Monthly Report on License Agreement
2025-06 June

This report is in agreement with the terms outlined in Section 8.4 of the License Agreement between the City of Austin and Austin Pets Alive! with a focus on APA!'s impact on Travis County through our partnership with Austin Animal Center.

Austin Pets Alive! (APA!) is consistently the city of Austin's largest partner in lifesaving. Our mission is to keep Austin No Kill by taking in the animals that have medical and behavioral concerns that the city cannot care for or treat. Since 2011, due to our partnership with Austin Animal Center to take the animals at risk of euthanasia, our city has been the largest No Kill city in the US.

APA! Intakes transferred from AAC:

In June 2025, 203 animals (*per APA! audited records*) were transferred from AAC to APA! for lifesaving care and placement.

45 animals were born in APA!'s care to pregnant animals sent from AAC. Additionally, APA! took in 10 pets directly from owners within Travis county through the PASS program that should have otherwise entered AAC. This makes for 55 intakes diverted from AAC in June.

Due to ongoing inconsistencies in the city's data portal, we are not able to accurately calculate AAC's June intakes, outcomes, live release rate, and other numbers, nor APA!'s impact on these numbers.

APA! Transfers from AAC as % of AAC Intakes - Fiscal Year to Date

APA must: select a sufficient number of animals from the At-Risk List so that at the end of each year of the Term APA will have selected from the At-Risk List 12% of the total number of animals taken in by AAS during the preceding year.

Total AAC Dog and Cat Intake FY24	*11,081*
Transfer target for FY25 (12% of FY24)	***1,330***
Current FY25 AAC->APA! Transfers	***1,211 (91.05%)***
Current 12-month rolling average of transfers as % of prior year intake	*16.11%*

Survival Rates of AAC Medical Transfer Pets

This looks at the outcomes of pets transferred from AAC to APA! as medical cases in the month prior to the month of the report, to show their minimum 30-day survival rate.

Fiscal Year 2025, Quarter 3 Summary
April - June 2025

During Fiscal Year 2025 Q3, APA! transferred in 605 animals directly from Austin Animal Center.

In addition, 202 intakes were diverted from AAC by APA!'s programs, including animals born in care to moms originating from AAC and owner surrenders through APA!'s P.A.S.S. Program.

Animals transferred from AAC to APA! for medical reasons from March-May had a 30-day survival rate of 85% in APA!'s care during Q3.
371/436 medical transfers were still alive in care or had a live outcome when checked at least 30 days post-transfer.
