Funding: \$1,434,265 is available in the Capital Budget of Austin Transportation and Public Works.

Lead Department

Austin Financial Services.

Managing Department

Austin Transportation and Public Works.

Fiscal Note

Funding is available in the Capital Budget of the Austin Transportation and Public Works.

Procurement Language:

Austin Financial Services issued an Invitation for Bids solicitation IFB 6100 CLMC1160 for these services. The solicitation was issued on June 8, 2026, and closed on July 30, 2026. Of the nine offers received, the bids submitted by the recommended contractors was the lowest responsive bids received. A complete solicitation package, including a tabulation of the bids received, is available for viewing on the City's website. This information can currently be found at https://financeonline.austintexas.gov/afo/account_services/solicitation/solicitation_details.cfm?sid=143875.

MBE / WBE:

This contract will be awarded in compliance with the City Code Chapter 2-9A (Minority-Owned and Women-Owned Business Enterprise Procurement Program). No goals were established for this solicitation.

For More Information:

Direct questions regarding this Recommendation for Council Action to Austin Financial Services - Central Procurement at: FSDCentralProcurementRCAs@austintexas.gov or 512-974-2500. Respondents to the solicitation and their Agents should direct all questions to the Authorized Contact Person identified in the solicitation.

Additional Backup Information:

As part of the 2022 Safe Streets for All Federal Grant & 2020 Bond Vision Zero Major Safety Program, Austin Transportation and Public Works requests authorization to enter a construction contract to construct a roundabout, addressing critical multimodal safety and mobility improvements at Rutland Drive and Parkfield Drive.

This project was identified and developed with safety, operations, and connectivity in mind for all modes of transportation to reduce crashes across all transportation modes, increase safety, and improve mobility and accessibility for pedestrians, bicyclists, and transit riders. The planned improvements include the conversion of

an existing traffic signal to a roundabout, the addition of raised medians for access management, enhanced pedestrian and bicycle facilities, and associated signing, striping, and paving. Due to the potential for unforeseen conditions and change orders that may arise during construction that would otherwise delay the project, a 10% contingency in funding has been included to allow for the expeditious processing of any change orders to cover any unforeseen construction costs associated with the project.

This project will have pre-approved temporary lane closures as the work is being constructed and each phase is completed. The selected contractor will ensure all residents and business will have access to driveways and right-of-entries. If any access cannot be maintained, a right-of-entry will be provided to any affected businesses and business owners 24 hours in advance. For any planned service interruptions such as water, wastewater, fiber, or electrical issues related to pipeline installations, residents will be notified at least 48 hours in advance.

A delay in contract approval would prevent timely delivery of safety and mobility improvements for all roadway users including postponement of planned pedestrian, bicycle, and transit accessibility enhancements.

The contract allows 156 calendar days for completion of this project.

This project is located within zip code 78702 (District 4).
