Urgent Needs for Affordable Small Business Space

Market Trends

“Tight market conditions prevail in Austin's retail market as robust consumption and subsequent tenant expansions continue to drive demand throughout the metro. With an **availability rate of 3.8% and little supply relief coming** from the construction of new retail space, landlords are experiencing superb **rent growth that is double the national average** (*emphasis added*)... With tight market fundamentals and retail sales rising at a brisk pace, overall asking rents have increased by 7.6% year over year, a **historic high for the market.**”
