of the leading trends we see is that there is very little data collection that speaks to the nuances of how or if our broad AANHPI community is served.

A Data Analyst Associate FTE position is recommended to be added to the Equity Office to complement the work they are doing with a data analyst associate that can assist in helping the Equity Office stay up to date on national data equity trends, assist with data analysis that can provide deeper insight into systematic issues and trends in available City data, and/or consult with other departments on data equity models and trends.

Recommendation

An ongoing amount of \$95,000 is recommended to cover 1 Data Analyst Associate FTE.

Department

Equity Office

Alignment with Council Strategic Priorities

Government that works for all; Equity of City programs and resource allocation

Vote: 12-0
