

Additional Direction

For Item 26 (which is related to Items 13 and 14), add the following direction:

1. The City Manager is directed to explore opportunities to improve the facility to be acquired from an environmental perspective, including but not limited to:

- Solar installation
- Green infrastructure
- Resilience
- Energy efficiency

2. The City Manager is directed to assess which improvements to existing City facilities and associated costs could be avoided due to this purchase and to prioritize those savings toward improvements at other City facilities in support of City climate goals.
