Sexual Assault Reports to Austin PD

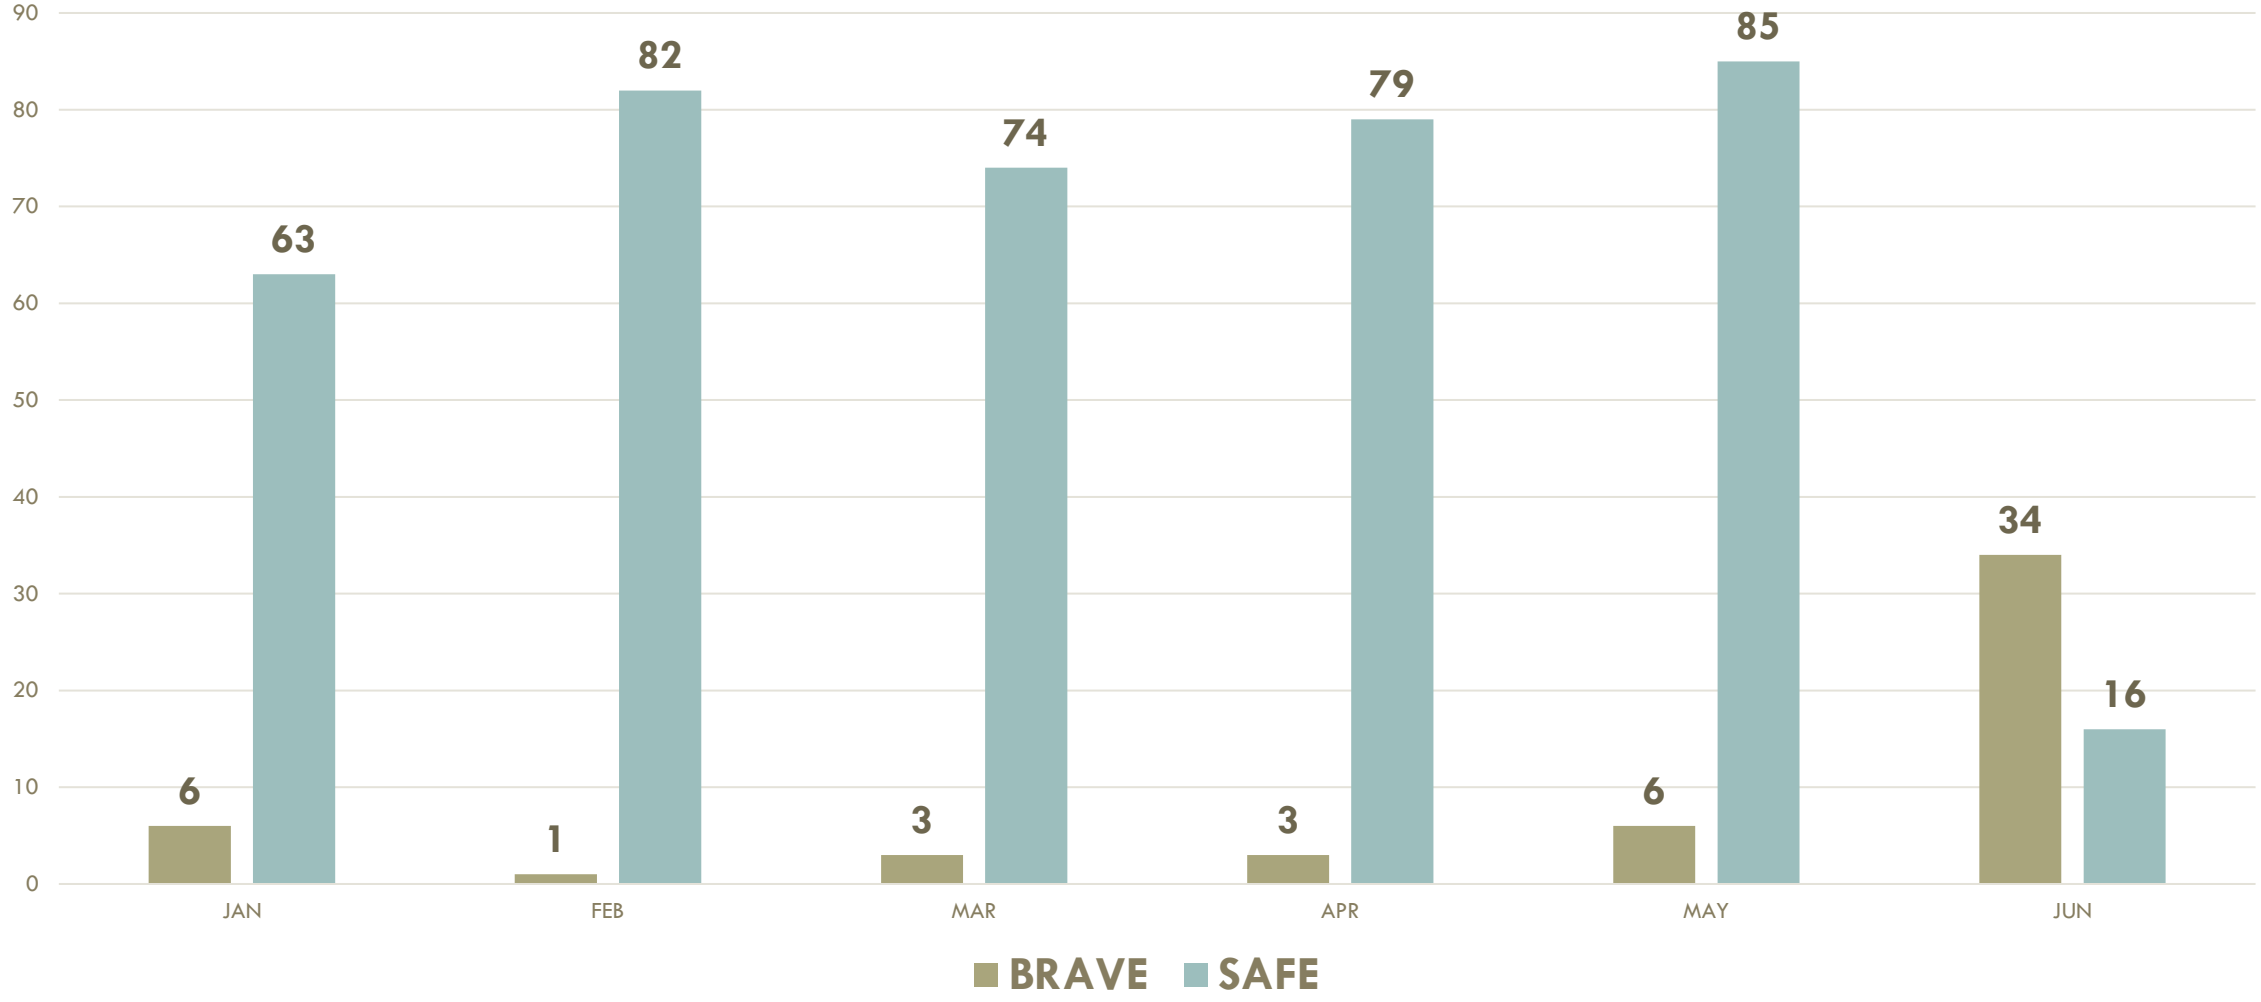

TCDA Prosecution Status

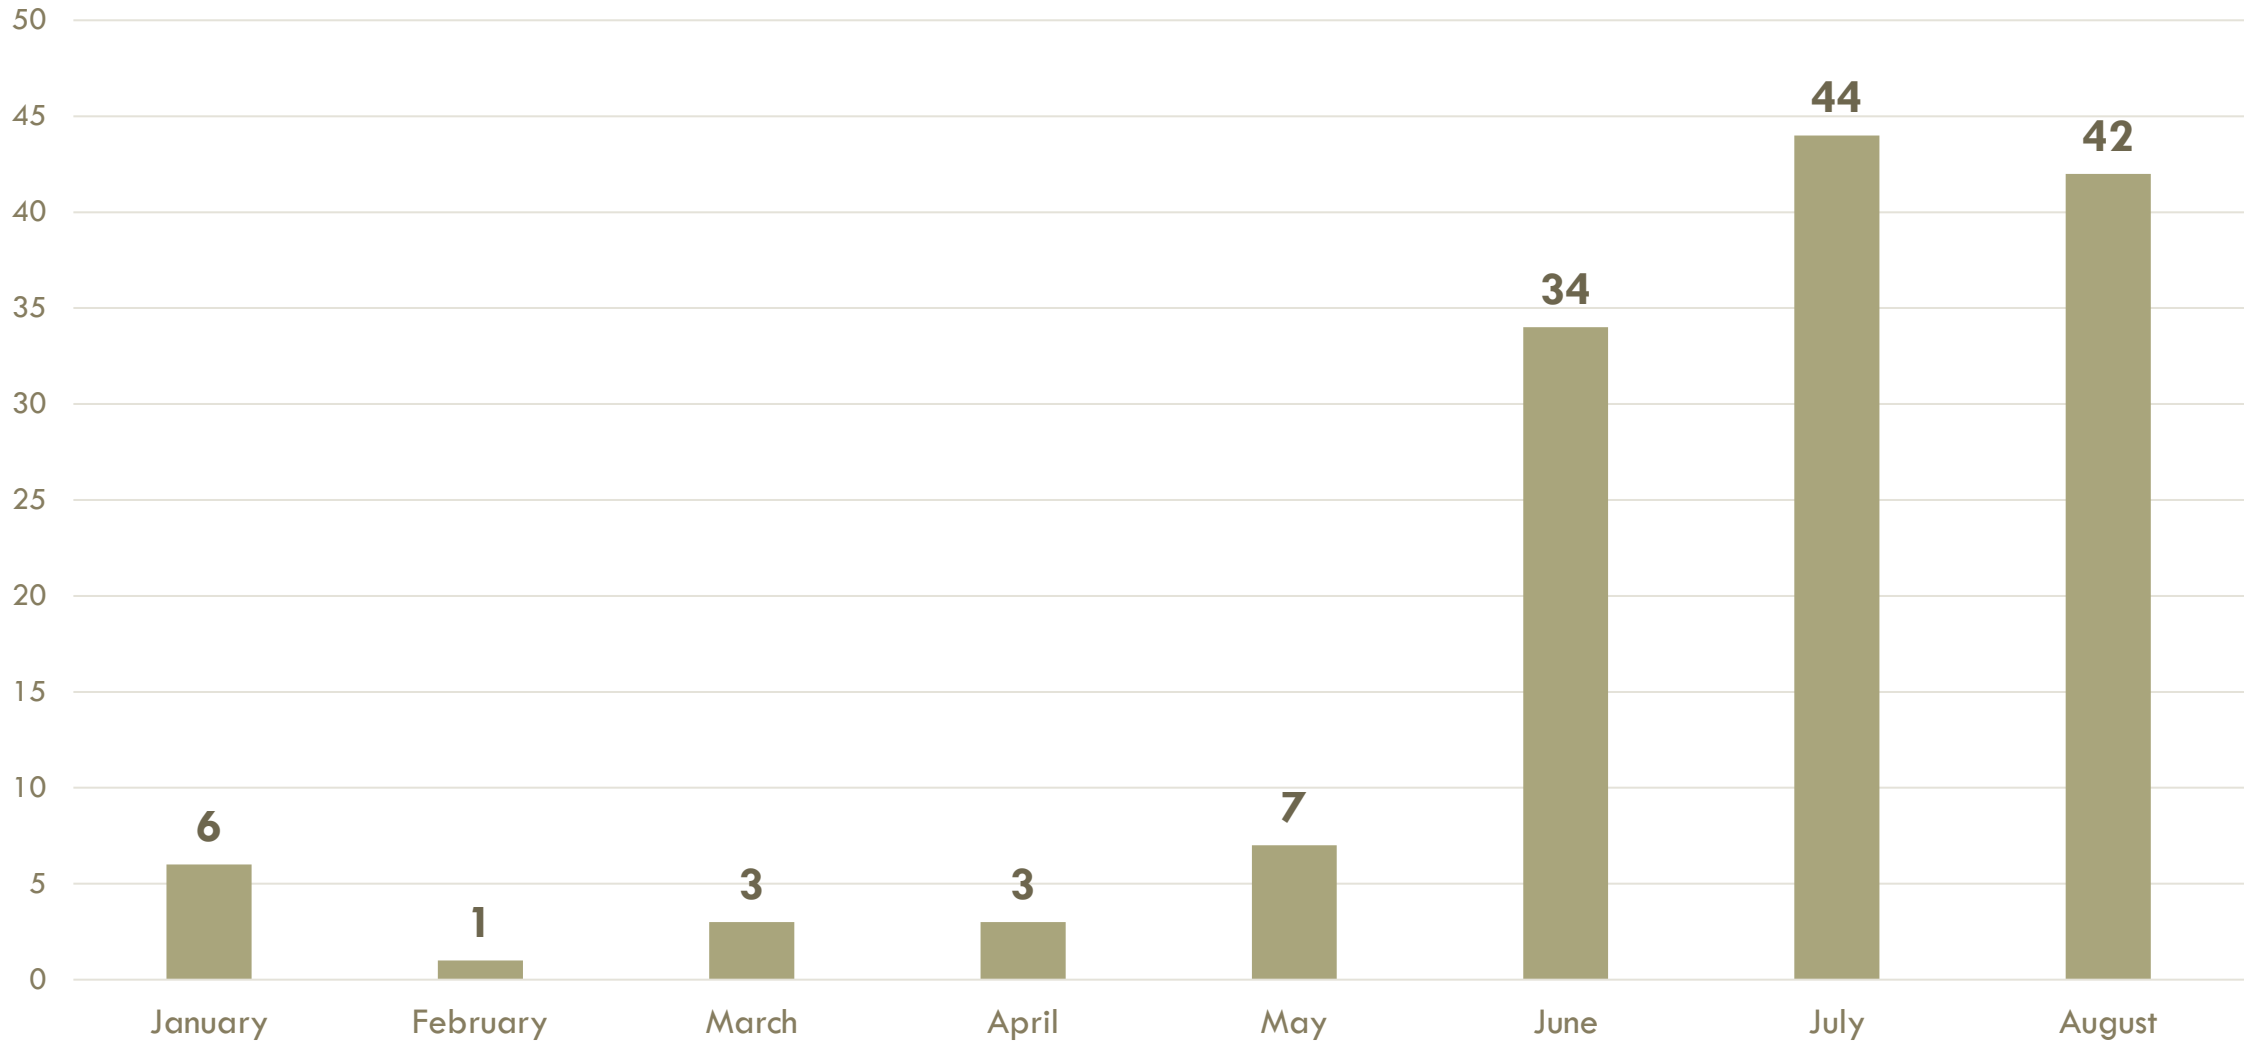

Pleas by Offense

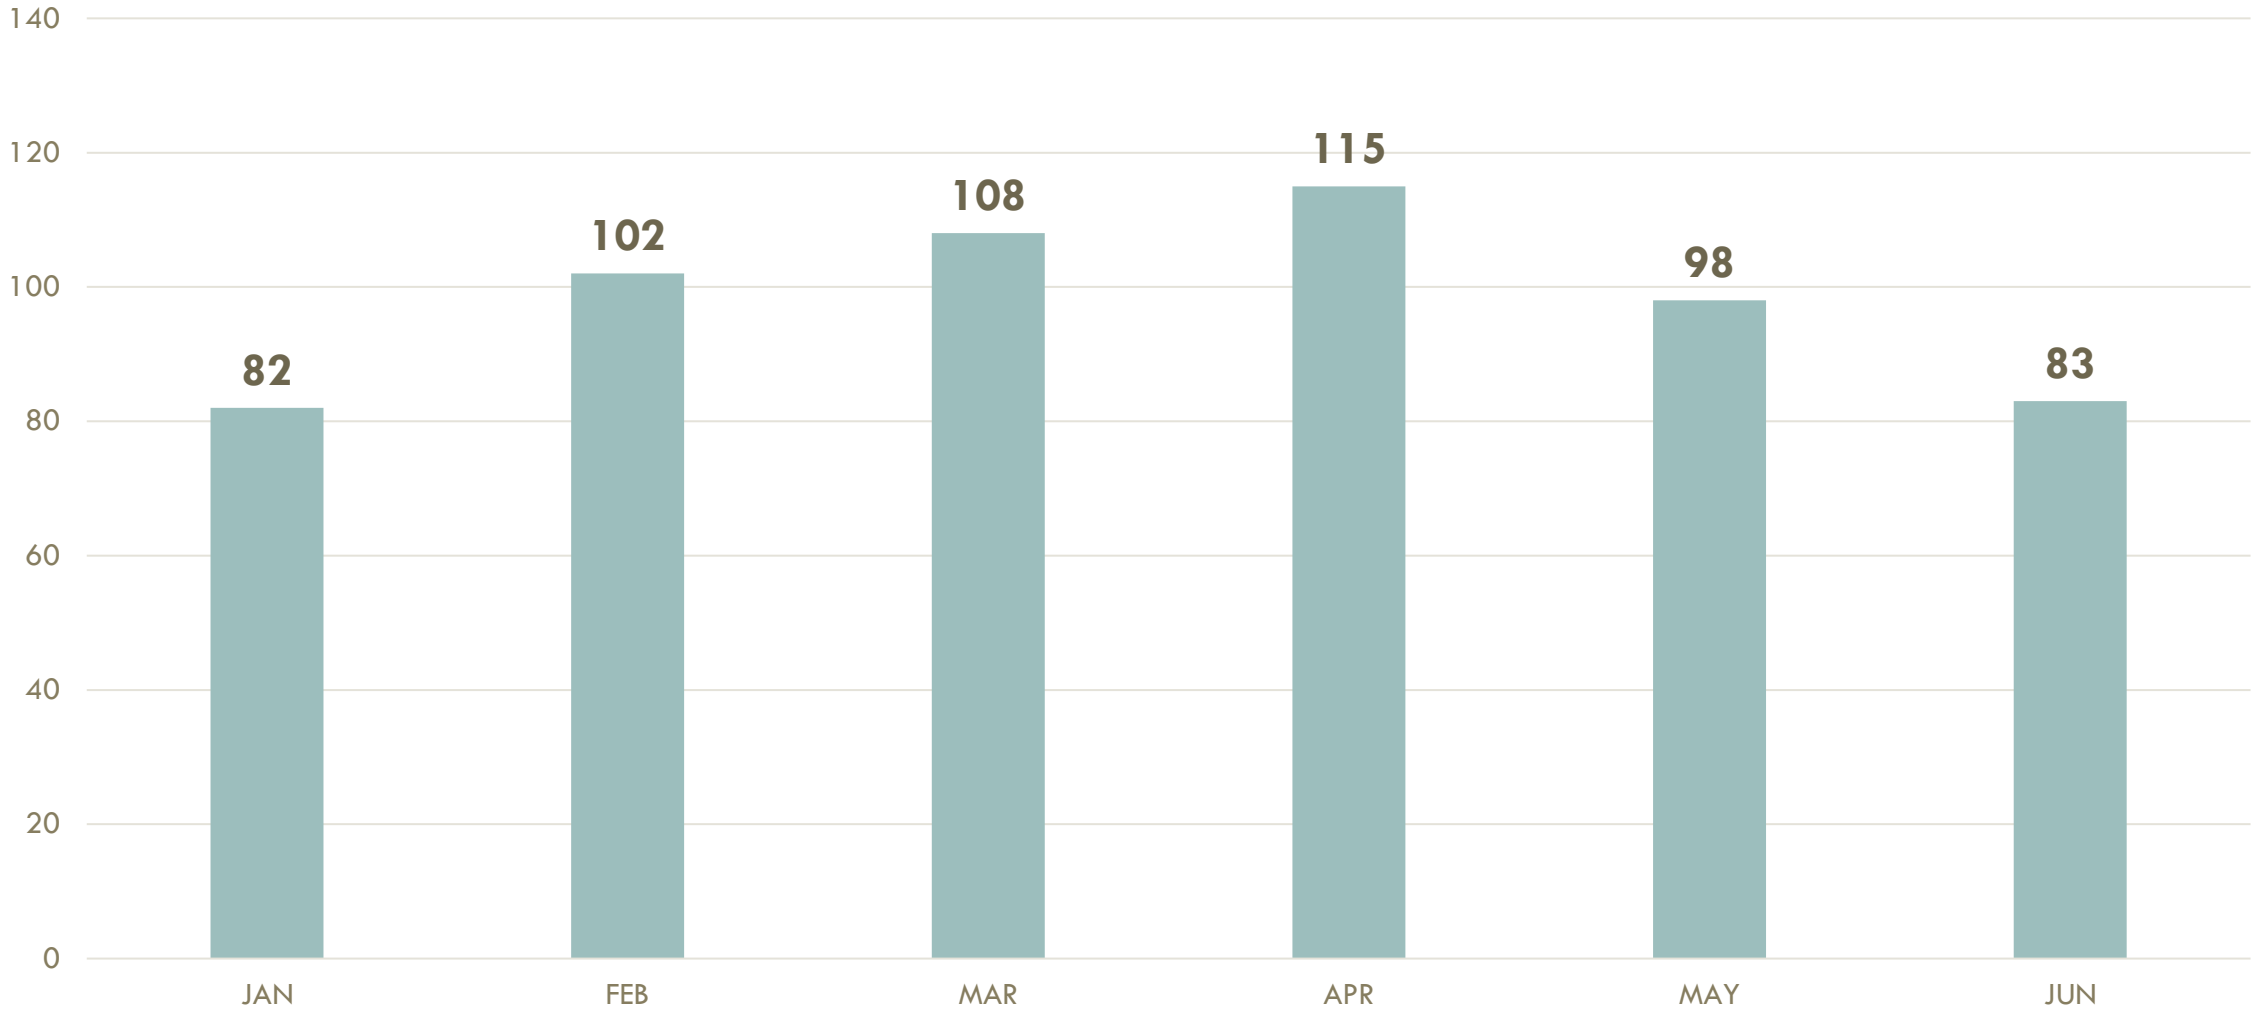

Forensic Nursing Unduplicated Services

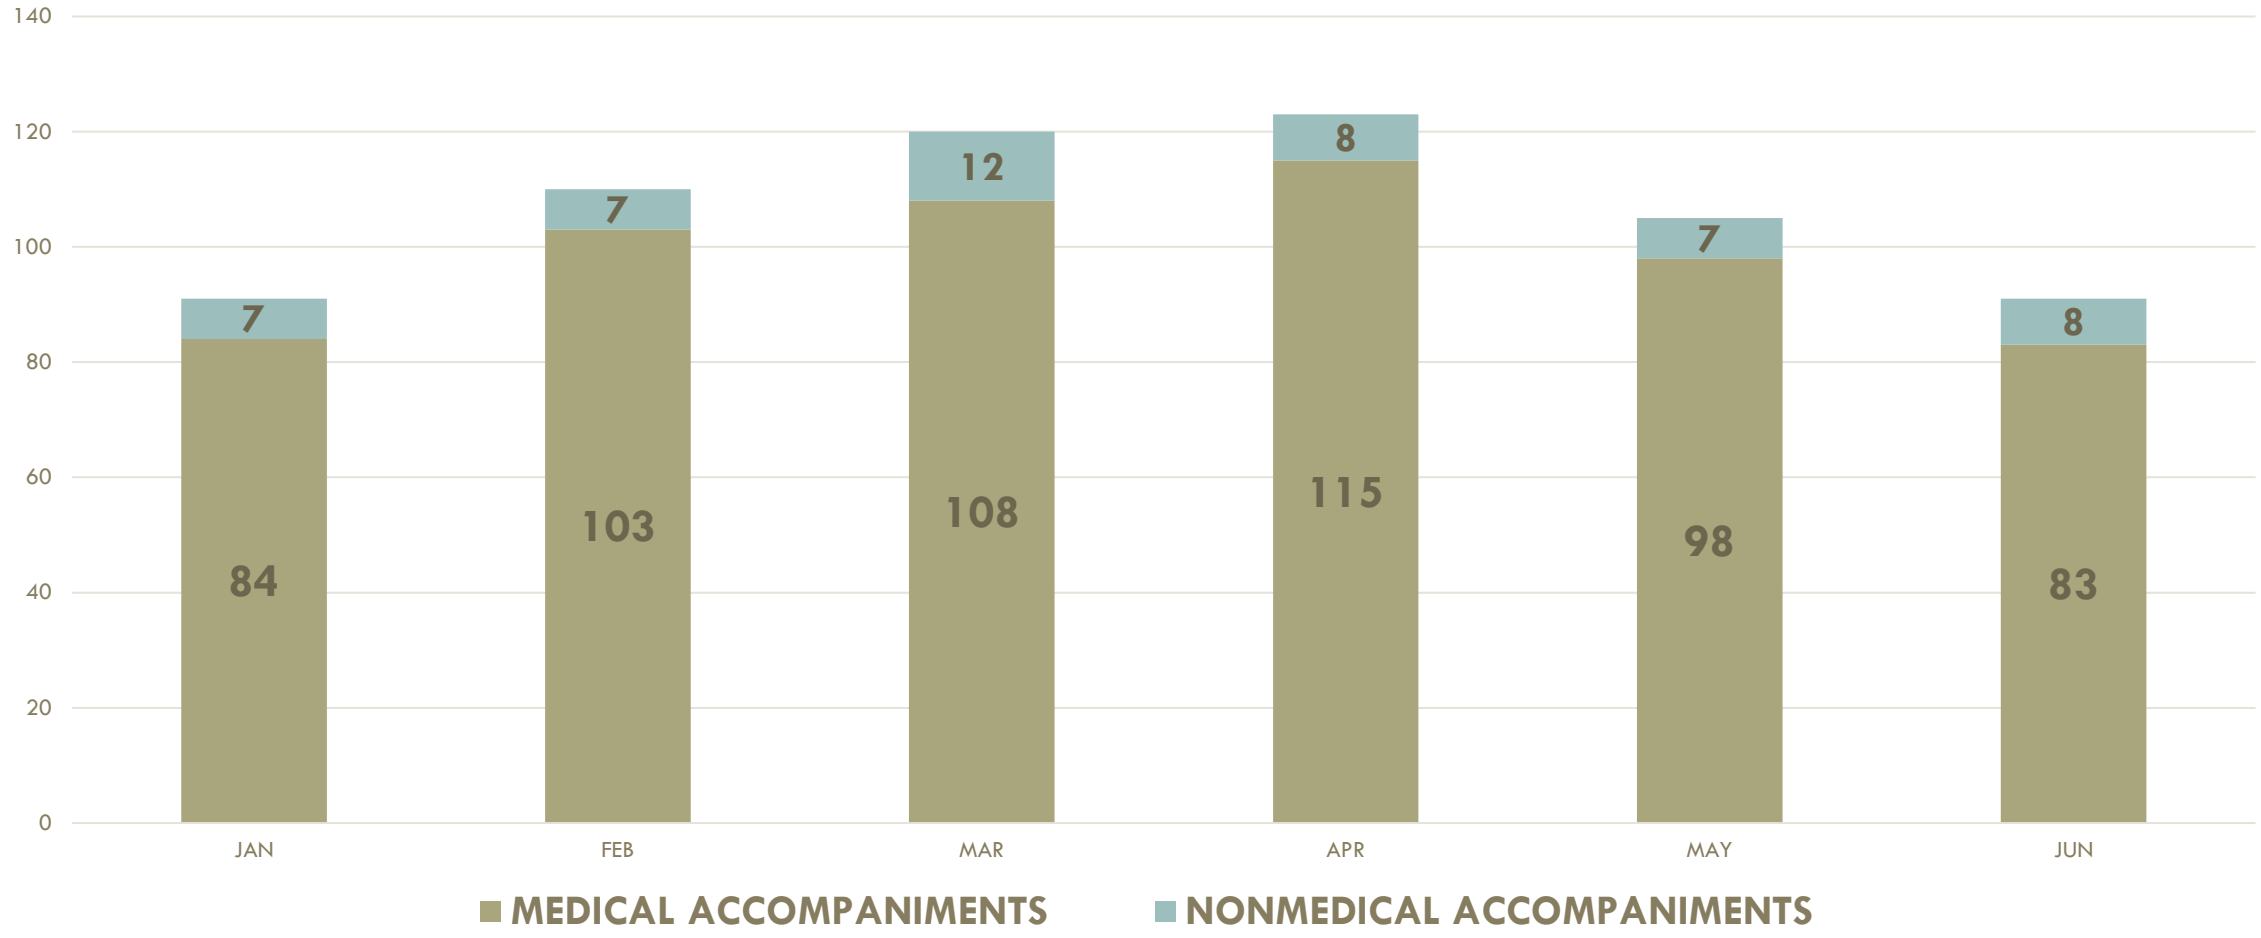

Brave Forensic Medical- Travis County

SAFE Advocacy Clients

SAFE Advocacy Medical and Nonmedical Accompaniments

Key Considerations Moving Forward	Strengthening cross-agency collaboration to align guidance, expectations, and operational roles Ongoing improvement of communication pathways between medical, advocacy, law enforcement, prosecution, and community partners
Data Consistency	Developing shared definitions to ensure consistent and comparable data collection across providers Establishing common performance measures and data-tracking practices
System Changes	Community exploration of a multi-provider service model to expand capacity Recognition that a multi-provider model requires enhanced infrastructure for referrals, warm handoffs, and survivor-centered advocacy Ensuring equitable access to exams and advocacy regardless of location or provider
