CIRCUMSTANCES RELATED TO THIS REALLOCATION

The timing of getting approved for transferring from EFA to HIPCSA made it difficult to identify enough eligible patients for enrollment in HIPCSA services. Based on this, funding identified for the assistance must be transferred to other service categories that have excess expenditure beyond current service category funding.

- ☒ **Without this reallocation, the funds in the “From” boxes are not expected to be spent within the grant year**
- ☒ **This reallocation will preserve the HRSA 75% minimum Core Medical Services spending requirement for the current grant year**
