**SUBJECT:** Letter of Intent for CUP (Conditional Use Permit) for Restaurant (Limited) with Drive-in Service within a LR (Neighborhood Commercial) District at 7200 Springfield Drive

Included for your review is Land Use Commission Site Plan Application Non-Consolidated Land Use Element (A Plan) and support materials as required for consideration of a CUP for a proposed restaurant offering drive-in services within a LR (Neighborhood Commercial) District. Per Section 25-2-809(A) of the Land Development Code, a CUP is required for a Restaurant (Limited) use that has drive-in service within a LR District. The proposed Panda Express restaurant at this location includes drive-in services.

The subject property is located at the southwest corner of E. William Cannon Drive and Springfield Drive, further known as Lot 33, Block N of Springfield West Commercial subdivision. The site is bounded by William Cannon Drive to the north, and Springfield Drive to the east. To the south and west is the Springfield Section 2 residential subdivision, which includes single-family residential lots and an open space lot for pedestrian access adjacent to the subject property. Across Springfield Drive are proposed medical offices and fast-food establishments at various stages of the development process.

This application represents the Land Use Element of a Non-Consolidated Site Plan. Submittal of the Construction Element application will occur closer to approval of the CUP request. Careful consideration was given to the proposed site layout to minimize any potential impact of the proposed restaurant on the surrounding community. The building, drive-in service lane, and dumpster are oriented on the opposite side of the lot from the adjacent residential units. This site may qualify for RSMP (Regional Stormwater Management Program), but if onsite detention is required the pond is proposed near the western property boundary. No variances or waivers to the Land Development Code are proposed. Specifically, all minimum setbacks and screening and landscaping requirements related to single-family residential compatibility standards will be satisfied with the Construction Element of the Non-Consolidated Site Plan.

Thank you for your assistance with this CUP application. If you have any questions or require additional information, please contact me at [kwunsch@pape-dawson.com](mailto:kwunsch@pape-dawson.com) or 512-454-8714, extension 2828.
