

**ZONING CHANGE REVIEW SHEET**CASE: C14-2024-0158 (2100 Polaris)DISTRICT: 4ZONING FROM: CS-CO-MU-NPTO: CS-MU-V-CO-DB90-NPADDRESS: 2100 Polaris AvenueSITE AREA: 3.373 acresPROPERTY OWNER: SB-Polaris Property LLC (Zachary Greenky)AGENT: Land Use Solutions (Michele Haussmann)CASE MANAGER: Sherri Sirwaitis (512-974-3057, [sherri.sirwaitis@austintexas.gov](mailto:sherri.sirwaitis@austintexas.gov))STAFF RECOMMENDATION:

**Staff recommends CS-MU-V-CO-DB90-NP, General Commercial Services-Mixed Use-Vertical Mixed Use Building-Conditional Overlay-Density Bonus 90-Neighborhood Plan Combining District, zoning. The conditional overlay will maintain the following prohibited uses from the current zoning ordinance, Ordinance No. 20211021-039, on the property:**

**Automotive repair services  
Automotive washing (of any type)  
Automotive rentals  
Automotive sales  
Bail bond services  
Commercial off-street parking  
Drop-off recycling collection facilities  
Equipment sales  
Outdoor entertainment  
Outdoor Sports and Recreation  
Commercial blood plasma center  
Construction sales and services  
Equipment repair services  
Exterminating services  
Maintenance and service facilities  
Pawn shop services  
Service station  
Vehicle storage  
Veterinary services**

PLANNING COMMISSION ACTION / RECOMMENDATION:

**December 10, 2024: Postponed to January 28, 2025 at the applicant's request by consent (11-0, C. Haney-absent, G. Anderson-off dais); A. Azhar-1st, A. Woods-2nd.**

**January 28, 2025: Postponed to February 25, 2025 at the applicant's request by consent (9-0, A. Phillips and A. Haynes - off dais, A. Woods and G. Anderson-absent); R. Johnson-1st, F. Maxwell-2nd.**

**February 25, 2025**CITY COUNCIL ACTION:

ISSUES:

In December 2023, Ordinance No. 20220609-080, Ordinance No. 20221201-056 and Ordinance No. 20221201-055 were invalidated. On March 11, 2024, Ordinance No. 20240229-073, was enacted to create the “DB90” combining district, which amended City Code Title 25 (Land Development) to create a new zoning district for a density bonus program that grants 30 feet in height above the base zoning district, to a maximum of 90 feet, and modifies site development regulations including compatibility standards. Subsequently, the applicant submitted this new rezoning application to request the -DB90 combining district.

CASE MANAGER COMMENTS:

The property in question is a 3+ acre tract of land located at the terminus of Polaris Avenue. This currently vacant site was previously used as demolition company (Heart of Texas Demolition LLC). To the north, there are commercial and light industrial uses. The lot to the south is developed with a public school (Burnet Middle School). There is a rail line to the east. To the west, there are office/warehouse buildings to the north of Polaris Avenue and a multifamily complex, a townhouse residence, a duplex and single family residences to the south of Polaris Avenue. The applicant is requesting a rezoning the property to add the “V” and “DB90” combining districts to the existing zoning to redevelop the property with approximately 350 multifamily residential units (*please see Applicant’s Request Letter – Exhibit C*). There are transportation options in this area as there are Capital Metro bus routes along Burnet Road (#3 and #803) and a bus stop to the west at the southeast corner of Burnet Road and Colfax Avenue. In addition, there is an Urban Trail (Polaris Ave Connector) to the east along the 550-Metro Rail Red Line. The property is located within the Crossroads and Ohlen ETOD Station areas.

This site under consideration is within the Wooten portion of the Crestview/Wooten Combined Neighborhood Planning Area. The Future Land Use Map (FLUM) calls for this site to be designated as “Mixed Use”. As the proposed zoning is consistent with this land use designation, an NPA is not required.

A development utilizing the “density bonus 90” incentives is permitted with a base CS district and must include an affordability component for residential use in order to obtain incentives, including height maximum of 90 feet in the CS district (60 feet base plus 30 feet incentive) and relaxation of development and compatibility standards, such as FAR, setbacks and building coverage. There are several methods of satisfying DB90 development affordability requirements. There are two options for projects including rental units:

- 1) a minimum of 12% of the rental units in a building are affordable for a 40-year period for households earning 60% or less than the Austin-Round Rock Metropolitan Statistical Area MFI; or

2) a minimum of 10% of the rental units are affordable for a 40-year period as described above for households earning 50% or less MFI.

There are two options of satisfying DB90 development affordability requirements which include ownership units:

- 1) a minimum of 12% of the residential units in a building are affordable for a 40-year period for households earning 80% or less than the Austin-Round Rock Metropolitan Statistical Area MFI; or
- 2) an in-lieu-fee payment to the Housing Trust Fund, equivalent to the required percentage of the total residential units, including the mix of bedrooms required, at the rate set in the fee schedule at the time of final site plan submission.

The staff recommends General Commercial Services-Mixed Use-Vertical Mixed Use Building-Conditional Overlay-Density Bonus 90-Neighborhood Plan Combining District, zoning. The conditional overlay will maintain the following prohibited uses from the current zoning ordinance, Ordinance No. 20211021-039, on the property. The proposed zoning is compatible and consistent with the surrounding uses as there are commercial and light industrial uses/ CS-NP zoning to the north and office/warehouse buildings and multifamily and townhouse developments/ CS-NP and MF-2-NP to the west. CS-MU-V-CO-DB90-NP zoning will permit the applicant to redevelop this site with residential uses or a combination of residential, office, civic and commercial uses near an existing public school and established residential uses on a tract of land that is located near a designated Activity Corridor by the Imagine Austin Comprehensive Plan. The applicant's proposal to maintain the existing conditional overlay will limit more intensive commercial uses at this location and is appropriate for a property that is adjacent to residential uses and public facilities.

A building constructed under density bonus 90 (–DB90) standards allows for a mix of residential uses and commercial uses, and the result is typically retail, restaurants and offices on the ground floor, and residential units on upper levels.

The applicant agrees with the staff's recommendation.

#### BASIS OF RECOMMENDATION:

1. *The proposed zoning should be consistent with the purpose statement of the district sought.*

General Commercial Services district is intended predominately for commercial and industrial activities of a service nature having operating characteristics or traffic service requirements generally incompatible with residential environments.

Mixed Use combining district is intended for combination with selected base districts, in order to permit any combination of office, retail, commercial, and residential uses within a single development.

Vertical Mixed Use Building (V) combining district may be applied in combination with any commercial base zoning district and allows for a combination of office,

retail, commercial and residential uses within a vertical mixed use building.

Conditional Overlay combining district may be applied in combination with any base district. The district is intended to provide flexible and adaptable use or site development regulations by requiring standards tailored to individual properties.

Density Bonus 90 combining district, in exchange for providing affordable housing units and in combination with commercial base zoning districts, allows a mixture of office, retail, commercial, and residential uses with modifications of compatibility standards and site development regulations including increased building height.

Neighborhood Plan district denotes a tract located within the boundaries of an adopted Neighborhood Plan.

2. *The proposed zoning should promote consistency and orderly planning.*

The proposed CS-MU-V-CO-DB90-NP zoning will be compatible and consistent with the surrounding uses because there are commercial and light industrial uses (CS-NP zoning) to the north and office, warehouse buildings, multifamily and townhouse developments (CS-NP and MF-2-NP zoning) to the west. The proposed conditional overlay will limit more intensive commercial uses at this location and is appropriate for a property that is adjacent to residential uses. The property is located near a designated Activity Corridor in the Imagine Austin Comprehensive Plan (0.18 from the Burnet Road Activity Corridor) and a regional center (0.10 linear miles from the North Burnet/Gateway Station Regional Center).

3. *The proposed zoning should allow for a reasonable use of the property.*

CS-MU-V-CO-DB90-NP zoning will permit the applicant to redevelop this site with residential uses or a combination of residential, office, civic and commercial uses near an existing public school and established residential uses. There are supporting transportation services in this area as there are Capital Metro bus routes along Burnet Road (#3 and #803) and a bus stop to the west at the southeast corner of Burnet Road and Colfax Avenue. In addition, there is an Urban Trail (Polaris Ave Connector) to the east along the 550-Metro Rail Red Line.

EXISTING ZONING AND LAND USES:

	ZONING	LAND USES
<i>Site</i>	CS-MU-CO-NP	Vacant
<i>North</i>	CS-NP	Commercial and Light Industrial Uses (Office/Warehouse Developments)
<i>East</i>	MF-2-NP	Rail Line, Duplex Residences
<i>South</i>	P-NP	School (Burnet Middle School)
<i>West</i>	CS-NP, MF-2-NP, SF-3-NP	Office/Industrial Uses, Multifamily (Polaris Condos), Townhouse, Duplex, Single-Family Residences

OTHER STAFF COMMENTS:

Comprehensive Planning

**Project Name and Proposed Use:** 2100 POLARIS AVENUE. C14-2024-0158. Project: 2100 Polaris. 3.3730 acres from CS-MU-CO-NP to CS-MU-V-DB90-CO-NP. Wooten NP. FLUM: Mixed Use. Existing: vacant. Proposed: 350 multi-family units. Proposal seeks Density Bonus 90 Combining District (Ordinance No. 20240229-073), which sets affordability minimums on ownership and rental units, and further allows for an increase of up to 30 ft in height above the base zone allowance, with a maximum limit of 90 feet in total height. DB90 additionally releases the site from some base zoning district development standards, including maximum floor area ratio.

### Environmental

The site is not located over the Edwards Aquifer Recharge Zone. The site is located in the Little Walnut Creek Watershed of the Colorado River Basin, which is classified as an Urban Watershed by Chapter 25-8 of the City's Land Development Code. It is in the Desired Development Zone.

Zoning district impervious cover limits apply in the Urban Watershed classification.

According to floodplain maps there is no floodplain within or adjacent to the project location.

Standard landscaping and tree protection will be required in accordance with LDC 25-2 and 25-8 for all development and/or redevelopment.

At this time, site specific information is unavailable regarding vegetation, areas of steep slope, or other environmental features such as bluffs, springs, canyon rimrock, caves, sinkholes, and wetlands.

This site is required to provide on-site water quality controls (or payment in lieu of) for all development and/or redevelopment when 8,000 sq. ft. cumulative is exceeded, and on-site control for the two-year storm.

At this time, no information has been provided as to whether this property has any preexisting approvals that preempt current water quality or Code requirements.

### Fire

No comments.

### Parks and Recreation

Parkland dedication will be required at the time of subdivision or site plan application for new residential units, per City Code § 25-1-601, as amended. The proposed development meets the criteria for land dedication in City Code Title 25, Article 14. As such, a full or partial land dedication will be required, as well as any remaining fees in-lieu.

The surrounding neighborhood area is currently park deficient, defined as being outside walking distance to existing parks. The development as proposed will require parkland dedication for the new residential units that will serve the neighborhood through the additional park investment. The Parks and Recreation Department (PARC) would consider space for the Red Line Trail running parallel to the train tracks that provides a connection to either Polaris or Colfax or both toward satisfying the requirement at time of permitting (whether subdivision or site plan). Such a connection would improve neighborhood connectivity, and satisfy an acquisition need for the neighborhood, a recommendation identified in the Parks and Recreation Department's Long-Range Plan.

Should there be any remaining fees in-lieu, those fees shall be used toward park investments in the form of land acquisition and/or park amenities within the surrounding area, per the Parkland Dedication Operating Procedures § 14.3.11 and City Code § 25-1-609.

Should the applicant wish to discuss parkland dedication requirements in advance of site plan or subdivision applications, please contact this reviewer: [ann.desanctis@austintexas.gov](mailto:ann.desanctis@austintexas.gov). At the applicant's request, PARD can provide an early determination letter of the requirements as stated in this review.

#### Site Plan

No comments.

#### Transportation

The Austin Strategic Mobility Plan (ASMP) calls for 58 feet of right-of-way for Colfax Ave. It is recommended that 29 feet of right-of-way from the existing centerline should be dedicated for according to the ASMP with the first subdivision or site plan application. [LDC 25-6-51 and 25-6-55].

The adjacent street characteristics table is provided below:

Name	ASMP Classification	ASMP Required ROW	Existing ROW	Existing Pavement	Sidewalks	Bicycle Route	Capital Metro (within ¼ mile)
Colfax Ave	Level 1	58'	51'	NA	No	No	yes

#### Water Utility

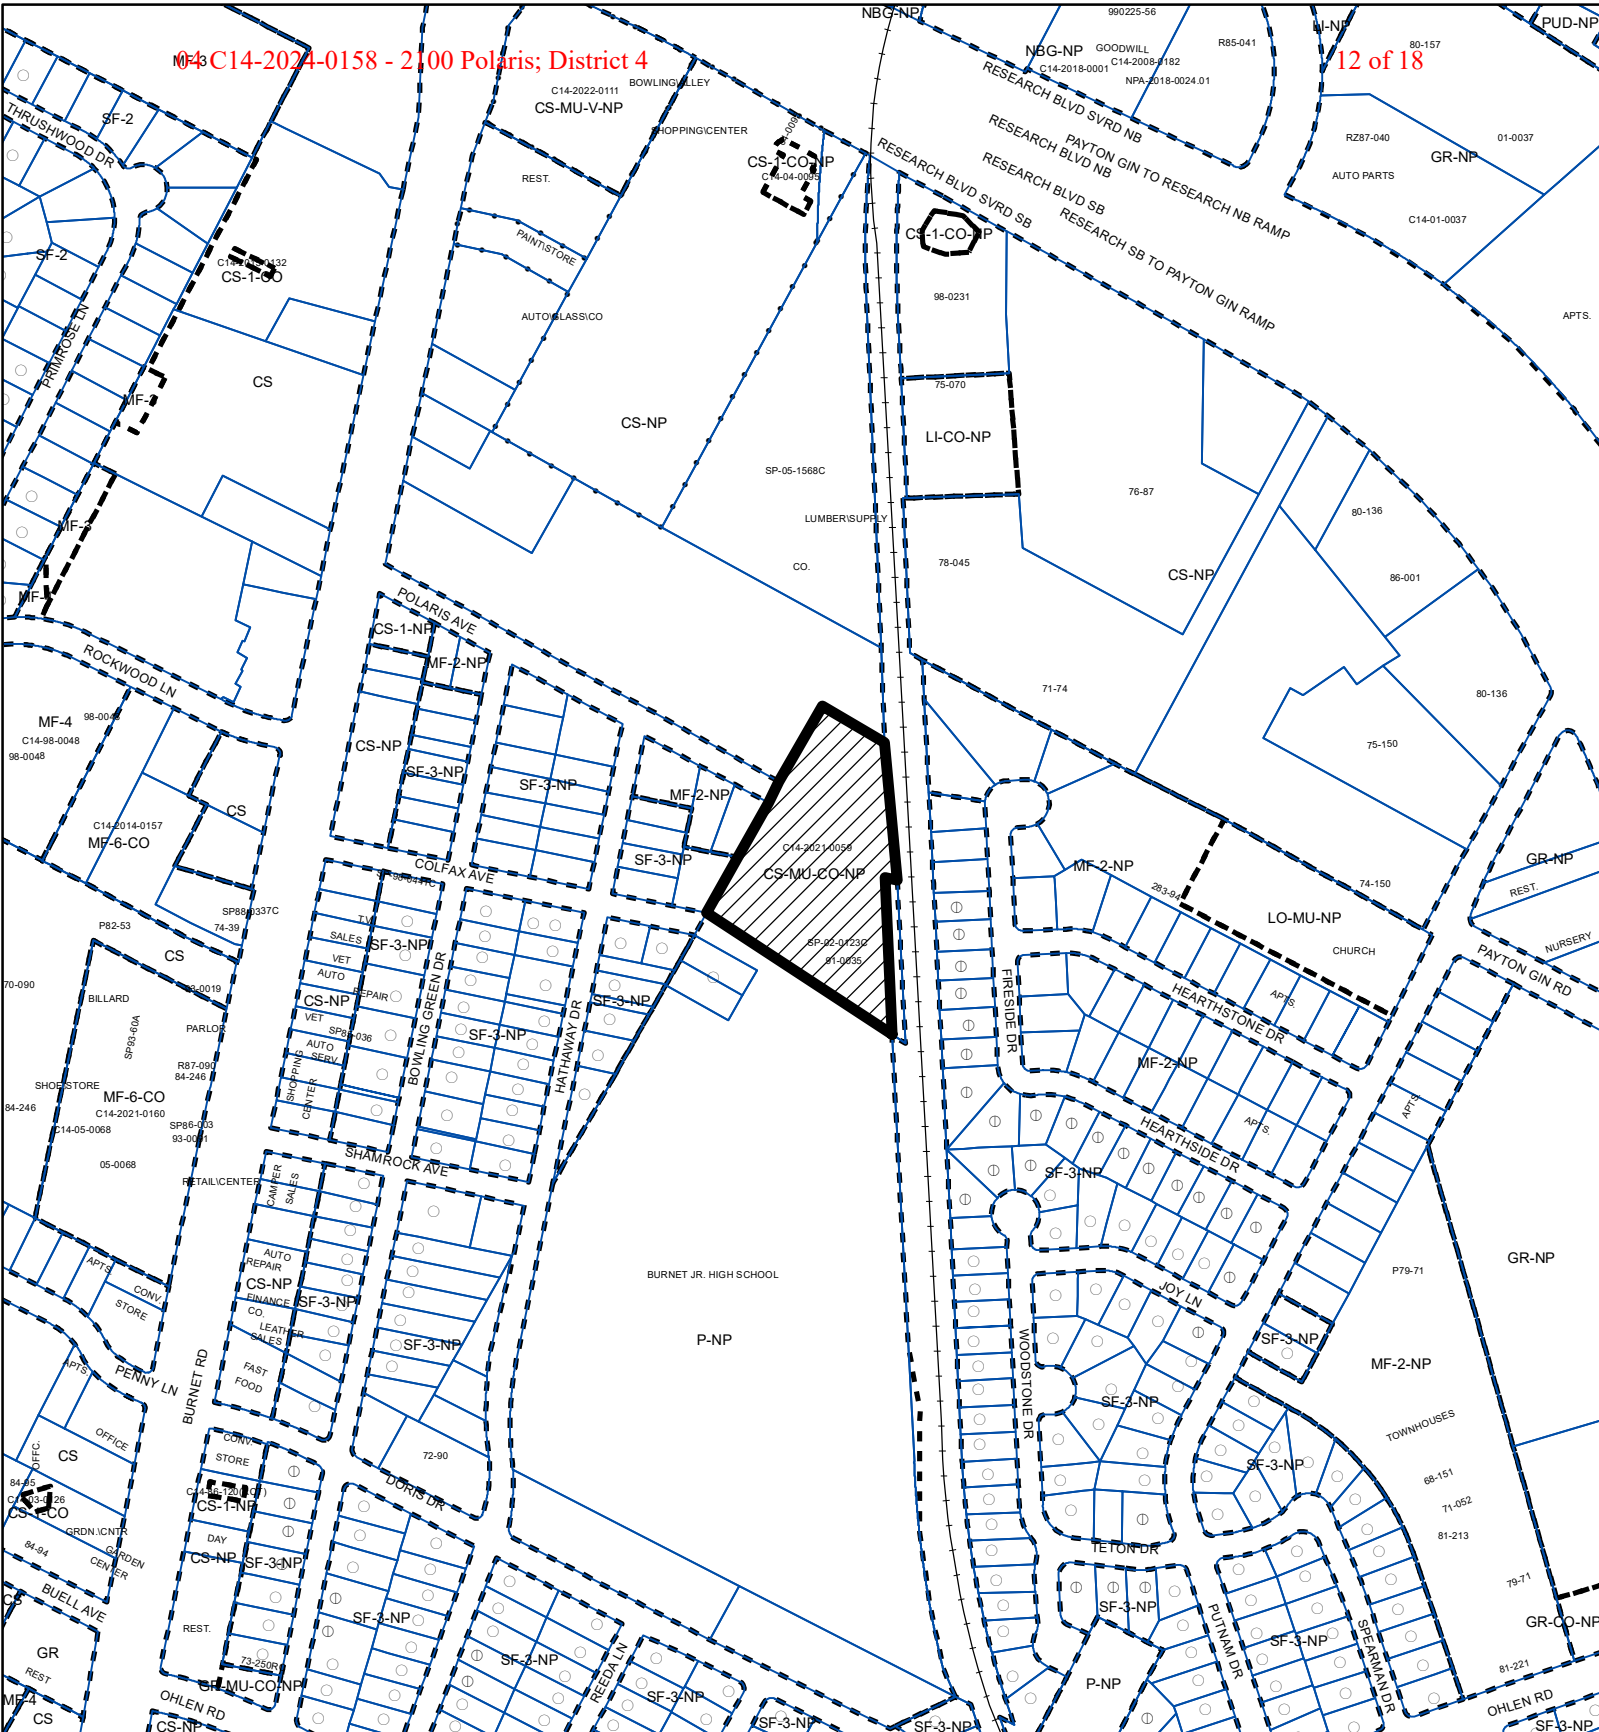

No comments on zoning change.

FYI: The landowner intends to serve the site with existing City of Austin water utilities.

Based on current public infrastructure configurations, it appears that service extension requests (SER) will be required to provide service to this lot. For more information pertaining to the Service Extension Request process and submittal requirements contact the Austin Water SER team at [ser@austintexas.gov](mailto:ser@austintexas.gov).

Re: Zoning Application – Approximately 3.372 acres located at 2100 Polaris Ave, in the City of Austin (“City”), Travis County, Texas (“Property”)

Dear Ms. Harden:

As representatives of the owner and developer of the above stated Property, SB-POLARIS LLC (“Applicant”), we respectfully submit the enclosed zoning application and submittal package. The Property consists of approximately 3.372 acres and is vacant. The Property is in the Wooten Neighborhood planning area. The request is to rezone the Property from CS-MU-CO-NP to CS-MU-V-DB90-CO-NP. The Applicant agrees to keep the existing Conditional Overlay to prohibit certain conditional and permitted uses.

The Property is designated as Mixed Use in the Crestview/Wooten Combined Neighborhood plan. Maureen Meredith confirmed a plan amendment is not required. The Property was rezoned to CS-MU-CO-NP with the adoption of the Crestview/ Wooten Combined Neighborhood plan on April 1, 2004 with Ordinance No. 040401-32A. In 2021, the Property was rezoned to CS-MU-CO-NP to remove the Conditional Overlays that limited impervious cover, height and density. The rezoning was approved on the consent agendas.

The Property is surrounded by compatible land uses including commercial and office to the north and Burnet Middle school to the south. To the east is the location of the proposed Redline Trail. To the west are commercial, multifamily and single family. The Property is surrounded by compatible zoning districts including CS-NP to the north, P-NP to the south, MF-2-NP and SF-3-NP to the west, and SF-3-NP to the east across the rail line. The proposed DB90 combining district is consistent and compatible with the surrounding zoning and land uses.

The Property is located near a designated Activity Corridor in the Imagine Austin Comprehensive Plan (0.18 from the Burnet Road Activity Corridor) and a regional center (0.10 linear miles from the North Burnet/Gateway Station Regional Center). The Property is perfectly
