### External Email - Exercise Caution

Hello. I am a resident of the Zilkr on the Park condominium located at 1900 Barton Springs Road. I am writing to object to the bridge replacement project proposed at 2100 Barton Springs Road, Case # 2025-145729.

To begin, it is not clear whether this project contemplates replacement of the vehicle bridge on Barton Springs, the pedestrian bridge on the hike and bike trail, or both. The existing bridges are suitable for current traffic. I do not see any upside for the area in replacing them unless they are structurally unsound.

Also the area is already heavily disrupted as a result of the rebanking project on the hike and bike trail just downstream from the existing pedestrian bridge. We are looking forward to a return to normalcy when this project is completed and do not need another disruptive project following it.

Best regards, Eric Schweiker
