## Summary of Complaints Alleging Racial Profiling, 2021 CCP 2.134 {c}{2}

***In 2021 there were 19 formal complaints and 18 informal complaints of racial profiling reported to the Internal Affairs Division. Complaints are included if any part of the complaint alleges disparate treatment based on race or ethnicity, regardless of the merit of the allegation. This compares to 25 formal and 8 informal complaints in 2020.***

*Racial profiling complaints against the department are received in multiple ways. Complaints may be received from within the department, or from a citizen to a member of the department. Most racial profiling complaints are made through the Office of Police Oversight {formerly Office of the Police Monitor}.*

*Formal complaints are either Notice of Complaint forms received through the Office of Police Oversight {OPO} or are submitted from within the Department on an "/nternal Affairs Complaint" form, and are investigated by the Department's /nternal Affairs Division {/AD}. /nformal complaints are any for which no formal complaint has been received by /AD. Depending on the seriousness of the alleged complaint, it may be investigated by /AD or investigated by the subject offi cer's chain of command. Complaints directed to /AD will undergo an initial assessment, which will determine whether further investigation is warranted and designate a classification level for the complaint.*

*The outcome of an investigation can be: sustained, unfounded, exonerated, inconclusive, administratively closed, or a supervisor referral. A finding that is "sustained" indicates the investigation disclosed suffi cient evidence to establish that the act occurred and that it constituted misconduct. A finding that is "unfounded" indicates the investigation disclosed that the alleged act{s} did not occur. A finding of "exonerated" indicates the investigation disclosed that the alleged act occurred but that the act was justified, lawful and/or proper according to Departmental policy. A finding of "inconclusive" indicates the investigation disclosed there is insuffi cient evidence to sustain the complaint or fully exonerate the employee. An investigation may be "administratively closed" under the following circumstances: an administrative inquiry has been completed and no allegations were made or misconduct discovered; the case was classified as a lower level complaint; or, at the discretion of the Chief or designee. A "supervisor referral" is an informal complaint that did not result in an investigation but was referred to a supervisor for attention. At the conclusion of an investigation, the complainant is notified of the outcome in writing.*

*"Contact" or "Citizen Concern" is designated as a complaint type by /AD and/or OPO for cases that do not rise to the level of a formal or informal complaint because the complainant did not wish to speak to a supervisor, nor did they wish to make a formal complaint. Cases classified as a "contact" or "citizen concern" can come in many ways, including, but not limited to, a Complainant Contact Form {CCF}, or through contact directly with the OPO or /AD. /n a CCF, a supervisor speaks to the complainant to address their concerns on the scene of the incident or over the phone. While addressing their concerns, they review all available evidence which may include video or body worn camera {8WC} footage. The supervisor then forwards the information on the CCF to /AD for documentation. Additionally, the supervisor provides the contact information to the OPO for follow-up, should the complainant wish to make a formal complaint. /n the review of a CCF, the affected offi cer's chain of command may initiate an internal formal complaint if they observe policy violations.*
