CASE MANAGER COMMENTS:

The property in question spans approximately 8.73 acres and is currently developed with a beverage warehouse and distribution facility. It is situated between Wall Street (a Level 3 street) and Ferguson Lane (a Level 2 street) and is currently zoned as Rural Residence (RR) district. The surrounding area includes Limited Industrial Service-Conditional Overlay Combining district (LI-CO) zoned lots to the north, south, and east, and single-family residences (SF-3) to the west. *Please refer to Exhibits A (Zoning Map) and A-1 (Aerial View) for more details.*

The applicant is requesting a zoning change to LI (Limited Industrial Service) to accommodate a medical research laboratory use.

Staff recommends LI-CO, Limited Industrial Service-Conditional Overlay Combining district zoning. This proposed zoning is compatible with and consistent with the surrounding land uses and zoning patterns, given the presence of LI and LI-CO zoning to the north, south, and east.

The applicant is in agreement with the staff's recommendation.

BASIS OF RECOMMENDATION:

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

The Limited Industrial Service district is intended as an area primarily for commercial services and limited manufacturing uses, generally on moderately sized sites.

The Conditional Overlay combining district may be applied in combination with any base district. The district is intended to provide flexible and adaptable use or site development regulations by requiring standards tailored to individual properties.

2. *Zoning changes should promote compatibility with adjacent and nearby uses.*

The rezoning would promote compatibility with adjacent and nearby uses by aligning with the established zoning and land use patterns in the area. The surrounding properties to the north, south, and east are already zoned Limited Industrial Service-Conditional Overlay

Combining (LI-CO) district, which supports similar industrial activities. By rezoning this property to LI-CO, the proposed use as a medical research laboratory would be consistent with the existing industrial character of these neighboring parcels. This consistency helps to maintain a cohesive development pattern, minimizing potential conflicts between different land uses and ensuring that the area remains functionally and aesthetically compatible with its surroundings.

Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is in the Walnut Creek Watershed of the Colorado River Basin, which is classified as a Suburban Watershed by Chapter 25-8 of the City's Land Development Code. The site is in the Desired Development Zone.

Under current watershed regulations, development or redevelopment on this site will be subject to the following impervious cover limits:

<i>Development Classification</i>	<i>% of Gross Site Area</i>	<i>% of Gross Site Area with Transfers</i>
Single-Family (minimum lot size 5750 sq. ft.)	50%	60%
Other Single-Family or Duplex	55%	60%
Multifamily	60%	70%
Commercial	80%	90%

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

Under current watershed regulations, development or redevelopment requires water quality control with increased capture volume and control of the 2 year storm on site.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

### Fire

No comments on zoning change.

### PARD – Planning & Design Review

Parkland dedication fees may apply to any future site or subdivision applications resulting from this rezoning. As of January 1, 2024, new commercial non-residential uses, such as a laboratory, are not subject to parkland dedication requirements at the time of site plan and subdivision.

### Site Plan

#### ***Zoning Cases***

Site plans will be required for any new development other than single-family or duplex residential.

Any development which occurs in an SF-6 or less restrictive zoning district which is located 540-feet or less from property in an SF-5 or more restrictive zoning district will be subject to compatibility development regulations.

Any new development is subject to Subchapter E. Design Standards and Mixed Use. Additional comments will be made when the site plan is submitted.

#### ***Compatibility Standards***

The site is subject to compatibility standards. Along the west property line, the following standards apply:

No structure may be built within 25 feet of the property line.

No structure in excess of two stories or 30 feet in height may be constructed within 50 feet of the property line.

No structure in excess of three stories or 40 feet in height may be constructed within 100 feet of the property line.

No parking or driveways are allowed within 25 feet of the property line.

A landscape area at least 25 feet wide is required along the property line. In addition, a fence, berm, or dense vegetation must be provided to screen adjoining properties from views of parking, mechanical equipment, storage, and refuse collection.

For a structure more than 100 feet but not more than 300 feet from property zoned SF-5 or more restrictive, 40 feet plus one foot for each 10 feet of distance in excess of 100 feet from the property zoned SF-5 or more restrictive.

An intensive recreational use, including a swimming pool, tennis court, ball court, or playground, may not be constructed 50 feet or less from adjoining SF-3 property. Additional design regulations will be enforced at the time a site plan is submitted.

Austin Transportation Department – Engineering Review

Assessment of required transportation mitigation, including the potential dedication of right of way and easements and participation in roadway and other multi-modal improvements, will occur at the time of site plan application. The traffic impact analysis for this site is not required, the traffic generated by the proposal does not exceed the thresholds established in the City of Austin Land Development Code. [LDC 25-6-113].

The Austin Strategic Mobility Plan (ASMP) calls for 116 feet of right-of-way for WALL ST. It is recommended that 58 feet of right-of-way from the existing centerline should be dedicated for WALL ST according to the Transportation Plan with the first subdivision or site plan application. [LDC 25-6-51 and 25-6-55].

FERGUSON LN has sufficient right of way to comply with the Austin Strategic Mobility Plan (ASMP). [LDC 25-6-51 and 25-6-55].

EXISTING STREET CHARACTERISTICS:

Name	ASMP Classification	ASMP Required ROW	Existing ROW	Existing Pavement	Sidewalks	Bicycle Route	Capital Metro (within ¼ mile)
WALL ST	Corridor Mobility - Level 3	116 feet	76 feet	64 feet	Existing 4 feet sidewalks	On-street	No
FERGUSON LN	Corridor Mobility - Level 4	72 feet	77 feet	26 feet	No	On-street	No

TIA:

The traffic impact analysis for this site is not required, the traffic generated by the proposal does not exceed the thresholds established in the City of Austin Land Development Code. [LDC 25-6-113].

Austin Water Utility

No comments on zoning change.

FYI: The landowner intends to serve the site with existing City of Austin water utilities.

Depending on the development plans submitted, water and or wastewater service extension requests may be required. All water and wastewater construction must be inspected by the City of Austin. For more information pertaining to the Service Extension Request process and submittal requirements contact the Austin Water SER team at [ser@austintexas.gov](mailto:ser@austintexas.gov).

**Re: C14-2024-0082, 9010 Wall Street Rezoning Case**

Dear Ms. Villela,

We are writing to you today on behalf of the property owner of 9010 Wall Street, to respectfully request a zoning change on the property from the current RR zoning (Rural Residence) to LI zoning (Limited Industrial Uses). We are requesting this rezoning to accommodate a medical research laboratory use, to replace the current bottling distribution center use.

The zoning surrounding this property is as follows: LI zoning to the east, the properties to the north and south are zoned LI-CO, and one residence to the west is zoned SF-3.

Please do not hesitate to reach out if you or your staff have any questions or need additional information concerning this application.

Thank you,
