

Dear Members of the Historic Preservation Committee,

I am writing to support my neighbor, Meghan Hughes, in her application for a demolition permit at 4200 Wilshire Pkwy.

The proposed plans for her new house are done with great sensitivity to our neighborhood's existing character. The design preserves the spirit and scale we all value, while adding a tasteful enhancement to our area. This thoughtful approach ensures that the new construction will blend seamlessly with the surrounding homes, maintaining the aesthetic harmony of our neighborhood.

I believe approving this permit will not only benefit Meghan but also help sustain the cohesiveness and appeal of our community.

Thank you for considering my support.

Sincerely,

Matthew Peterson
