

# Resource Generation Plan Update Engagement

Lynda Rife  
Rifeline

# Goals

Serve as a neutral party to:

- Create a common understanding of Austin Energy's mission of safely delivering clean, affordable, reliable energy and excellent customer service as defined in the mission statement.
- Ensure that Austin Energy hears from diverse voices whose values are reflected in the mission of reliability, sustainability and affordability.
- Create a common understanding of energy options and technology and its subsequent costs and benefits.
- Develop an informed consent process regarding the mix of solutions appropriate for Austin Energy to meet its mission in both a responsive and responsible way to support a growing customer base in the changing energy market to update the Austin Energy Resource Generation and Climate Protection Plan.

# Process

1. Gather feedback from the Electric Utility Commission and keep them informed of the process.
2. Develop a series of stakeholder workshops or charrettes (approx. 3).
  - a. Invitation to Organizations that represent different perspectives.
  - b. Provide information and options.
  - c. Table discussions and report outs
  - d. Provide a recommendation to update the Austin Energy Generation Plan
3. Report to the Austin Energy Utility Oversight Committee as needed.
