

**Motion Sheet**

I move to amend item 34 with the following direction:

- \$500,000 is authorized by this action beyond the \$9,140,000 already approved by Council item 20230720-111.
- The City Manager is directed to prioritize use of these funds to contract for local case managers with a focus on housing placements.
- The City Manager is directed to provide a ramp down plan for the Marshalling Yard as well as regular updates to the Public Health Committee including recommendations that would assist in serving current shelter clients with housing resources. This plan should identify when intakes will cease, estimated census counts over the period of ramp down, and types of placements enumerated for the current clients at the Marshalling Yard.
