Item 4

Water & Wastewater Commission: January 14, 2026

Council: January 22, 2026

Additional Backup Information:

This amendment will provide funding for services to perform the construction phase engineering services, specialty inspections, and close-out services for Williamson Creek Wastewater Interceptor project.

The previous City Council authorization provided for preliminary, design and bid phase engineering services.

Parts of the construction will be in City Parkland. Williamson Creek Greenbelt trails will also be temporarily affected in certain areas along the creek, thus restricting public access and use during that time. All disturbed areas will be restored afterward.

This project is specifically for a segment of lower Williamson Creek where the existing sewer interceptor needs to be replaced and upgraded.

The project is located within zip codes 78744 and 78745 (Districts 2 and 3).
