

Item No. 37
Amendment 1
Council Member Velásquez
March 6, 2025
Motion Sheet

Proposed Amendment: Inclusion of Residential Infill Project Metrics in the Annual HOME Report

I move to include the following direction:

- The City Manager is directed to incorporate key metrics, as determined by staff, related to Residential Infill Projects in the Annual HOME Report.

Rationale:

- Ensures transparent tracking of “missing middle housing” production, affordability outcomes, and the overall success of right-sizing drainage regulations based on the size of a development.
- Provides data-driven insights to assess the impact of the City’s initiatives on housing supply and affordability.
- Strengthens accountability by ensuring Council and stakeholders have access to relevant performance indicators.
