In the Social Worker’s own words:

Client was referred by Montopolis Neighborhood Center staff because the client was living in a sober living facility and had recently found a part-time job. The client was needing financial assistance and transportation resources. Client’s goal was to move into full-time employment. I met with the client to develop a treatment plan. Our first goal was to save enough money to get the client’s vehicle fixed. The client did this within the first 30 days of case management. The next goal was to work full-time. The client met this goal within the first 30 days of case management too. The client is

now working at a recovery center which is in line with the final goal: to go back to school and become a Substance Use Counselor. The client intends to continue working full-time and apply for school and financial aid. They are looking forward to moving into an affordable one-bedroom apartment.
