Solar Standard Offer Adds Capacity to Community Solar

Palmer Event Center

AUS Blue Garage Carports

La Loma Community Solar Farm

Solar Standard Offer Format

Solar Standard Offer

Desired Outcomes

Community Solar Expansion

Self-sustaining, scalable and replicable
Community Solar model.

Environmental Stewardship

Increase local renewable
energy production.

Customer Satisfaction

Increase solar developer participation
and community solar subscriptions.

Access, Equity & Affordability

Enable solar access and bill savings
for low-income customers.

Solar For All Grant (SFA)

Grant Purpose

Through Solar for All, the Greenhouse Gas Reduction Fund will transform the status quo, putting billions of dollars of solar panels on the homes of low-income families and closing the equity gap in access to solar energy.

EPA Funded

\$7B and 60 Awards, Texas Coalition awarded \$250M, Austin Energy targeting \$34M

Currently in negotiation phase to solidify AE's allotment

Benefits

- Workforce Development
- Equitable Access to Solar
- Resilience Benefits
- Low-Income Household Savings
- Community Ownership
- Environmental Benefits

Solar for All

Meaningful Benefits of Residential Distributed Solar

Environmental: Solar energy offsets the need for carbon emitting power sources

Household savings: delivering a minimum of 20% electricity bill savings to low-income households participating in Community Solar through the program

Equitable access to solar: ensuring the program increases access to solar generation for low-income and disadvantaged communities

Resilience benefits: creating capacity to deliver power to low-income & disadvantaged households during a grid outage

Community ownership: facilitating ownership models allowing for disadvantaged communities and households to own assets with no upfront investment

Workforce development and entrepreneurship: investing in high-quality jobs & businesses in low-income and disadvantaged communities

Austin Energy's Solar for All
